171. (*1*) If a suit is instituted before the Collector in pursuance of the notice referred to in clause (*b*) of section 170, the Collector shall send to the officer referred to in section 169, or, if so requested, shall deliver to the owner of the distrained property, a certificate of the institution of the suit. [1859, ss. 125, 126.]

(*2*) A person whose property has been distrained under this Chapter may, immediately after the distraint and before an application is made under section 169, institute a suit to contest the demand of the distrainer ; and the Collector shall thereupon proceed as provided in sub-section (*1*).

(*3*) When a certificate under sub-section (*1*) or sub-section (*2*) is received by or presented to an officer referred to in section 169, sub-section (*1*), he shall suspend further proceedings in regard to the sale of the distrained property, pending the decision of the suit.

172. (*1*) When any person whose property has been distrained has instituted a suit to contest the demand of the distrainer, he may, at any time, execute a bond with security binding himself to pay whatever sum may be adjudged in the suit to be due from him, with interest and costs. [1859, s. 127.]

(*2*) When such a bond is executed, the Collector shall give to the said person a certificate to that effect, or, if so requested, shall serve the distrainer with notice that such a certificate has been given ; and upon such certificate being presented to the distrainer by the said person, or served on the distrainer by the Collector, the property shall be released from distraint.

173. On the expiration of the period fixed in the proclamation of sale, the officer referred to in section 169, sub-section (*1*), shall— [1889 s. 128.]

(*a*) if a certificate under section 171 of the institution of a suit to contest the demand of the distrainer has not been received by or presented to him,

(*b*) if a certificate has not been given under section 172, and

(*c*) if the said demand, with such costs of the distraint as are allowed by him, be not paid in full,

proceed to sell the property, or such part thereof as it may be necessary to sell in order to realise the said demand and costs.

Place of sale.

174. The sale shall be held at the place where the distrained property is, or at the nearest place of public resort if the officer holding the sale is of opinion that it is likely to sell there to better advantage. [1859, s. 129; 1885, s. 128.]

When produce may be sold standing.

175. (*1*) Crops or products which from their nature admit of being stored shall not be sold before they are reaped or gathered and are ready for storing. [1859, s. 118; 1885, s. 129.]

(*2*) Crops or products which from their nature do not admit of being stored may be sold before they are reaped or gathered, and the purchaser shall be entitled to enter on the land, by himself or by any person appointed by him in this behalf, and do all that is necessary for the purpose of tending and reaping or gathering them.

(*3*) In every case referred to in sub-section (*2*), the distraint shall be made at least twenty days before the time when the crops or products or any part thereof would be fit for reaping or gathering.

Manner of sale.

176. The property shall be sold by public auction, in one or more lots as the officer holding the sale may think advisable; and if the demand, with the costs of distraint and sale, is satisfied by the sale of a portion of the property, the distraint shall be immediately withdrawn with respect to the remainder. [1859, s. 129; 1885, s. 130.]

Postponement of sale.

177. If, on the property being put up for sale a fair price (in the estimation of the officer holding the sale) is not offered for it, and if the owner of the property, or a person authorized to act on his behalf, applies to have the sale postponed till the next day, or (if a market is held at the place of sale) the next market-day, the sale shall be postponed until that day, and shall be then completed, whatever price may be offered for the property. [1859, s. 130; 1885, s. 131.]

Payment of purchase-money.

178. The price of every lot shall be paid at the time of sale or as soon thereafter as the officer holding the sale directs, and in default of such payment the property shall be put up again and sold. [1859, s. 131; 1885, s. 132.]

[1859, s. 132; 1885, s. 134.]

(*2*) He shall then pay to the distrainer the expenses incurred by the distrainer on account of the distraint and

of the issue of the notice and proclamation of sale required by section 170, to such amount as, after examination of the statement of expenses furnished by the distrainer, he may think proper to allow.

(*3*) The remainder shall be applied to the discharge of the arrear for which the distraint was made, with interest thereon up to the day of sale; and the surplus (if any) shall be paid to the person whose property has been sold.

Certain persons may not purchase.

[1859, s. 121; 1885, s. 136 (*1*), (*3*).]

(*2*) A receipt granted under this section to an owner of distrained property not being the defaulter shall afford a full protection to him against any subsequent claim for the arrears of rent on account of which the distraint was made.

Amount paid by under-tenant for his lessor may be deducted from rent.

183. (*1*) When an inferior tenant, on his property being lawfully distrained under this Chapter for the default of a superior tenant, makes any payment under section 182, he shall be entitled to deduct the amount of that payment from any rent payable by him to his immediate landlord, and that landlord, if he is not the defaulter, shall in like manner be entitled to deduct the amount so deducted from any rent payable by him to his immediate landlord, and so on, until the defaulter is reached. [1885, s. 137.]

(*2*) Nothing in this section shall affect the right of an inferior tenant making a payment under section 182 to institute a suit for the recovery from the defaulter of any portion of the amount paid which he has not deducted under this section.

Conflict between rights of superior and inferior landlords.

184. When land is sub-let, and any conflict arises under this Chapter between the rights of a superior landlord and an inferior landlord who distrain the same property, the right of the superior landlord shall prevail. [1885, s. 138.]

Provided that such charge shall in no case exceed ten rupees.

(*2*) If the demand or any part thereof is found to be due, the Collector shall make a decree for the amount in favour of the distrainer.

Sale of distrained property in execution of decree.

(*1*) If, in any suit to contest the demand of a distrainer, the demand or any portion thereof is adjudged to be due, and if a bond has not been executed under section 172, the Collector shall send an order to the officer referred to in section 169, sub-section(*1*), authorizing the sale of the distrained property. [1859, s. 137.]

(*2*) If the distrainer applies to the said officer, within five days from the receipt of such order, for the sale of the said property, such officer shall—

(*4*) If the claim is upheld, the Collector shall decree the release of the distrained property, with costs and such damages (if any) as he thinks fit.

201. The Local Government, with the previous sanction of the Governor General in Council, may, by notification in the local official Gazette, declare that any portions of the Code of Civil Procedure, 1908, which are not expressly made applicable by this Act shall not apply to suits and other proceedings in Revenue Courts, or shall apply to them with such modifications as the Local Government, with the like sanction, may prescribe. [1885, s. 143; Act V of 1908, s. 5 (1).] V of 1908.

(*2*) Subject to any notifications so issued, and subject also to the other provisions of this Act, the Code of Civil Procedure, 1908, shall apply to all such suits and other proceedings. V of 1908.

Certain suits and applications cognizable only by the Collector.

202. The following suits and applications shall be cognizable by the Collector, and shall be instituted and tried or heard under the provisions of this Act, and shall not be cognizable in any other Court except as provided in this Act, namely :— [1859, ss. 23, 24; 1908, s. 139.]

(*a*) all suits and applications under any portion of this Act other than Chapter XI and Chapter XII, and

(*b*) all suits, by landlords and others in receipt of the rent of land, against any agents employed by them in the management of land or the collection of rents, or against sureties of such agents, for money received or accounts kept by such agents in the course of such employment, or for papers in their possession.

Special register of suits.

203. The Local Government may direct that all suits, or any specified class of suits, under this Act shall be registered, not in the register of Civil Suits kept under the Code of Civil Procedure, 1908, but in such other registers as it may prescribe. [1898, s. 74; *cf.* 1885, s. 146.] V of 1908.

Successive rent suits.

204. Subject to the provisions of rule 1 in Order XXIII in the first Schedule to the Code of Civil Procedure, 1908, where a landlord has instituted a suit against a raiyat for the recovery of any rent of his holding, the landlord shall not institute another suit against him for the recovery of any rent of that holding until after three months from the date of the institution of the previous suit. [1885, s. 147.] V of 1908.

Agreements and compromises.

205. (*1*) The provisions of rule 3 in Order XXIII in the first Schedule to the Code of Civil Procedure, 1908, shall not apply to any suit under this Act. [1885, s. 147A. Notfn.] V of 1908.

(*2*) If any suit under this Act is adjusted wholly or in part by any lawful agreement or compromise, or if the defendant satisfies the plaintiff in respect to the whole or any part of the matter of the suit, the Court shall pass a decree in accordance with such agreement, compromise or satisfaction, so far as it relates to the suit :

Provided that no decree shall be passed in accordance with any agreement or compromise the terms of which, if they were embodied in a contract, could not be enforced under this Act.

(*3*) Where any agreement or compromise has been made for the purpose of settling a dispute as to the rent payable, the Court shall, in order to ascertain whether the effect of such agreement or compromise would be to enhance the rent in a manner, or to an extent, not allowed by section 28 in the case of a contract, record evidence as to the rent which was legally payable immediately before the period in respect of which the dispute arose.

Orissa Tenancy.

(*Chapter XV.—Judicial Procedure.—Clauses 206, 207.*)

(*4*) Where the terms of any agreement or compromise are such as might unfairly or inequitably affect the rights of third parties, the Court shall not pass a decree in accordance with such agreement or compromise unless and until it is satisfied by evidence that the statements made by the parties thereto are correct.

Illustration.—*A*, a proprietor, agrees that *B*, his tenant, shall be recorded as an occupancy-raiyat: this affects the rights of the tenants of *B*. The Court must, under sub-section (*4*), inquire whether *B* is a tenure-holder or a raiyat as defined in Chapter II. If the Court finds on the evidence that *B* is a raiyat, it may pass a decree in accordance with the agreement, but shall not do so if it finds that *B* is a tenure-holder.

(*5*) A decree passed in accordance with any lawful agreement, compromise or satisfaction shall be final so far as it relates to so much of the subject-matter of the suit as is dealt with by such agreement, compromise or satisfaction

206. In all areas for which a record-of-rights has been finally published under Chapter XI or under any other law for the time being in force, or for which Land Records have been published and finally framed under Chapter XII., a Revenue Court shall, in all suits under this Act, have regard to the entries in such record-of-rights or Land Records relating to the subject-matter in dispute which may be produced before it, unless such entries have been proved by evidence to be incorrect; and, when a Revenue Court passes a decree at variance with such entries, it shall record its reasons for so doing. [1885, s. 147 & Notfn.]

Procedure in rent-suits.

207. The following rules shall apply to suits for the recovery of rent:— [1885, s. 148.]

(*b*) the plaint shall contain, in addition to the particulars specified in rules 1 to 6 in Order VII in the said Schedule, a statement of the situation, designation, extent and boundaries of the land held by the tenant; or, where the plaintiff is unable to give the extent or boundaries, in lieu thereof, a description sufficient for identification; [1859, s. 41; Ben. Act VI of 1862, s. 12.]

(*c*) where the suit is for the rent of land situated within an area for which a record-of-rights has been finally published under Chapter XI or under any other law for the time being in force, the plaint shall further contain—

(*i*) in the case of a holding—a statement of the plots, area and rental of the tenancy according to the record-of-rights, and

(*ii*) in other cases—an extract from the record-of-rights sufficient for identification of the tenancy,

unless the Court is satisfied, for reasons to be recorded in writing, that the plaintiff was prevented by any sufficient cause from furnishing such statement or extract:

Provided that, in all cases in which the Court admits a plaint which does not contain such statement or extract, the Court shall, and, in any other case, the Court may, require the Collector to supply, without payment of fee, a verified or certified copy of, or extract from, the record-of-rights relating to the tenancy;

Orissa Tenancy.

(Chapter XV.—Judicial Procedure.—Clause 208.)

(*d*) where an alteration has been made in the area of the tenancy since the record-of-rights was finally published, the plaint shall further contain a statement of the rental of the original tenancy according to the record-of-rights, together with a statement showing how the amount of rent claimed in the suit has been computed;

(*e*) notwithstanding anything contained in clauses (*c*) and (*d*), the Local Government may prescribe that all or any of the statements, copies and extracts referred to in those clauses may be made from Land Records published and finally framed under Chapter XII, instead of from records-of-rights;

(*f*) the summons shall be for the final disposal of the suit, unless the Court is of opinion that the summons should be for the settlement of issues only;

(*g*) the service of the summons may, if the Local Government, by rule, either generally, or specially for any local area, so directs, be effected by post, either in addition to, or in substitution for, any other mode of service;

(*h*) a written statement shall not be filed without the leave of the Court;

(*i*) the rules in rule 13 in Order XVIII in the first Schedule to the Code of Civil Procedure, 1908, for recording the evidence of witnesses shall apply, whether an appeal is allowed or not; V of 1908.

and thereafter copies and extracts, so certified, may be admitted in evidence in any other suit instituted in the same or any other Court, unless the Court before which they are produced sees fit to require the production of the originals;

(*k*) the Court may, when passing the decree, order, on the oral application of the decree-holder, the execution thereof, unless it is a decree for ejectment for arrears;

(*l*) notwithstanding anything contained in rule 16 in Order XXI in the first Schedule to the Code of Civil Procedure, 1908, an application for the execution of a decree for arrears obtained by a landlord shall not be made by an assignee of the decree, unless the landlord's interest in the land has become and is vested in him. V of 1908.

Suit by co-sharer Landlord for arrears of rent.

208. Where a co-sharer landlord, who has instituted a suit to recover the rent due to all the co-sharer landlords in respect of an entire tenure or holding, and has made all the remaining co-sharers parties defendant to the suit, is unable to ascertain what rent is due for the whole tenure or holding, [1885, s. 148A.]

or whether the rent due to the other co-sharer landlords has been paid or not, owing to the refusal or neglect of the tenant, or of the co-sharer landlords defendant to the suit, to furnish him with correct information on these points, or on either of them,

such plaintiff co sharer landlord shall be entitled to proceed with the suit for his share only of the rent ;

and a decree obtained by him in a suit so framed shall, as regards the remedies for enforcing the same, be as effectual as a decree obtained by a sole landlord or an entire body of landlords in a suit brought for the rent due to all the co-sharers.

Payment into Court of rent admitted to be due to third person.

209. (*1*) When a defendant admits that money is due from him on account of rent, but pleads that it is due not to the plaintiff but to a third person, the Court shall refuse to take cognizance of the plea unless the defendant pays into Court the amount so admitted to be due. [1869, s. 77; 1885, s. 149.]

(*2*) Where such a payment is made, the Court shall forthwith cause notice of the payment to be served on the third person, and shall by the notice require him to appear before it on a specified date, and, after taking evidence (if necessary) shall pass orders.

(*3*) If the plea is allowed, an order shall be made for payment to the third party, and, if it is not allowed, an order shall be made for payment to the plaintiff.

(*4*) Nothing in this section shall affect the right of any person to recover from the plaintiff money paid to him under sub-section (*3*), or to present an appeal under section 213.

Payment into Court of rent admitted to be due to landlord.

210. When a defendant admits that money is due from him to the plaintiff on account of rent, but pleads that the amount claimed is in excess of the amount due, the Court shall refuse to take cognizance of the plea unless the defendant pays into Court the amount so admitted to be due. [1885, s. 150.]

Provisions as to payment of portion of money.

211. When a defendant is liable to pay money into Court under section 209 or section 210, if the Court thinks that there are sufficient reasons for so ordering, it may take cognizance of the defendant's plea on his paying into Court such reasonable portion of the money as the Court directs. [1885, s. 151.]

Court to grant receipt.

212. When a defendant pays money into Court under section 209 or section 210, the Court shall give the defendant a receipt; and the receipt so given shall operate as an acquittance in the same manner and to the same extent as if it had been given by the plaintiff or the third person, as the case may be. [1885, s. 152.]

[*Sub-clauses* (*1*) *to* (*4*) *of clause 213 reproduced in sub-clauses* (*1a*), (*1b*) *and* (*1c*).]

Appeals.

(*b*) an order passed in the course of a suit and relating to the trial thereof, or

(*c*) an order passed after decree and relating to the execution thereof,

(ii) if passed by a Deputy Collector exercising the powers of a Collector, to the Collector.

(*1b*) In suits where the subject-matter of the claim or dispute does not exceed one hundred rupees in value, and the judgment does not decide a question whether rent is payable for land or not, or a question relating to title to land or to some interest in land as between parties to the suit, the judgment of the Collector shall be final:

Provided that, if the suit be tried and decided by a Deputy Collector exercising the powers of a Collector, an appeal shall lie from the judgment of the Deputy Collector to the Collector.

(*1c*) In suits other than those referred to in sub-section (*1b*), an appeal from the judgment of the Collector or Deputy Collector shall lie to the District Judge, unless the amount or value in dispute exceeds five thousand rupees, in which case the appeal shall lie to the High Court:

Provided that a second appeal shall lie to the High Court under Order XLII in the first schedule to the Code of Civil Procedure, 1908, from any appellate decree passed by the District Judge under this section. V of 1908.

(*5*) Notwithstanding anything hereinbefore contained, the Collector may call for the record of any case in which any Deputy Collector has passed a decree or order to which this section applies, if it appears that such officer has exercised a jurisdiction not vested in him by law, or has failed to exercise a jurisdiction so vested, or has acted in the exercise of his jurisdiction illegally or with material irregularity; and the Collector may pass such order as he thinks fit.

Explanation.—A question as to the regularity of the proceedings in publishing or conducting a sale in execution of a decree for arrears of rent is not a question relating to title to land or to some interest in land as between parties having conflicting claims thereto.

Deposit on application to set aside ex parte decree, or for review of judgment.

214. Every application for an order under rule 13 in Order IX in the first Schedule to the Code of Civil Procedure, 1908, to set aside a decree passed *ex parte*, or for a review of judgment, under section 114 of the said Code, in a suit under this Act, shall contain a statement of the injury sustained by the applicant by reason of the decree or judgment; [1885, s. 153A.] V of 1908.

and no such application shall be admitted—

(*a*) unless the applicant has, at or before the time when the application is admitted, deposited in the Court to which the application is presented the amount, if any, which he admits to be due from him to the decree-holder, or such amount as the Court may, for reasons to be recorded by it in writing, direct; or

(*b*) unless the Court, after considering the statement of injury, is satisfied, for reasons to be recorded by it in writing, that no such deposit is necessary.

Date from which decree for enhancement takes effect.

215. A decree for enhancement of rent under this Act, if passed in a suit instituted in the first eight months of an agricultural year, shall ordinarily take effect on the commencement of the agricultural year next following; and, if passed in a suit instituted in the last four months of the [1885, s. 154.]

agricultural year, shall ordinarily take effect on the commencement of the agricultural year next but one following; but nothing in this section shall prevent the Court from fixing, for special reasons, a later date from which any such decree shall take effect.

Relief against forfeitures.

216. (*1*) A suit for the ejectment of a tenant, on the ground— [1885, s. 155.]

(*a*) that he has used the land in a manner which renders it unfit for the purposes of the tenancy, or

(*b*) that he has broken a condition on breach of which he is, under the terms of a contract between him and the landlord, liable to ejectment,

shall not be entertained unless the landlord has served, in the prescribed manner, a notice on the tenant specifying the particular misuse or breach complained of, and, where the misuse or breach is capable of remedy, requiring the tenant to remedy the same, and, in any case, to pay reasonable compensation for the misuse or breach, and the tenant has failed to comply within a reasonable time with that request.

(*2*) A decree passed in favour of a landlord in any such suit shall declare the amount of compensation which would reasonably be payable to the plaintiff for the misuse or breach, and whether, in the opinion of the Court, the misuse or breach is capable of remedy, and shall fix a period during which it shall be open to the defendant to pay that amount to the plaintiff, and, where the misuse or breach is declared to be capable of remedy, to remedy the same.

(*3*) The Court may, from time to time, for special reasons, extend a period fixed by it under sub-section (*2*).

(*4*) If the defendant, within the period or extended period (as the case may be) fixed by the Court under this section, pays the compensation mentioned in the decree, and, where the misuse or breach is declared by the Court to be capable of remedy, remedies the misuse or breach to the satisfaction of the Court, the decree shall not be executed.

Rights of ejected raiyats in respect of crops and land prepared for sowing.

217. The following rules shall apply in the case of every raiyat ejected from a holding:— [1885, s. 156.]

(*a*) when the raiyat has, before the date of his ejectment, sown or planted crops in any land comprised in the holding, he shall be entitled, at the option of the landlord, either to retain possession of that land and to use it for the purpose of tending and gathering in the crops, or to receive from the landlord the value of the crops as estimated by the Court executing the decree for ejectment;

(*b*) when the raiyat has, before the date of his ejectment, prepared for sowing any land comprised in his holding, but has not sown or planted crops in that land, he shall be entitled to receive from the landlord the value of the labour and capital expended by him in so preparing the land, as estimated by the Court executing the decree for ejectment, together with reasonable interest on that value;

(*Chapter XV.—Judicial Procedure.—Chapter XVI.—Summary Procedure for the recovery of Rents under the Public Demands Recovery Act, 1895.—Clauses 218—220.*)

(*c*) but a raiyat shall not be entitled to retain possession of any land or receive any sum in respect thereof under this section where, after the commencement of proceedings by the landlord for his ejectment, he has cultivated or prepared the land contrary to local usage;

(*d*) if the landlord elects under this section to allow a raiyat to retain possession of the land, the raiyat shall pay to the landlord, for the use and occupation of the land during the period for which he is allowed to retain possession of the same, such rent as the Court executing the decree for ejectment may deem reasonable.

Power for Court to fix fair rent as alternative to ejectment.

218. When a plaintiff institutes a suit in a Civil Court for the ejectment of a trespasser, he may, if he thinks fit, claim as alternative relief that the defendant be declared liable to pay for the land in his possession a fair and equitable rent, to be determined by the Court; and the Court may grant such relief accordingly. [1885, s. 157.]

Application to determine incidents of tenancy.

219. (*1*) Subject to the provisions of section 132, the Court having jurisdiction to determine a suit for the possession of land may, on the application of either the landlord or the tenant of the land, determine all or any of the following matters, namely:— [1885, s. 158.]

(*a*) the situation, quantity and boundaries of the land;

(*b*) the name and description of the tenant thereof (if any);

(*c*) the class to which he belongs, that is to say, whether he is a tenure-holder, bajiaftidar, raiyat holding at fixed rates, occupancy-raiyat, non-occupancy-raiyat, under-raiyat or chandnadar, and, if he is a tenure-holder, whether he is a permanent tenure-hloder or not, and whether his rent is liable to enhancement during the continuance of tenure; and

(*d*) the rent payable by him at the time of the application.

(*2*) If, in the opinion of the Court, any of these matters cannot be satisfactorily determined without a local inquiry, the Court may direct that a local inquiry be held under Order XXVI in the first Schedule to the Code of Civil Procedure, 1908, by such Revenue-officer as the Local Government may authorize in that behalf by rule made under rule 9 in the said Order. V of 1908.

(*3*) The order on any application under this section shall have the effect of, and be subject to the like appeal as, a decree.

(*a*) in the case of a tenure, or a holding of a raiyat holding at fixed rates or of a bajiaftidar, that the tenure or holding will first be put up to auction subject to the registered and notified incumbrances, and will be sold subject to those incumbrances if the sum bid is sufficient to liquidate the amount of the decree and costs, and that otherwise it will, if the decree-holder so desires, be sold on a subsequent day, of which due notice will be given, with power to annul all incumbrances; and

(*b*) in the case of an occupancy-holding, not being the holding of a bajiaftidar, that the holding will be sold with power to annul all incumbrances.

(*2*) Every such application must be accompanied by such fee for the service of the notice as the Board of Revenue may fix in this behalf.

(*3*) When an application for service of a notice is made to the Collector in manner prescribed by this section, he shall cause the notice to be served in compliance therewith, and the incumbrance shall be deemed to be annulled from the date on which it is so served.

(*4*) When a tenure or holding is sold in execution of a decree for arrears due in respect thereof, and there is on the tenure or holding a protected interest of the kind specified in section 223, clause (*o*), the purchaser may, if he has power under this Chapter to avoid all incumbrances, sue to enhance the rent of the land which is the subject of the protected interest. On proof that the land is held at a rent which was not at the time the lease was granted a fair rent, the Court may enhance the rent to such amount as appears to be fair and equitable.

This sub-section shall not apply to land which has been held for a term exceeding twelve years at a fixed rent equal to the rent of good arable land.

231. (*1*) The Local Government may, by notification in the local official Gazette, direct that occupancy-holdings or any specified class of occupancy-holdings, in any local area, which are put up for sale in execution of a decree for an arrear of rent due on them, shall, before being put up with power to avoid all incumbrances, be put up subject to registered and notified incumbrances. [1885, s. 168; Notfn.]

(*2*) While any such direction remains in force in respect of any local area, all occupancy-holdings, or, as the case may be, occupancy-holdings of the specified class, in that local area, shall, for the purposes of sale under the foregoing sections of this Chapter, be treated in all respects as if they were tenures.

(3) Nothing in the sub-sections 1 and 2 shall apply to the holdings of bajiaftidars.

Rules for disposal of the sale-proceeds.

232. (*1*) In disposing of the proceeds of a sale under this Chapter, the following rules, instead of those prescribed by section 73 of the Code of Civil Procedure, 1908, shall be observed, that is to say— [1885, s. 169 Notfn.] V of 1908.

(*a*) there shall first be paid to the decree-holder the costs incurred by him in bringing the tenure or holding to sale;

Orissa Tenancy.

(Chapter XVII.—Sale for Arrears under Decree.—Clause 233.)

(*b*) there shall, in the next place, be paid to the decree-holder the amount due to him under the decree in execution of which the sale was made;

(*c*) if there remains a balance after these sums have been paid, there shall be paid to the decree-holder therefrom any rent which may have fallen due to him in respect of the tenure or holding between the institution of the suit and the date of the sale;

(*d*) the balance (if any) remaining after the payment of the rent mentioned in clause (*c*) shall, upon the expiration of two months from the confirmation of the sale, be paid to the judgment-debtor upon his application.

Provided that, where a tenure or holding has been sold in execution of a decree obtained by one or more co-sharer landlords in a suit framed under section 208 or a decree referred to in sub-section (*1*) of section 221,—

(*i*) payment of the amount due under such decree shall, notwithstanding anything contained in clause (*b*), be made to the decree-holder and to the other co-sharer landlords in proportion to the amount found to be due to each, and

(*ii*) if there remains a balance, payment of any rent which may have fallen due in respect of the tenure or holding between the institution of the suit and the date of the sale shall, notwithstanding anything contained in clause (*c*), but subject to the determination, in the manner and with the effect mentioned in sub-section (*2*), of any dispute as to their respective rights to receive such rent, be made to the said decree-holder and the other co-sharer landlords in proportion to their respective shares in the tenure or holding.

(*2*) If the judgment-debtor disputes the decree-holder's right to receive any sum on account of rent under clause (*c*), the Court shall determine the dispute, and the determination shall have the force of a decree.

Tenure or holding to be released from attachment only on payment into Court of amount of decree, with costs, or on confession of satisfaction by decree-holder.

233. (*1*) Rules 58 to 63 and 89 in Order XXI in the first Schedule to the Code of Civil Procedure, 1908, shall not apply to a tenure or holding attached in execution of a decree for arrears due thereon. [1888, s. 170, Notfn.] V of 1908.

(*2*) When an order for the sale of a tenure or holding in execution of such a decree has been made, the tenure or holding shall not be released from attachment unless, before it is knocked down to the auction-purchaser, the amount of the decree, including the costs decreed, together with the costs incurred in order to the sale, is paid into Court, or the decree-holder makes an application for the release of the tenure or holding on the ground that the decree has been satisfied out of Court.

(*3*) The judgment-debtor, or any person having in the tenure or holding any interest voidable on the sale, may pay money into Court under this section.

234. (*1*) When any person having, in a tenure or holding advertised for sale under this Chapter an interest which would be voidable upon the sale, pays into Court the amount requisite to prevent the sale,— [1885, s. 171, Notfn.]

(*a*) the amount so paid by him shall be deemed to be a debt bearing interest at twelve and-a-half *per centum per annum* and secured by a mortgage of the tenure or holding to him;

(*b*) his mortgage shall take priority of every other charge on the tenure or holding other than a charge for arrear of rent; and

(*c*) he shall be entitled to possession of the tenure or holding as mortgagee of the tenant, and to retain possession of it as such until the debt, with the interest due thereon, has been discharged.

(*2*) Nothing in this section shall affect any other remedy to which any such person would be entitled.

Inferior tenant paying into Court may deduct from rent.

235. When a tenure or holding is advertised for sale under this Chapter in execution of a decree against a superior tenant defaulting, and an inferior tenant, whose interest would be voidable upon the sale, pays money into Court in order to prevent the sale, he may, in addition to any other remedy provided for him by law, deduct the whole or any portion of the amount so paid from any rent payable by him to his immediate landlord; and that landlord, if he is not the defaulter, may in like manner deduct the amount so deducted from any rent payable by him to his immediate landlord, and so on until the defaulter is reached. [1885, s. 172; Notfn.]

Decree-holder may bid at sale; judgment-debtor may not.

236. (*1*) Notwithstanding anything contained in rule 72 in Order XXI in the first Schedule to the Code of Civil Procedure, 1908, the holder of a decree in execution of which a tenure or holding is sold under this Chapter may, without the permission of the Court, bid for or purchase the tenure or holding. [1885, s. 173; Notfn.] V of 1908

(*2*) The judgment-debtor shall not bid for or purchase a tenure or holding so sold.

(*3*) When a judgment-debtor purchases by himself or through another person a tenure or holding so sold, the Court may, if it thinks fit, on the application of the decree-holder or any other person interested in the sale, by order set aside the sale; and the costs of the application and order, and any deficiency of price which may happen on the re-sale, and all expenses attending it, shall be paid by the judgment-debtor.

Application by judgment-debtor to set aside sale.

237. (*1*) Where a tenure or holding is sold for an arrear of rent due thereon, then, at any time within thirty days from the date of sale, the judgment-debtor may apply to have the sale set aside, on his depositing in Court, for payment to the decree-holder, the amount recoverable under the decree, with costs, and, for payment to the purchaser, a sum equal to five *per centum* of the purchase-money. [1885, s. 174; Notfn.]

(*2*) If such deposit is made within the thirty days, the Court shall pass an order setting aside the sale, and the provisions of rule 93 in Order XXI in the first Schedule to the Code of Civil Procedure, 1908, shall apply in the case of a sale so set aside:

Provided that, if a judgment-debtor applies under rule 90 in the said Order to set aside the sale of his tenure or holding, he shall not be entitled to make an application under this section, and if he applies under this section he shall not be entitled to make an application under the said rule 90. 241. (1) Nothing in any contract between a landlord and a tenant, whether made before or after the commencement of this Act,— [1885, s. 178.]

(a) shall bar in perpetuity the acquisition of an occupancy-right in land, or

(b) shall take away an occupancy-right in existence at the date of the contract, or

(c) shall entitle a landlord to eject a tenant otherwise than in accordance with the provisions of this Act, or

(d) shall take away or limit the right of a tenant, as provided by this Act, to make improvements and claim compensation for them.

(2) Nothing in any contract made between a landlord and a tenant within a period of five years immediately preceding the commencement of this Act shall prevent a raiyat from acquiring, in accordance with this Act, an occupancy-right in land.

(3) Nothing in any contract made between a landlord and a tenant after the commencement of this Act shall—

(b) take away or limit the right of an occupancy-raiyat to use land as provided by section 22;

(c) take away the right of a raiyat to surrender his holding in accordance with section 89;

Provided as follows:—

(*i*) nothing in this section shall affect the terms or conditions of a lease granted *bonâ fide* for the reclamation of waste land, except that, where, on or after the expiration of the term created by the lease, the lessee would, under Chapter V, be entitled to an occupancy-right in the land comprised in the lease, nothing in the lease shall prevent him from acquiring that right;

(*ii*) when a landlord has reclaimed waste land by his own servants or hired labourers, and subsequently lets the same or a part thereof to a raiyat, nothing in this Act shall affect the terms of any contract whereby a raiyat is prevented from acquiring an occupancy-right in the land or part during a period of thirty years from the date on which the land or part is first let to a raiyat;

(*iii*) nothing in this section shall affect the terms or conditions of any contract for the temporary cultivation of horticultural or orchard land with agricultural crops.

Explanation.—The expression "horticultural land," as used in proviso (*iii*), means garden land, in the occupation of a proprietor or permanent tenure-holder, which is used *bonâ fide* for the cultivation of flowers or vegetables or both, grown for the personal use of such proprietor or permanent tenure-holder and his family, and not primarily for profit or sale.

Permanent mukarrari leases.

242. Nothing in this Act shall be deemed to prevent a proprietor or a holder of a permanent tenure in a permanently-settled area from granting a permanent mukarrari lease on any terms agreed on between him and his tenant. [1885, s. 179.]

(2) Chapter VI shall not apply to raiyats holding land under the custom of utbandi in respect of land held by them under that custom.

(3) The Collector may, on the application of either the landlord or the tenant, or on a reference from the Revenue Court, declare that any land has ceased to be char or diára land within the meaning of this section; and thereupon all the provisions of this Act shall apply to the land.

Saving as to service-tenures.

[1885, s. 182.]

(2) Save as otherwise expressly provided in this Act, the incidents of the tenancy of a *chandnadar* shall be regulated by local custom or usage, and his rent shall be liable to re-assessment on each revision of a land-revenue settlement. [*Sub-clause (2) added in Select Committee.*]

Saving of custom.

246. Nothing in this Act shall affect any custom, usage or customary right not inconsistent with, or not expressly or by necessary implication modified or abolished by, its provisions. [1885, s. 183.]

Illustrations.

[*Illustration (1) omitted and replaced by illustration (1a).*]

(1a)—The custom or usage whereby the right of a non-occupancy raiyat is heritable, is not inconsistent with, and is not expressly or by necessary implication modified or abolished by, the provisions of this Act. That custom or usage, accordingly, wherever it exists, will not be affected by this Act.

(2) The custom or usage that an under-raiyat should, under certain circumstances, acquire a right of occupancy is not inconsistent with, and is not expressly or by necessary implication modified or abolished by, the provisions of this Act. That custom or usage, accordingly, wherever it exists, will not be affected by this Act.

(*2*) Every notice required by this Act to be served on, or given to, a landlord shall, if served on, or given to, an agent empowered as aforesaid to accept service of or receive the same on behalf of the landlord, be as effectual for the purposes of this Act as if it had been served on, or given to, the landlord in person.

256. Where the area comprised in a tenancy is situated in an estate which has never been permanently settled, nothing in this Act shall prevent the enhancement of the rent upon the expiration of a temporary settlement of the land-revenue, unless the right to hold beyond the term of the settlement at a particular rate of rent has been expressly recognized in settlement proceedings by a revenue-authority empowered by the Government to make definitively or confirm settlements. [1885, s. 191; Notfn.] [*An omission was made from this clause in Select Committee.*]

(2) D.-O. letter No. 50 M.B., dated the 22nd February, 1912, and enclosure, from the Commissioner of the Burdwan Division, containing an opinion on the provisions of the Bill (page 2).

Clause 3.—Appointment of Mines Board of Health.

2. We have increased the maximum number of members from eight to nine, and have provided that, ordinarily, two members shall be nominated by owners of mines, but that, if the Board consists of more than five members, three shall be so nominated. We have left to the Local Government the appointment of one of the members as Chairman. Owing to the varying nature of the areas within which such Boards of Health may be created, we have given to the Local Government a free hand in the selection of members.

Clause 4.—Procedure for the formation of a mining settlement.

3. We have given to the Local Government power to take steps towards the declaration of an area as a mining settlement, either on its own motion or at the instance of a Mines Board of Health.

Clause 5.—Duties of sanitary officers under the Board.

4. We have made it clear that the Sanitary officer, in addition to the ordinary duties of submitting proposals for improved sanitation, shall exercise certain executive functions subject to the control of the Mines Board of Health, especially for the purpose of dealing with outbreaks of epidemic disease.

Clause 7.—Notice to execute works of sanitation.

5. The Bill, as introduced, provides that notices may be issued to owners of mines and owners of lands. We have retained the word "owners" with reference to mines only; and have designated the other class as landholders, who

are described in a new sub-clause (*2*) under clause 7, and include permanent tenure-holders. We have thought it desirable to impose on proprietors the liability to execute works of sanitation in the cases in which the land in question has been let out to temporary lease-holders.

Clause 11.—Apportionment of expenses.

6. We have separated the charges leviable on account of the general administration of the Mines Board of Health and the charges leviable on account of action taken in the case of specific areas. We have ascertained that, on the basis of the existing payments of road cess by mine-owners and royalty-receivers, a fair apportionment of charges would be nine-tenths to the former and one-tenth to the latter; but we do not think that it is desirable to give statutory validity to this proportion, and have accordingly left the proportion to be paid by these two bodies respectively to be decided from time to time by the Local Government. But we trust that, at the outset, when this Bill comes into operation, the above proportion may be laid down by rule. On the other hand, we have departed from the provisions of sub-clause (*3*) of clause 7, as introduced, by declaring that the distribution of charges amongst owners of mines shall be in proportion to output, and that the similar distribution of charges amongst the royalty-receivers shall be in proportion to the incidence of cess upon them. This proposal was made by the Committee of the Indian Mining Association; and it is likely to prove more equitable than the original provision in the Bill.

Clause 11 [sub-clause (4)].—Appeals.

7. We have provided under this sub-clause for the adjudication of charges by the Mines Board of Health, and for an appeal to the Commissioner in the case of expenses incurred at the instance of the Board by a holder of land under clause 7.

Clause 12.—Rule-making powers.

8. These have been enlarged. In particular, provision is now made for the methods of calculating and recovering charges due to the Board. The provisions of clause 5 (*3*) (*iii*) and clause 6 have been embodied in this clause.

Clause 17.—Penalties.

9. A new provision has been added that any fines realized under this section are to be credited to the Mines Board of Health concerned, to be employed in furtherance of the objects of the Act.

WHEREAS it is expedient to provide for the better control and sanitation of mining settlements in Bengal;

It is hereby enacted as follows :—

(*6*) Nominations under sub-section (*4*) or sub-section (*5*) must be made under such procedure, and within such period, as may be prescribed by rules made under this Act; and, in default of nomination in accordance with such rules, the Local Government may appoint any person it thinks fit.

Procedure for declaring area to be a mining settlement.

4. [*Sub-clause* (*1*) *omitted.*]

(*2*) The Local Government may of its own motion, or after considering any report submitted to it by a Mines Board of Health, publish a notice in the local official Gazette and in such other manner (if any) as it may think fit, intimating its intention to declare any area (not being or forming part of a mine) to be a mining settlement for the purposes of this Act. [*Cf.* Ben. Act III of 1899, s. 640.]

The Bengal Mining Settlements Bill, 1912.

(*Clauses 5-7.*)

(*3*) The Local Government shall consider any objections to the intended declaration which may be submitted to it in writing within such period as may be specified in this behalf in the said notice, [*Cf.* Ben. Act III of 1899, s. 641.]

and may then, by notification in the local official Gazette, declare that any area or portion of an area referred to in the said notice shall, for the purposes of this Act, be a mining settlement, and be subject to the authority of such Mines Board of Health as the Local Government may designate.

(*iii*) (*Omitted.*) [*Cf.* Act III of 1897, s. 2(*1*).]

(*iv*) to provide for the housing of residents; and

(*b*) (*Omitted.*)

(*bb*) to exercise, subject to the control of the Mines Board of Health to which he is subordinate, such other functions, consistent with the objects of this Act and calculated to prevent the outbreak or spread of dangerous epidemic disease, as the Local Government may, by general or special order, direct, or as may be delegated to him by such Board. [*Sub-clause* (*bb*) *added in Select Committee.*]

6. (*Omitted.*)

Notice requiring owners to execute and maintain works of sanitation, or to carry on periodical sanitary operations.

8. If any work required by a notice served under section 7 be not executed to the satisfaction of the Board within the period fixed by the notice, or within such further period (if any) as may be allowed by the Board, or

if any work executed in pursuance of any such notice be not maintained in repair to the satisfaction of the Board, or

if any operations required by any such notice be not carried on to the satisfaction of the Board,

the Board, after serving a warning notice on the defaulters, shall prepare an estimate of the cost of the work which ought, in their opinion, to be carried out, and may entertain any establishment necessary for the preparation of such estimate, and may also cause such work to be executed.

Power for Chairman to discharge functions of Board in certain cases.

9. Any of the powers or duties conferred or imposed by section 7 or section 8 upon a Mines Board of Health may be exercised or performed by the Chairman of the Board in any case which he considers to be of such urgency as to render it impracticable to hold a meeting of the Board.

Service of notices.

10 Any notice sent by post under section 7 or section 8 shall be forwarded under registered cover. [*Cf.* Ben. Act I of 1899, s. 28.]

Charging, apportionment and recovery of expenses.

11. (*1*) All expenses incurred by a Mines Board of Health for the purposes of this Act, other than expenses under section 8 and section 9, shall be charged to—

(*a*) all owners of mines in which are employed persons residing in the mining settlements which are subject to the authority of that Board, and

(*b*) all persons who receive any royalty, rent or fine from such mines.

(*2*) All expenses incurred by a Mines Board of Health under section 8, or by the Chairman thereof under section 9, whether or not they exceed the estimate prepared under the former section,

and all expenses incurred by any holder of land in executing or maintaining any work or carrying on any operations in pursuance of a notice served under clause (*b*) of sub-section (*1*) of section 7 shall be charged to—

(*i*) all owners of mines in which are employed persons residing in the settlement or part, and

(*ii*) all persons who receive any royalty, rent or fine from such mines:

Provided that, if it can be shown to the satisfaction of the Board that the insanitary condition is distinctly referable to any act or omission on the part of one or more mine-owners in respect to his or their property, the Board may direct that the expenses incurred shall be payable by such owner or owners only. [*Proviso added in Select Committee.*]

[*Sub-clause* (*3*) *replaced by sub-clauses* (*3a*) *and* (*3b*).]

(*3a*) Save in the case specified in the proviso to sub-section (*2*), the expenses referred to in sub-sections (*1*) and (*2*) shall be charged to the said owners and persons in such proportions as the Local Government may, from time to time, direct:

The Bengal Mining Settlements Bill, 1912.

(*Clause 12.*)

Provided that the assessment shall be based—

(*i*) in the case of owners of mines, on the output of their mines; and

(*ii*) in the case of the receivers of any royalty, rent or fine, on the road cess payable by such persons.

(*3b*) All expenses chargeable under this section shall be recoverable as if they were arrears of land-revenue.

(*4*) When any expenses incurred by any holder of land in executing or maintaining any work or carrying on any operations in pursuance of a notice served under clause (*b*) of sub-section (*1*) of section 7, have been recovered, they shall be repaid to him:

(*aa*) regulate all expenditure to be incurred by a Mines Board of Health, and the methods under which sums due to it may be calculated and recovered; [*Sub-clause (aa) added in Select Committee.*]

(*b*) regulate the duties and powers of Sanitary Officers, and provide for appeals from their orders;

(*c*) prescribe the duties of owners, agents and managers of mines in respect of mining settlements, and of all persons acting under them;

Prosecution of owner, agent or manager.

Limitation of prosecutions.

Cognizance of offences

20. No Court inferior to that of a Magistrate of the first class or Sub-divisional Magistrate shall try any offence against this Act or any rule or order thereunder which— [*Cf.* 1901, s. 25.]

(*b*) is punishable with imprisonment.

Power of Local Government to alter or rescind orders

21. The Local Government may reverse or modify any order passed under this Act by any authority. [*Cf.* 1901, s. 30.]

QUESTIONS AND ANSWERS.

ALLEGED ARREST OF BABU BEPIN CHANDRA PAL.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

I. (*a*) Has the attention of the Government been drawn to an incident reported in the *Bengalee* of the 14th instant, concerning the arrest of Babu Bepin Chunder Pal on a charge of theft of a woollen sheet preferred by a man alleged to be an informer in the Criminal Investigation Department?

(*b*) Will the Government be pleased to state whether it is true that Babu Bepin Chunder Pal was arrested by the Sub-Inspector of the Sookea Street Thana on the charge above mentioned and brought out into the street in consequence, and that he was released on his explaining that the complainant had voluntarily left the sheet behind, and that he (Babu Bepin Chunder Pal) had caused it to be sent to Rai Benode Bihari Gupta Bahadur, an officer of the Criminal Investigation Department?

(*c*) Will the Government be pleased to inquire into the circumstances and publish the result of the inquiry?

The Hon'ble MR. STEVENSON-MOORE replied :—

(*a*) "The answer is in the affirmative.

(*b*) It is not true that Babu Bepin Chandra Pal was arrested or that he was released on his explaining, *firstly*, that the complainant had voluntarily left his *alwan* behind, and *secondly*, that he (Babu Bepin Chandra Pal) had caused it to be sent to the Criminal Investigation Department.

(*c*) Government has caused an inquiry to be made and the police report of the facts is placed on the table."

Police Report referred to by the Hon'ble Mr. Stevenson-Moore in answer to Question No. I, asked by the Hon'ble Babu Bhupendra Nath Basu at the Council Meeting of the 6th March, 1912.

ON the 30th December last, Babu Bepin Chandra Pal left his house at Kalighat by tram at about 9-30 A.M. He was followed by a watcher who proceeded in the trailer car and accompanied Bepin Babu as far as Dr. Sundari Mohan Das' house, at No. 76-77, Sukeas Street. The watcher remained outside in the street. At about 1-30 P.M. Babu Bepin Chandra Pal came out of Dr. Das' house and stood on the footpath on Cornwallis Street. The watcher remained at some little distance. Babu Bepin Chandra Pal suddenly turned round and walking fast to where the watcher was standing, caught hold of him by his *alwan* and demanded his name. The watcher inquired for what purpose his name was wanted. Babu Bepin Chandra Pal is then reported to have pulled the watcher by the ear and dragged him by his *alwan* towards Dr. Das' house, at the same time calling to the durwan of the house to come and seize the watcher. Fearing that he would be assaulted inside the house, the watcher escaped, leaving his *alwan* in Bepin Babu's hand. Bepin Babu shouted to a sweetmeat shop-keeper, who was standing by, to capture the watcher. The sweetmeat vendor proceeded in pursuit of the watcher, but was almost immediately called back by Babu Bepin Chandra and his durwan. The watcher proceeded to the Sukeas Street Thana where he reported the occurrence to Sub-Inspector H. C. Laheri who is in charge of the station. Sub-Inspector Laheri, on receipt of this news, accompanied the watcher to the house of Dr. Das taking with him a Head Constable and two constables. On arriving at the house he called out to the durwan but received no response. Shortly afterwards he saw a servant leaving the house with a bundle and a letter. This was evidently the watcher's wrapper which was returned that same afternoon by Babu Bepin Chandra Pal to the late Rai Bahadur Gupta with a letter, which runs as follows :—

Saturday, 30-12-1911.

MY DEAR BINODE BABU.

It was reported to me that a man was shadowing me and making inquiries after me at Dr. Das' house. He was pointed out to me this afternoon by Dr. Das' durwan and

I went up to him to ask him about his name and business, and wanted him to come to Dr. Das' door to be confronted by the durwan. He took fright at this and ran away leaving his wrapper behind. I send this to you and bring it to your notice.

Yours sincerely,

(Sd.) BEPIN CH. PAL.

Sub-Inspector H. C. Laheri, after repeated calls, eventually obtained a response from Babu Bepin Chandra Pal who came to the door of the house and inquired what the matter was. On being informed of the complaint which had been made against him, Bepin Babu stated that he was annoyed at the Police coming to make an inquiry in such a trivial matter when he was in a friend's house, as this was likely to be taken exception to by his friend. The Sub-Inspector invited Babu Bepin Chandra to leave the house in order that the inquiry might be conducted elsewhere. Babu Bepin Chandra Pal then came out on the street and on seeing the Police there inquired if he was to be arrested. He complained that the officer who was shadowing him had behaved in an objectionable manner, as he had been making inquiries about him from the servants in Dr. Das' house. He admitted having caught hold of the watcher by his wrapper and having dragged him towards the house in order to take his name and address and get him identified by the durwan and the servants, and also admitted having ordered the sweetmeat vendor to pursue the watcher. On this Sub-Inspector Laheri, who was present at Bombay on the occasion of Babu Bepin Chandra Pal's recent conviction in the Chief Presidency Magistrate's Court at Bombay, reminded the latter of this incident and remarked that he would not have expected this conduct from him after what he had said in tears in the Court on that occasion. On this Babu Bepin Chandra asked the Sub-Inspector to let this matter drop, turn away the spectators who had collected on the spot and to come inside the house. Dr. Sundari Mohan Das himself then arrived on the scene and in the presence of Bepin Pal, apologised for the latter's conduct. Dr. Das and Babu Bepin Pal then both asked the Sub-Inspector to forget the incident and not to give any publicity to it. The Sub-Inspector then left the spot and took no further action in the matter, beyond recording the facts in his thana case register.

It is not true that Bepin Pal was arrested by the Sub-Inspector in connection with this case or that he was released on explaining that the complainant had voluntarily left his *atwan* behind.

GRIEVANCES OF CIVIL ASSISTANT SURGEONS IN THE EMPLOYMENT OF GOVERNMENT.

The Hon'ble MR. K. B. DUTT asked :—

II. (*a*) Has the attention of the Government been drawn to the articles that appeared in the *Amrita Bazar Patrika* of the 18th, 20th and 27th January last, regarding the grievances of Civil Assistant Surgeons in the employ of Government ?

(*b*) Will the Government be pleased to state whether the allegations in the said articles as to the difference in the standard of qualifications required for a Civil and Military Assistant Surgeon, respectively, are substantially true ?

(*c*) Will the Government be pleased to state what rates of pay are drawn by, and what posts are open to, Civil Assistant Surgeons and Military Assistant Surgeons, respectively ?

(*d*) Will the Government be pleased to lay on the table a statement showing the number of Civil Surgeonships that have been allotted to the Subordinate Medical Service Department, and the proportion in which these appointments have been distributed between Civil and Military Assistant Surgeons ?

(*e*) Will the Government be pleased to state what action, if any, it intends to take in regard to the representation of grievances submitted to it by the Civil Assistant Surgeons some five years ago ?

(*f*) Will the Government be pleased to state what rates of pay it intends to give to Civil Assistant Surgeons ?

The Hon'ble MR. STEPHENSON replied:—

(*a*) "The answer is in the affirmative.

(*b*) A statement is laid on the table showing the qualifications required from candidates for each service and the length and nature of the course and the method of examination in each case.

(*c*) A statement showing the rates of pay drawn by Military and Civil Assistant Surgeons is laid on the table. Government assists the Military authorities by maintaining in civil employment a war reserve of Military Assistant Surgeons and with that view 23 appointments are set aside to be filled by Military Assistant Surgeons. The Assistant Surgeons holding these appointments receive only the pay of their grade. Both Civil and Military Assistant Surgeons are eligible for Civil Surgeoncies.

(*d*) In the Province, as it stands at present, 13 Civil Surgeoncies are listed for Assistant Surgeons. The full number cannot be worked up to until the uncovenanted medical officers at present in the service have retired. Of these 13 appointments, 6 are intended for Military Assistant Surgeons and 7 for Civil Assistant Surgeons.

(*e*) A revised scale of pay will be introduced with effect from 1st April. Orders on the other suggestions made in the memorial have already been passed.

(*f*) The new scale of pay is set forth in the Resolution published in to-day's Gazette of which a copy is laid on the table."

At the conclusion of the Oral and Clinical examination in the subjects in the 4th year in which their practical knowledge is tested, the Principal of the College will report to the Director-General, Indian Medical Service, on their fitness for admission into the Indian Subordinate Medical Department. Those declared fit are then examined by written papers issued by the Director-General, Indian Medical Service, this examination being common to all the colleges and comprising the following subjects:—Medicine, Surgery, Midwifery, Pathology, Hygiene, and Materia Medica.	*At the end of the 1st year class.*—Honour examination of the college for scholarships and medals of the college. Third class Military Assistant Surgeons before being eligible for promotion are required to pass an examination in Surgery and Surgical Applied Anatomy, Medicine, Materia Medica, Hygiene, Midwifery, Diseases of children, and acquaintance with regulations which govern military hospitals at any time before the 12th year of service. The promotions of 1st class Assistant Surgeons to Senior Assistant Surgeon, with the honorary rank of Lieutenant, and of the latter to Senior Assistant Surgeon, with the honorary rank of Captain, are made by selection for ability and merit.	In the case of the Civil Assistant Surgeons, promotion from 3rd to 2nd grade and from 2nd to 1st grade depends upon passing an examination after seven years' service in each grade. CHAIR OF ANATOMY IN THE MEDICAL COLLEGE.

The Hon'ble MR. K. B. DUTT asked :—

III. Will the Government be pleased to state what action, if any, has been taken with a view to giving effect to the proposal foreshadowed by it in the course of the Budget discussions of 1909-10, that the chair of Anatomy in the Medical College would be bestowed upon a properly qualified private practitioner outside the I. M. S. *cadre*.

The Hon'ble MR. STEPHENSON replied :—

"It has been decided to appoint Dewan Hera Lal Basu Bahadur to the professorship of Anatomy in the Medical College."

THE CALCUTTA PORT (AMENDMENT) BILL, 1912.

The Hon'ble Mr. Greer in the absence of the Hon'ble Mr. Slacke, presented the Report of the Select Committee on the Bill further to amend the Calcutta Port Act, 1890.

The Hon'ble Mr. Greer also moved that the Report of the Select Committee be taken into consideration.

The motion was put and agreed to.

The Hon'ble Mr. Greer also moved that the Bill be passed.

He said :—

"It seems unnecessary to delay the Council with any explanation of the terms of this Bill as they are fully set forth in the Statement of Objects and Reasons which has already been published. No amendment has been proposed, the Bill being exceedingly simple. It merely extends the powers of the Vice-Chairman in a reasonable manner and more clearly defines the powers of the Commissioners in dealing with expenditure."

The motion was put and agreed to.

THE ORISSA TENANCY BILL, 1911.

The Hon'ble Mr. H. McPherson presented the Report of the Select Committee on the Bill to amend and consolidate certain enactments relating to the Law of Landlord and Tenant in the districts of Cuttack, Puri and Balasore, in the Orissa Division.

He said :—

"With your permission, Sir, I present the Report of the Select Committee on the Bill to amend and consolidate certain enactments relating to the Law of Landlord and Tenant in the districts of Cuttack, Puri and Balasore in the Orissa Division. The report is accompanied by a copy of the Bill as amended in Select Committee and by the Minutes of Dissent recorded by certain Members of the Committee.

"Although it might have been regarded as more satisfactory, if the Committee had presented a unanimous report, I hope that the Council will not be alarmed by the number or length of the Minutes of Dissent. They are a very common feature of reports on Tenancy Bills. The points of contact and adjustment between landlord and tenant in a complete Tenancy Code are so numerous that it would be surprising if the representatives of the many varying interests concerned came to a unanimous finding on all subjects of discussion. Complete unanimity might, in fact, be regarded with suspicion, as indicating that the examination of the Code had been hasty and superficial. There is no room for this suspicion in the present case. The Committee have held twelve sittings spread over a period of six weeks, and occupying an aggregate time of nearly forty hours. The clauses of the Bill were examined one by one, all the criticisms and suggestions of the local officers and local bodies were duly weighed, the discussions were conducted in a spirit of fairness which did credit to all who took part in them, and the various amendments which have been made in the Bill will, it is hoped, be considered to be improvements.

"It is not my purpose to occupy the time of the Council by going over the principles of the Bill once more, or by explaining the alterations that have been made in Select Committee, or by discussing in detail the Notes of Dissent that are appended to the report. It is sufficient for the present to say that the general principles of the Bill, which were fully explained in my speech of January the 9th, remain untouched, that most of the alterations which are set forth in the present report have been accepted unanimously by the Committee, and that the notes of dissent are concerned with not more than seven points which are of any real importance. These are—(1) the application of the Bill to the *killajat* estates, (2) the regulation of transfers of holdings, (3) the definition of proprietors' private lands, (4) the protection of communal lands, (5) the treatment of produce-rents, (6) the question of reclamation, and (7) the subject of maintenance of records. Amendments will doubtless be filed in respect of all these matters before the Bill comes on for consideration a fortnight hence, and the Council will then have full opportunity of considering the provisions of the Bill which deal with them. It would be premature to anticipate discussion at the present juncture, and it would also be out of order. What I wish to emphasise to-day, is that the mere existence of Notes of Dissent is in itself no argument for the motion which stands in the name of the Hon'ble Mr. Das. We expected them in the ordinary course of business, and we are prepared to discuss them when the proper time arrives."

The PRESIDENT said :—

"Before we proceed to the next business, and before I call on the Hon'ble Mr. Das to propose the motion which stands in his name, I feel obliged to call the attention of the Council to a point which I think is of some importance with reference to our procedure. In a leading article in the *Amrita Bazar Patrika* of the 5th March, which I have here before me, reference is made to the Hon'ble Mr. Das' motion, and from the article it appears that the Hon'ble Member's Note of Dissent, which has only this morning been laid upon the table as an integral part of the Report of the Select Committee, was thus communicated to the Editor of the paper before being laid before this Council. Now the proceedings of Select Committees have always, by the usage of this Council, been treated as confidential, and it is an innovation—and, in my view, an objectionable innovation—that anything which has formed part of them (whether a discussion during their session or a Minute of Dissent prepared after the close of their deliberations), should be communicated to the Press before the formal Report of the Committee is made public. We have never had any detailed rules laid down as to the procedure for Select Committees or the submission to Council of Notes of Dissent, but the custom that all Select Committee proceedings should be treated as confidential until such time as the Report of the Committee itself is laid before the Council has, so far as I am aware, never been infringed. I should be sorry if it should become necessary for us to alter our practice in this respect and to prescribe definite rules on matters of detail regarding the procedure of Select Committees; it would be much better that the uniform practice of the Council should be maintained. In the the present instance, the objection to the communication of the Hon'ble Member's Note of Dissent to the Press is enhanced by the fact that the Note of Dissent which he so communicated cannot,—as I shall now proceed to explain—be the same as that which has been incorporated with the proceedings of the Select Committee. For, in addition to what appears in the Note of Dissent laid before the Council this morning, the Hon'ble Member had included in his Minute a lengthy criticism of the constitution of the Select Committee and of the procedure followed by it, and I have been obliged to rule that this portion of the Minute can form no proper part of a Note of Dissent, and is out of order, and to direct that it should not be printed as part of the Committee's Report. So far as the Hon'ble Member criticised the constitution of the Select Committee, it appeared to me that he was entirely out of order in doing so, because the time for the discussion of the constitution of the Select Committee was when the Select Committee was appointed When that stage had once been passed, the matter was not one for comment, so far as the Select Committee itself was concerned, though such constitution might perhaps furnish a reasonable ground for argument later on when the Bill is discussed in Council in detail. Certainly it should form no part of a Minute of Dissent upon the conclusions of the Select Committee. In the same way, but on rather different grounds, discussions of the procedure followed in Select Committee ought to find no part in a Note of Dissent which ought—as the name given to it implies—to be limited entirely to the conclusions arrived at by the Select Committee. The reason for that is,— as I have pointed out —that the proceedings of Select Committees are—according to the invariable practice of the Council—regarded as entirely confidential until their report is published. I do not wish to enlarge further on the point, but Hon'ble Members will at once appreciate the fact that, if the proceedings in Select Committee are not to be treated as confidential, then they must be conducted in an entirely different manner from that which is allowed at present; that is to say, everything that takes place will have formally to be put on record, and every Member must be given an opportunity of taking any objection that he thinks proper to what has been so put on record. It is thus more than probable that, in a controversial matter, very prolonged discussions might take place, and in fact that the whole procedure of working by Select Committees would be altered and rendered much more cumbersome and less effective than it is at present. I do not wish to be misunderstood. I have no wish whatever to limit the right of free speech in this Council, but that is

quite a different matter from a resort to personalities and other irrelevant matter in a Minute of Dissent. When any Hon'ble Member has any objection to the way in which the Select Committee has been formed or in which its business has been conducted, it is perfectly open to him to bring the whole matter before the Council for discussion when the Select Committee's Report is taken into consideration; but it is neither fair nor in accordance with the uniform practice of this Council for a Member to include matters of this kind in a Note of Dissent to which other Members, whose status, suitability or conduct may have been reflected upon therein, cannot, in the very nature of the case, have any opportunity of answering.

"I have thought it necessary to make this explanation, so that the somewhat unusual course which I have adopted in ruling that a portion of the Hon'ble Mr. Das' Note of Dissent is out of order may not be misunderstood."

The Hon'ble Mr. Das moved that the Bill to amend and consolidate certain enactments relating to the Law of Landlord and Tenant in the districts of Cuttack, Puri and Balasore in the Orissa Division, and the Report of the Select Committee thereon, be not considered in this Council.

He said:—

"Your Honour, I beg to be permitted to say a word in regard to the remarks which have fallen from Your Honour just now. I did not know that it was against the practice of this Council to make any remarks on the constitution of the Select Committee, or that the proceedings of these Committees were of a confidential nature As far as I remember, though it is not possible for me to quote chapter and verse, there have been, as Your Honour remarked, instances where the constitution of the Select Committee was discussed in Council when the Bill and its provisions were being discussed. I do not like to say anything more on the subject beyond that I should be the last person to disregard a practice of an august body like this Council, if there was anything to make me believe or bring to my knowledge that such was the established practice. I cannot lay my hand now, but I have been very long in this Council, and I remember instances where notes of dissent had appeared in the public papers before they were brought into the Council, but I am sorry if I have violated this practice, and I beg to be excused for it, but it was not done with any intention to go against an established practice.

"The Hon'ble Member in charge of the Bill in introducing the Select Committee's Report said that it was not possible to avoid differences of opinion in a law which defines the relations between landlord and tenant. Land law includes in it the interest of every one who owns interest in land or lives on it. So consequently there must be points of contact and points of difference. I do not intend now to discuss in detail the provision of the law or rather the provisions of the Bill as to how far they secure or injure the interests of those who have interest in the land. I take for granted that Government intends to do a certain thing, but we know that Government has not at its command the time which is necessary for patient and careful deliberations and discussion on difficult points of law involved in a case like this. Therefore all that I intend to do on the present occasion is simply to show that the Bill in a most remarkable manner, and in the most important cases, fails to accomplish the object for which it is intended.

"The Bengal Tenancy Act was passed in 1885. It did not *proprio vigore* apply to Orissa, but power was given to the Lieutenant-Governor of Bengal to extend the whole or a portion of the Act to Orissa. The Act was framed to meet the condition of Bengal and Bihar at the time.

"If I were to attempt to show why the Bengal Tenancy Act could not apply, I should be trying the Council's patience. I shall therefore content myself drawing the attention of Hon'ble Members to the statement of the Hon'ble Mr. McPherson made in his speech when referring the Bill to a Select Committee—

'Surprise may be felt that it should not be possible to find salvation for Orissa in a Tenancy Act which was devised after years of deliberation and has proved sufficient for the

great congeries of varying races included within the boundaries of Bengal The reason is that, although power was taken in the Bengal Tenancy Act to extend its provisions to Orissa, the needs of Bihar and of Lower Bengal were alone considered in framing that enactment. *The peculiar conditions of Orissa were not taken into account.**

In the fiscal and agrarian history of Bengal, Orissa occupies a unique place, *having features essentially different from those which distinguish the rest of the province.**

"Here I have the good luck to agree with the Hon'ble Mr. McPherson. Hon'ble Members will please mark the words 'features essentially different.' I should add that Orissa is mostly temporaraly settled. Bengal and Bihar enjoy the boon of permanent settlement.

"In 1891 portions of the Act were extended to Orissa for making the Revenue Settlement of Orissa. The Acts and Regulations under which the previous Revenue Settlement had been made were considered unsuited.

"Chapter X of the Bengal Tenancy Act was first introduced for the purpose of revenue settlement. The main object the Government of India had in view in directing that the revenue settlement should be made under Chapter X of the Act was to secure an enhanced revenue; the other object was a classification of the tenancies according to the provisions of the Bengal Tenancy Act. The reason for this was that the classification was superior to that embodied in Act X of 1859 and if the record-of-rights were made during the revenue settlement on the basis of the laws in force in Orissa, the subsequent introduction of the Bengal Tenancy Act would be impossible. What was the result of this? The settlement operations began. If the Assistant Settlement Officer happened to be a Bengalee, who was familiar with the rights and interests which the Bengal Tenancy Act deals with, he found on the spot new rights which found no place in the Act. If the Assistant Settlement Officer happened to be an Uriya to whom the local rights in lands were familiar, he received no light from the Act. The Settlement Officer himself was no wiser. He moved the Government to extend some other portion of the Act, as occasions presented difficulties in the working of Chapter X of the Act. All groped in darkness The Supreme Government supremely ignorant of the local conditions were the legally constituted guide. It was a case of blind leading those struggling in darkness Sections after sections of the Bengal Tenancy Act were introduced as difficulties arose during the progress of the settlement operations. Experience of the degree of darkness which surrounded the responsible duties of the Settlement Officer led him to try new openings for additional light, but the additional light showed some more dark spot. Portions of the Act were extended from time to time to remove difficulties, but every new extension started unforeseen difficulties in another quarter. This process was carried on till the Government came to the conclusion that Orissa wanted a special Code adapted to its peculiar circumstances.

"The Settlement Officer did his work heroically just as the village barber performs all surgical operations with his rude nail-cutter.

"A child went with his parent to Bombay *en route* to England. He had heard that his journey to *Bilat* would be over the sea. When he saw the sea at Bombay, he said to his father, Papa *dekho bura Bilatee panee*. He had learnt the expression *Bilatee panee* in Calcutta, as that is the word used of aerated water. The child thought he saw a sea of aerated waters. This is what the Settlement Officers did.

"It is not necessary for my present purpose to give an exhaustive list of all instances of erroneous classification of rights in land. I shall just mention two instances.

"In the Bill, Hon'ble Members will find the word *bajiaftidar* defined in sub-clause (2) of clause 3 of the Bill. A *bajiaftidar* is a person whose claim to hold land revenue free was adjudicated under the old Regulation. Revenue was assessed on the lands in his possession. He did not pay rent to the zamindar, but he paid the Government revenue through the zamindar. So he was a

* The italics are the Hon'ble Mr. Das'.

proprietor, not a tenant. The Hon'ble Mr. Maddox in his letter No. A., dated the 6th April, 1909, in paper No. 2 regulating to this Bill says :—

'The *bajiaftidars* complain that they are by origin proprietors and not tenants. Historically this is true..... The *bajiaftidars* are not therefore *by origin* at any rate tenants within the meaning of section 3 (*5*) of the Bengal Tenancy Act, because the person under whom they now hold does not *own** the *bajiafti* land.'

"But what status was given to this class in the settlement of 1899-1900?

Let me refer again to the Hon'ble Mr. Maddox. He says:

'In the settlement of 1899-1900 some of them have been recorded as tenure-holders and some as raiyats in accordance *with the provisions of the Bengal Tenancy Act.** The effect of this has been to reduce them to the position of tenure-holders and raiyats pure and simple, more especially as their assets have been distributed exactly in the same way as those of other tenants. They have thus suffered material injury in the following ways:—

'Zamindars are now treating them as ordinary tenants, forbidding their transfers or only permitting their transfers on receipt of *salami*; where they are classed as tenure-holders, their raiyats can apply for commutation of produce rents, though they themselves depend on produce for their living or for their worship or for their charities; where they are classed as raiyats, they are tied down by the provisions of section 48 and cannot get more than 25 per cent. from their under-raiyats, in excess of the low rents which they themselves pay, except by registered agreement, and then only 50 per cent. in excess; and where their lands are acquired by Government, zamindars are resisting their claims to a substantial share of the award.'

"Those *bajiaftidars* are not by any means an insignificant class. They possess 21 per cent. of the total number of holdings, 17 per cent., that is $\frac{1}{6}$ of the cultivated area, and pay $9\frac{1}{2}$ per cent. of the assets. This is an instance of erroneous classification.

"I shall next refer to *nij-jote* or proprietor's private lands. The Hon'ble Mr. McPherson in his speech when referring the Bill to a Select Committee very lucidly explained that it was the object of the Bill to ear-mark proprietor's private lands and leave the remaining cultivated area as raiyati stock. In the former the raiyat cannot acquire right of occupancy, so long as they were let under a lease or year by year. In the latter the raiyat can always acquire a right of occupancy.

"It is admitted that during the Revenue Settlement under the Bengal Tenancy Act two words were used in recording the lands in actual possession of proprietors. These words were *nij-jote* and *nij-chas*. All lands in possession of tenure-holders were recorded as as *nij-chas*. This was done because section 116 of the Bengal Tenancy Act speaks of only proprietor's private land, and not tenure-holder. The most curious thing in this connection is that section 116 of the Bengal Tenancy Act was not extended to Orissa till 1906, *i.e.*, six years after the completion of the settlement. The law in force in Orissa was section 6 of Act X of 1859. That section protects the *nij-jote* lands of tenure-holders. That section says 'but this rule does not apply to *khamar*, *nij-jote* or *seer* belonging to the *proprietor of the estate or tenure*.'

"This distinction of *nij-jote* and *nij-chas* is arbitrary. The word *nij-chas* means lands cultivated by self, meaning the zamindar or tenure-holder himself.

"What they did in the Revenue Settlement of 1891-1900 was to record as *nij-jote* those lands which were recorded as such in the Revenue Settlement of 1838, and as *nij-chas* the remaining lands under the proprietor's actual cultivation.

"The total area recorded as *nij-jote* of proprietor's tenure-holders in 1838 was 88,700 acres."

The Hon'ble SIR BIJAY CHAND MAHTAB, MAHARAJADHIRAJA BAHADUR OF BURDWAN, said :—

"May I rise to a point of order, Sir. The provisions of the Bill, I understand, are to be discussed later on, but Mr. Das is discussing them now."

* The italics are the Hon'ble Mr. Das'.

The Hon'ble Mr. DAS said:—

"My object, Your Honour, is just to show that the Bill as it stands raises questions which defeat the very object which the Hon'ble Member says the Bill has to secure. If Your Honour will allow me a little more time, I will show that there is not time at the command of this Council to discuss this technical point of law which has been raised, and I shall show conclusively that if the Government wishes to make any concessions by passing the Bill as it stands, they will just do the reverse of what they intend to do, therefore my contention is that this Bill—there being no time at the command of this Council—should not be further considered in this Council."

The PRESIDENT said:—

"I have been waiting to try to grasp the relevance of the point which the Hon'ble Member has been discussing, and I have not so far been able to do so. On his explanation I am willing to allow him to proceed, but I must remind him that his line of argument is apparently based on the fact that this Council will not be able to discuss the Bill, as there is so much to be discussed, and the line of now examining in detail everything that has to be discussed in this Council will take up its time rather unnecessarily. I think it would be more to the point if the Hon'ble Member confines himself to showing why the Council will not be able to discuss the Bill without going into the merits of the clauses."

The Hon'ble MR. DAS said:—

"It will thus be seen that the proprietor and tenure-holder were unlawfully deprived of their *nij-jote* lands. The Hon'ble Mr. McPherson calls this a generous concession to the land-owners of Orissa. All that is proposed to be done is to change the word *nij-chas* to *nij jote*.

"I have given two instances, and with Your Honour's permission I would like to show how large classes of people have been divested of their lawful rights by the erroneous procedure of the Settlement Departments, how what was meant to be record-of-rights has become in many cases record-of-wrongs.

"I appreciate the generous desire to arrive at *status quo ante*. This naturally leads to the question, does the Bill provide the proper remedy?

"Those responsible for the drafting of this Bill had most difficult work before them. My criticism of their work is not without an appreciation of their difficulties

"I do not think in the whole history of this Council there has been a Bill so complicated in nature. The Bill tries to rectify mistakes done under a wrong Act. Where the original Act did not apply, it was an illegality; where it was applied by mistake, it was an irregularity. In some cases the errors arose from other causes. Sweeping denunciation of the whole work is not derirable or practicable. The work before us is to preserve the general result of the settlement, to make amends where injustice has been done, and to frame a self-contained Code for future guidance with the aid of experience in the past.

"Clause 163A of the Bill as altered by the Select Committee runs thus:—

'163A. (*1*) In temporarily-settled estates for which a record-of-rights has been prepared and finally published under Chapter X of the Bengal Tenancy Act, 1885, between the years 1891 and 1900 inclusive, and again between the years 1906 and 1912 inclusive, a proprietor's private land shall include—

(*a*) land which has been recorded as *nij-jote* in the record-of-rights prepared between the years 1906 and 1912, and

(*b*) land recorded as the *nij-chas* of a proprietor or sub-proprietor [other than a sub-proprietor referred to in sub-clause (*i*) of clause (22) of section 3] in the record-of-rights prepared between the years 1891 and 1900, which has again been recorded as his *nij-chas* in the record-of-rights prepared between the years 1906 and 1912.

(2) No land in a temporarily-settled estates which is not covered by sub-section (1) shall be held to be a proprietor's private land.'

"With regard to these *nij-chas* lands the Hon'ble Mr. McPherson in his speech said, the chief value of the change in fact will be that it will remove a fertile cause of dispute and strife about the lands. So there is dispute which means that right of occupancy is claimed in these lands.

"Suppose this Act were passed to-day, it cannot retrospectively affect the right of occupancy acquired during the period of 21 years—the interval between 1891 and 1912. The revenue settlement show the lands as other than proprietor's private land. They are cultivated through raiyats. How can clause 163A extinguish the occupancy right acquired before the date when this Bill is passed into law?

'Every statute, it had been said, which takes away or impairs vested rights acquired under existing laws, or creates a new obligation, or imposes a new duty, or attaches a new disability in respect of transactions or considerations already passed, must be presumed, out of respect to the Legislature to be intended not to have a retrospective operation'—*vide Maxwell on the Interpretation of Statutes, 4th edition, page 323.*

'No rule of construction is more firmly established than this—that a retrospective operations is not to be given to a statute so as to impair an existing right or obligation otherwise than as regards matter of procedure'—*vide Hardcastle on Statutory Law, 3rd edition, page 353;* see also *Full bench Decision, Jogadanund Singh* versus *Amrta Lal Sircar, dates 1895, and Reid* versus *Reid, Volume VI, Ruling Cases.*

The PRESIDENT said:—

"The Hon'ble Member is still discussing the provisions of the Bill. We are not here to discuss them now. I am still waiting for his argument as to why the Council should not proceed with the business. It is not quite proper to enter into a discussion of the merits of the Bill which is not now before it."

The Hon'ble MR. OLDHAM said:—

"I do not wish in any way to interrupt the Hon'ble Member. But I think, Sir, he raises a point of principle which at this stage is not permissible, and therefore he is out of order."

The PRESIDENT said:—

"I think the ruling which I have given will suffice. He is out of order in discussing the details of the Bill."

The Hon'ble MR. DAS said:—

"One of the principal objects of this Bill is to restore to certain people whose interests have been affected by the Settlement Department.

"If Your Honour wishes the people to understand that Government has most honorably come forward to restore to them what they had lost by the mistake of their officers, let us not proceed any further with this Bill. The people of Orissa will ever remain grateful to Your Honour for the intention which has now been put on record. How to give effect to that intention requires further deliberation, and a little more help of that contemptible class called lawyers than the Bill seems to have received. There is no time for that in this Council. Orissa will be more thankful to your Government for the intention than for the Bill enacted into law. The Government of the new Province will exactly understand the situation, and having more time at its command will give effect to the intention. If, on the other hand, it is the latent wish of Government to deprive permanently these men of their rights and give legislative sanction to what was done through ignorance and mistake, pass the Bill as it stands. I cannot believe that it is the intention of Government to give the zamindars and *bajiaftidars* some concession which the law

courts will subsequently pronounce as delusive. It is admitted that the interests of these classes have suffered. It is proposed to compensate them for the injury they have suffered. Let not the compensation be dubious in the least. Let it not be given in a form which will drive these men to litigation. Let it not be given in a form which will leave the ultimate decision to law courts. If the decision of courts be adverse, Orissa will lose all faith in the British Government, and Your Honour's name will be associated with the breach of faith by the British Government with a people whose ancestors invited the British to occupy the Province."

The Hon'ble MR. OLDHAM said :—

"I rise to a point of order, Sir. I submit that the Hon'ble Member is still discussing a question of principle, which is not in order at this stage.

The PRESIDENT said :—

"I think the Hon'ble Member is now in order in arguing why the Bill should not be proceeded with."

The Hon'ble MR. DAS said :—

"The other matter to which I beg to refer is that there is in the Bill a most contentious matter, that is the maintenance of land records, and that is a thing which is opposed by everybody. In fact the District Judge opposes it. We wanted to have before the Select Committee a letter which had been written by the Divisional Commissioners on the subject, but we had not the advantage of seeing that letter. This work has been carried on for some time in Orissa. I do not understand why Orissa should have been selected as the field of experiment.

"The Hon'ble Mr. McPherson hopes that this Bill should form the parting gift from Bengal. Bengal cannot give what she has not; there are many provisions in the Bill which Bengal has not been burdened with. The provision about communal land, the transfer of right of occupancy, the provisions about reclaimed waste land and the maintenance of land records, these the most contentious portions of the Bill do not exist in Bengal. It is not correct to say that it would be a parting gift from Bengal. Bengal cannot give what it has not. It might be a parting gift from the old Bengal Government.

"The people have always enjoyed the reputation of being peaceful and peace-loving. Orissa is called the holy land of India. Though situated within a few hours journey from Bengal, there was no sedition in Orissa. There never has been any agrarian disturbance like those in other parts of the country under this Government. No commission was ever appointed to inquire into the strained relation between zemindars and raiyats. There is one Sessions and District Judge in the whole Province, and only one Sub-Judge. What have we done that before handing us over to the new Government it is the intention of this Government to give us the worst character. In the *Mahabharat* there is a transfiguration of Krishna. He appeared once transfigured. It was a monstrous figure, standing on three legs and holding the Sudarsan Chakra, the emblem of Almighty destructive power in the right hand. Of the three legs, one was of a tiger, the second of a horse and the third of an elephant. The tail was the expanded hood of a cobra. A lion's body and peacocks neck completed the figure.

The Hon'ble SIR BIJAY CHAND MAHTAB, MAHARAJADHIRAJA BAHADUR OF BURDWAN said :—

"May I say that Hon'ble Mr. Das should not discuss religious matters here."

The PRESIDENT said:—

"He is only citing this by way of illustration."

The Hon'ble MR. DAS said:—

"It was the combination of all destructive powers available in creation with an attractive front as the peacock's neck has. That is the character of this Bill. Of the destructive power of the Bengal Government, Orissa need not be reminded. The famine of 1866 and the floods which followed it carrying away more than a million people need not be supplemented by additional proofs of the power of Government. Why then this combination of all that is oppressive in Bombay, Madras, Chota Nagpur, Bengal and East Bengal. The Bill combines all these. Is Orissa a land where the worst characters of all parts of India find refuge.

"If this Bill is passed Your Honour will hand us over to the new Government as the worst portion of the people under Your Honour's Government. I believe this Government has done enough injustice to Orissa. How we shall fare under the new Government is yet unknown, but we believe that His Majesty's wishes and object in placing us under the new Government is to secure to Orissa a greater share of Government attention. But when making over Orissa, Your Honour makes over also an Act more stringent in its provision than are to be found in any other part of the country under your Government; the natural inference of the new Government will be that Orissa contained most turbulent people in the new Province.

"I beg to draw the attention of the Hon'ble Member in charge of the Bill and Your Honour to the principle which was enunciated by the Hon'ble Mr. Greer at the last meeting of this Council, that it would not be proper for this Council to discuss the Budget because there are members here who will shortly have nothing to do with Bihar and Orissa, and they have no right to discuss the income and expenditure, of these places. On the contrary if Bengal has no right to discuss their income and expenditure, so also they have no right to legislate about the destinies of millions of people just before handing them over to the new Province. With these remarks, Sir, I beg to move that the further consideration of the Bill be postponed."

The Hon'ble RAJA RAJENDRA NARAYAN BHANJA DEO said:—

"With your permission, Sir, I beg to support the motion proposed by the Hon'ble Mr. Das. In doing so I have no intention of going into the details of the Bill. I support the motion on general grounds.

"On the 9th January I moved the motion that stood in the name of the Hon'ble Mr. Das to stay all further proceedings in connection with this Bill. Your Honour was pleased to say that it would be open to me to get the Bill postponed or take any other steps after the Select Committee submitted their report, and accordingly I withdrew the motion.

"The present Bill is practically a reproduction of the Bengal Tenancy Act of 1885. A few sections have been altered to suit the conditions of Orissa. It retains most of the sections of the Bengal Tenancy Act; many of these were unsuitable, and therefore were not extended to Orissa. The Bill adopts some provisions from the Chota Nagpur and the East Bengal Tenancy Acts.

"In some matters in regard to which no legislation has yet been thought necessary in Bengal, East Bengal or Chota Nagpur, it is proposed to legislate for Orissa on principles adopted in the Bombay and the Madras Presidencies. In regard to other matters in the Bill, the principles followed could not be found anywhere in India.

"The result is that the Bill retains most of the sections of the Bengal Tenancy Act which are disadvantageous to the landlords, and provides a few more which are intended to curtail their existing rights.

"The Hon'ble Member in charge of the Bill justly observed the other day that 'although power was reserved in the Bengal Tenancy Act to extend its provisions to Orissa, the needs of Bihar and Lower Bengal were alone considered in framing that Act The peculiar condition of Orissa was not taken into consideration." In spite of this remark most of the sections which are unsuited to Orissa are embodied in the Bill. The Hon'ble Member in charge gives the following reason :—

'I take it for granted that I am generally precluded from discussing the sections of the Bengal Tenancy Act which have been embodied unaltered in the present Bill, though in my opinion they may be open to objection and call for amendments on general grounds. It would arouse opposition and delay passing of the measure if they are brought to the front at present. The preferable course is to let these common sections pass unchallenged. and to consider later whether the amendment of the Bengal Tenancy Act, the Chota Nagpur Tenancy Act and the Orissa Tenancy Act (when passed), in any particulars that are common to them, is desirable.'

"I do not see the force of this argument, when after experiences of more than a century the present Government have found that special legislation is required for Orissa, why such special legislation should not be made, and why the objectionable sections of the Bengal Tenancy Act preserved? In the words of the Hon'ble Member this is done only to prevent delay. Yet, when introducing the Bill, the Hon'ble Member in charge said, that 'in deciding to take up the Bill in the present Session, Government has no desire to rush the Council.' Here we have a Bill. It is admitted it contains portions of the Bengal Tenancy Act which demand alteration; but they have been adopted in their present state and why? Because there is not enough time to discuss how far and why they should be altered. This alone is a suffiicient reason why this Council should not proceed any further with this Bill. Orissa can very reasonably and pertinently demand an agrarian Code to suit her peculiar conditions, and not a Code made up of provisions borrowed from different parts of India. But the Bill is of the latter description.

"Legislation should be made to suit the conditions of the locality and to preserve. all rights and interests of the people, and not that the conditions of such locality be disturbed and made to adapt themselves to a piece of legislation foreign to the locality. The duty of a Legislature should be to make laws for men as they are, and not to make men for laws as they exist in other parts. To be short, laws should be made for men, and not men for laws.

"From the above facts and many others we fear that it is the intention of the Government to rush the Bill through before Orissa is placed under the new Government. I do not consider it is doing justice to Orissa for the present Government to hurry through this piece of legislation of such vital importance against the wishes of the people and their representatives who voice them here. The people of Orissa will feel it more keenly as, after the announcement of His Imperial Majesty at Delhi, separating them from Bengal, they naturally expect that their interests will be more carefully considered under the new Government.

"The newly nominated member from Orissa in this Council questioned the correctness of my information that the people of Orissa were opposed to have this Bill dealt with by the present Council. I anticipated such remark from the Hon'ble Member. Since then I have reasons to believe the wish of the people on this matter has been communicated to Government by Associations. The two Hon'ble Members who represent the Muhammadan community of Orissa will, I hope, agree with me that the Bill should be postponed.

"It has been said that there are in this Council zamindars who have interests in Orissa, and this is shown as a reason that the Bill ought to be passed in this Council. To this all I can say is that legislation should be on territorial and not on personal grounds. In the present case the claim on personal ground has received due attention in the constitution of the Select Committee, and the work of the Select Committee will receive its due weight when the question is

taken up by the new Government. No doubt their interests in Orissa will be safeguarded by their representatives in the other Council, and it will be open to the other Government to take in any gentleman whose advice they will consider helpful to the passing of this Act

"There may be a few, non-official members who will still advocate passing the Bill in this Council, and the non-official opinon may not be unanimons. But we are on the eve of an administrative dissolution. Unanimity in this Council has lost its weight. The principle which ought to guide Your Honour's Government at this critical time was enunciated the other day in the Hon'ble Mr. Greer's announcements about the budget estimate for 1912-13. The principle applies with greater force in the matter of this Bill. The budget estimate covers the income and expenditure of one year; the Bill before this Council involves the destiny of millions of people extending over at least many years. The budget estimate controls the power of Government over funds at the disposal of Government; the Bill deals with rights belonging to the people.

"Apart from all other considerations, the legal difficulties raised by the Hon'ble Mr. Das are sufficient grounds to postpone this Bill, so that these difficulties will receive proper attention in future. With these remarks I beg to support the motion put by the Hon'ble Mr. Das.

The Hon'ble SIR BIJAY CHAND MAHTAB, MAHARAJADHIRAJA BAHADUR OF BURDWAN said:—

"I am sorry to have to oppose this motion, and I shall state my reasons very clearly in doing so. In the first place however I must say that I am more disappointed with the Hon'ble Mr. Das's speech than I thought I would be before he spoke. The Hon'ble Mr. Das has brought in *Belati panis* and all sorts of other things. I do not think my Bihari friends would object to *Belati pani* as much as they would terms like *chanmaaars*, *bajaftidars*, *sarbarhkars*, *shikmi kharidadar*, *kharida jamabandidar*, etc. Probably this would be more *Belati pani* to them than the *Belati pani* the Hon'ble Mr. Das spoke of. What I wish to point out in this connection is that one of the arguments the Hon'ble Mr. Das advanced was that Orissa being temporarily settled, this Bill should not be taken up in this Council. Now if I had known that Bihar was also temporarily-settled, I could have followed his line of argument; but like Bengal, Bihar is also permanently-settled, therefore that ground falls through. Then again he has said that because the budget cannot be discussed for reasons very clearly stated by the Hon'ble Mr. Greer, we should not pass this Bill. But, I think, Sir, that this argument is very irrelevant like most of the things the Hon'ble Mr. Das has said to-day. The Hon'ble the Raja of Kanika has remarked, and I am surprised at his remark, that personal rather than territorial interests were represented on the Select Committee, and argued that the Hon'ble Maharaj Kumar Hrishikesh Laha and myself were put in there only to safeguard personal interests, but we being territorial magnates as well, it cannot be said that territorial interests were not represented, and therefore I do not see how the question of territorial and personal interests comes in.

"I should like to mention one other point. If I knew that the vested interests of Bihar were in any way going to suffer by this Bill being passed now, I for one should certainly have moved that this Bill should be postponed till the new Council of Bihar came in. We find that no vested interests of Bihar will suffer. On the other hand, this agrarian Code belongs to a part of the new Province which will be self-contained. The Uriyas certainly may get one or more representatives upon the new Council, but I do not think that this is a sufficient ground for delaying the passing of this Bill now. Moreover, if the Maharaj Kumar Hrishikesh Laha and myself were put in to protect personal interests, there were on the Select Committee the Raja of Kanika, the Hon'ble Mr. Das, and the Hon'ble Babu Janaki Nath Bose, and Government officials who have had personal experience of the working of the agrarian

Code in Orissa, and in my opinion are most fitted to be on the Select Committee, and that in itself is another ground on which we should take advantage of their experience in Orissa in passing this Bill here.

"Of course, Sir, we have heard the song of the dying swan about Orissa being maltreated by Government, and the request that we should not put an extra burden on it just when it was going to be put under a new regime.

"While I certainly wish my Oriya friends success in the new Province, I do not think that it is fair either to the Government or the people in this Province, who have been excellent friends in the past, to make such an assertion. I am sorry that the Hon'ble Mr. Das's motion, and particulary his arguments, are so frivolous and I think that if the Council be seriously minded, it should throw it out at once."

The Hon'ble MR. MADDOX said :—

"Sir, I wish to oppose the motion. The attack, if I may call it, of the hon'ble Mr. Das affects me in three ways, as Settlement Officer and as the drafter of the original Bill which was considered and so much improved by the Select Committee; and also as a Member of the Select Committee. I would ask the Council, if they would take it from the Hon'ble Mr. Das that injustice had been done at the time of settlement, considering that all the Hon'ble Mr. Das' evidence had been taken from my reports, to accept my opinion that the Bill, as at present framed, remedies these defects and sets right these injustices.

"There is only one other point which I should like to mention. There is no rushing through of this measure. Since November 1908, all these matters have been carefully considered by the people of Orissa and by officers who have discussed these matters with them in Orissa, and this is nearly a period of 3½ years."

The HON'BLE MAHARAJ-KUMAR GOPAL SARAN NARAYAN SINGH said :—

"Your Honour, I desire to support my hon'ble friend Mr. Das's proposition that the Report of the Select Committee be not considered by this Council. We are on the eve of the dissolution of this Council. His Imperial Majesty has accorded to Bihar and Orissa a separate Government. In the new Government the claims both of Bihar and Orissa will have a larger chance and a greater scope than, while we continue to be tied up to, our powerful neighbours of Bengal. In all human probability our countrymen of Orissa will be better represented in the Council of the new province than they are here. Why, then, not let the new Council take up this question? It has been pointed out on the Government side that official experience of Orissa happens to be very well represented in this Council. Be it so. But legislation of this order cannot be safely undertaken without a strong tinge of the non-official element also. And the non-official element cannot be said to be well represented either in this Council or in the Select Committee, as is pointed out by the Hon'ble Mr. Das in his Note of Dissent, of which he has supplied us with a private copy.

"Lastly, it has not been made out that there is any great urgency in this measure. Nothing very reprehensible could happen if this measure is not passed this time but is taken up, say, a year from now. For these reasons I beg to support the motion of my hon'ble friend that the Report of the Select Committee be not considered by the Council."

The Hon'ble MAULVI SAIYID MUHAMMAD FAKHR-UD-DIN said :—

"Your Honour, on the 9th January last, when the constitution of the Select Committee was taken up by Your Honour for consideration, the Hon'ble Raja Rajendra Narain Bhanj Deo moved the motion which originally stood in the name of the Hon'ble Mr. M. S. Das, and I had the good luck of supporting that motion. My chief reason for supporting that motion was that, after the announcement made by His Imperial Majesty the King-Emperor at Delhi that Orissa will form part of the new Province of Bihar and Chota Nagpur and that the new Province will be created very shortly, if the consideration of the Bill

be postponed till after the creation of the new Province to be considered by the new Legislative Council of Bihar, it would be very satisfactory. Your Honour suggested a very good and conciliatory scheme to let the Report of the Select Committee come forward before this Council, and if, at that time, any members should think that it is not satisfactory the members of the Council will then be at liberty to move for the postponement of the consideration of this Bill by this Council. Of course, I have not had the opportunity of examining what changes have been made by the Select Committee; nor am I personally aware what discussions took place in the Select Committee, and how far the changes made by the Select Committee are satisfactory, but what I have heard to-day from the Hon'ble Mr. Das shows that the people of Orissa are not satisfied with the Report of the Select Committee, and therefore they want further time to consider the provisions of the Bill in the new Council. Whatever defects may be in the existing law by which Orissa is at present administered so far as the landlords and tenants are concerned, if the same defective law be made applicable to it for a few months more, there would not be much harm done, and there is no reason why this Bill should be taken up in a hurry, and should be passed into law. With these few words, I beg to support the motion of the hon'ble Mr. Das."

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN said:—

"Your Honour, before coming to the Council and after reading the Hon'ble Mr. Das's Note of Dissent, I thought I would support his motion. But after having heard his arguments as well as the arguments advanced by other Hon'ble Members, I do not at all feel convinced that this Council is not competent to pass this Bill. I do not also think that Orissa will fair better than it is now, if the Bill is taken up for consideration in the new Council. I do not quite follow the reasons advanced in favour of postponing the passing of this measure. I am sorry therefore that I cannot support the Hon'ble Mr Das's motion. If I support it at all, it would be upon grounds of sentiment as a Bihari which I do not wish to do. For these reasons, Your Honour, I oppose this motion."

The Hon'ble BABU JANAKI NATH BOSE said:—

"Mr. President—I very much regret that I cannot support the motion of my hon'ble friend Mr. Das. I have listened to his speech very attentively, and to the speeches that were delivered in support of his motion, but I cannot find any reason whatsoever as to why this Council is not in a position to deal with this measure effectively. It will not serve any useful purpose now for me to answer the questions of law raised by my friend, but it will suffice for me to say that this motion of the hon'ble Mr. Das does not seem to be in consonance with the feelings or convictions of the people of Orissa. Up to this moment, I have only heard that a telegram has been received from the Orissa Landholders' Association asking this Council not to proceed further with this Bill, but there are other Associations in the Province and we do not find any representation to that effect from any of them, and there are people in Orissa who can hold public meetings and mass meetings if necessity arises, but no such meeting has been held up to this moment to give expression to their feelings, that this Council will be unable to do justice to this measure.

"Assuming for the sake of argument that my friend's contention is right, that the settlement records prepared in 1898 and 1899 were not quite accurate and that some of the entries might have interfered with the vested rights of landlords and tenants, we ought to see whether this Council can do anything to right the wrongs, if I may say so, or put the law on a sound basis. To my mind it has always seemed that the gentlemen who were connected with the settlement of Orissa and who had to work up the agrarian law in that Province, are the best fitted to right the wrongs and to place the statutory law on a safe and sound basis. Your Honour knows very well Act X of 1859 was the law of Orissa from the year 1859. For over 50 years it has been the rent law of Orissa. The subsequent introductions of the Bengal Tenancy Act made the rent law of Orissa somewhat

anomalous and uncertain. This working of two statutes side by side might have given rise to anomalies and some cause of complaint, and the responsible officers of the Government of Bengal also thought it best to remove these anomalies and uncertainties; and after years of deliberation in which the public was taken into confidence, we have got a decent piece of legislation with which I think this Council will deal, not hurriedly but will take time and properly discuss the questions that will be raised by my hon'ble friend. I do not see the slightest advantage in this Bill going before the Council of Bihar, because Your Honour knows that this Bill will then be before legislators who will be for some time to come quite unacquainted with the land-tenures of that province, and the special interests of the people of Orissa. My friend's contention is that the people who are best fitted to deal with this measure should be deprived of the power of doing that, but that the Bill should have a chance of going before people who perhaps are not acquainted or will not be soon acquainted with the essential features of land tenures, and who will not feel so much sympathy with the people of this province as this Council would naturally feel.

"I am really sorry, Sir, that a remark which was unfortunately made by the Raja of Kanika at the meeting of the 9th January has been repeated. He said that the Government of Bengal was guilty of injustice to the people of Orissa. Of course, my friend the Raja of Kanika is a young man, and I did not think it worth my while to answer his accusation; but I do not think that I shall allow this opportunity to pass without entering my solemn protest against an accusation like this.

"On the other hand, I have been in the province for about a quarter of a century, and I have seen that Orissa has all along been treated like a pet child. The return that child now gives is to accuse this Government of gross injustice. Your Honour, I think that the people of Orissa do not want that this Bill should be dealt with by another Council. I do not see any advantage in postponing the discussion of this Bill by this Council, and I do not think that this Council will rush this Bill through without proper deliberation. From the experience I have had of the Select Committee, I am convinced that matters brought before the Committee were properly discussed, and representations made by the members of the Committee were given proper attention to. Therefore I am very sorry to oppose this motion of the Hon'ble Mr. Das."

The Hon'ble BABU MAHENDRA NATH RAY said :—

"Sir, I am sorry I cannot support the motion of the Hon'ble Mr. Das to the effect that this Council should not take up the consideration of this Bill. I speak from my experience as one who has to deal with rent law cases of Orissa that the present condition of the rent law in that part of the country is extremely unsatisfactory. I agree with the last speaker (the Hon'ble Babu Janaki Nath Bose) that the working side by side of the old rent law (Act X of 1859) with portions of the Bengal Tenancy Act extended to that Division from time to time—not to the whole Division but to some of the districts—has left the law relating to landlords and tenants in such a unsatisfactory state, that sooner the uncertainties are removed, the better. I believe the Hon'ble Mr. Das cannot gainsay the position that it is necessary that the agrarian law should be put upon a better footing; and the question is whether that is to be done by the present Council or by the new Council of Bihar and Orissa. I do not see, Sir, why the accumulated experience and the wisdom of a number of members of this Council beginning from you, Sir, should be lost in the matter of the revision of the Rent Law applicable to Orissa; nor do I see why the large mass of materials which has now been collected and which is available for the purpose of giving a good Rent Law to Orissa should be altogether lost. There is no doubt that the adequate consideration of the measure will require time, and I do not know how long we are destined to exist here or when we should be extinguished, but that is a matter which, I suppose, is not known to many of us here. Assuming that we have still a month's time to live—a month's time I should consider would be sufficient to enable us to see whether the recommendations made by the Select Committee should be allowed to stand as

they are or adopted with proper modifications. It will then be time for the Hon'ble Mr. Das to bring in his objections about *nij-jote* and *nij-chas*—a very delicate distinction which I was trying to follow with all the power that I could command. It would then be for the Hon'ble Mr. Das to see whether the position of the *bajiaftidars* may be improved or not. But all this is no reason why so much experience and so much material should be thrown away in order that the Council of the new Province may begin with the solution of very difficult questions—a solution which is urgent in view of the very unsatisfactory condition of the rent law that prevails in Orissa. With these few words, I beg to oppose the motion of the Hon'ble Mr. Das.

The HON'BLE MR. MCPHERSON said :—

"Sir, I oppose the motion which has been proposed by the Hon'ble Mr. Das. I should like to explain briefly the point of view of Government with regard to it. In my speech of 9th January I explained to the Council why it had been decided then to proceed with the Orissa Tenancy Bill in the present session. I pointed out that the Bill was the fruit of many long years of consideration and that the present Council has exceptional advantages in dealing with it, because it includes in its midst an extraordinarily large number of members—official and non-official—who are intimately acquainted with Orissa or have special interests in Orissa. If the Bill be passed in the present session, it will have the benefit of their assistance and advice. If it be postponed, it will, to a very great extent, be robbed of this advantage. I also pointed out that the tenancy law of Orissa has been before the public of Orissa for the last six years—ever since, in fact, the Revision Settlement was started—that an influential local committee was consulted in 1909 by the Hon'ble Mr. Maddox before the Bill was drafted, and that since its publication, in July of last year, it has been circulated for opinion to local officers and local bodies. The Bill was thoroughly considered by them and has, indeed, been the chief subject of conversation in Orissa since its publication. We have had valuable opinions and suggestions from all these local officers and local bodies, and we have given them most patient consideration in Select Committee for the last six weeks. The Bill is now ripe for consideration in Council, and it seems to me to be pure procrastination to suggest that the proceedings shall be stopped at the present stage and the Bill be handed over for disposal to the Legislature of the new province.

"There can be no reasonable doubt that, had there been no administrative changes announced in December last, the Bill would have been taken up in the ordinary course of business during the present session, would have been passed by the present Council, and would have been welcomed by all classes of the Uriya community. What magic is there in the Delhi announcements that appeals to the supporters of this motion? If the Bill be postponed on their account, we stand to gain nothing and to lose much. We lose the advice and assistance of many who know Orissa well, and the result is the postponement for one or two years of a much-needed legislative measure which is on the very threshold of completion. The administrators of the new province have before them the stupendous task of organizing the new administration. We shall cast an intolerable burden on them if we leave this legislation to them. It is no question of a few months more or even of a year more. There will be inevitable delays on account of references to the superior powers, re-introduction of the Bill, republication for public criticism, fresh consideration in Select Committee, and it is safe to prophesy that at least two more years will pass before Orissa gets the Tenancy Code of which it stands so much in need. Meanwhile the present settlement staff, whose services are required to give effect to certain provisions of the Bill, will be disbanded. It will be necessary in particular to reconsider the privileged land provisions of the Bill, because we shall be unable to act without inquiry on a record that is two to five years old. The detailed inquiries into the facts of possession which I deprecated in my speech of 9th January will be unavoidable, will necessitate the employment of a special staff, and will stir up a lot of strife and dispute which it was the object of clause 163, as amended, to avoid.

"It may be admitted that if the Bill is left over for the new Council, the new Council will have more time for its consideration. It may take five years or even ten years over it. But what I ask is, can the people of Orissa afford to wait longer for this legislation. They are crying out for the adjustment of their tenancy laws, and it will be a real misfortune to them if they are kept waiting longer.

"I must confess that I am puzzled to understand the attitude of mind of the Hon'ble Member who has proposed this motion. We have been told by him, in season and out of season, that Orissa is a distressed and afflicted country, which has never been treated fairly by British administrators One of its chief troubles, we are told, is that in tenancy matters it has been coupled up with Bengal to its grievous disadvantage Although we may not subscribe to the dark and gloomy pictures that have been drawn of Orissa's past history by the Hon'ble Member, and although we claim some credit to British administration for its splendid achievements in Orissa, for the peace and order which were evolved after the dark days of Mahratta misrule, for the careful administration of its revenue and civil law by a succession of distinguished Collectors and Judges, for the care and industry with which its land records have been prepared, for its canals and its embankments, its roads and its railways, and the general diffusion of prosperity that has followed in the wake of these great public works, we do admit that some confusion has resulted in the tenancy law of Orissa from the joint application to it of Act X of 1859 and portions of the Bengal Tenancy Act. We have made an honest attempt to remove this confusion and to clear up various points of difficulty and dispute that have arisen between landlord and tenant. We believe that we have the sympathy of the great mass of the population—landlords and tenants alike—in carrying through this proposed legislation, and we fail to understand why this beneficient work should be stigmatized by the Hon'ble Member as an additional grievance. In whose interest, I would ask him, is this delay proposed? If he professes to speak for the landlords of Orissa, I can only say that I have come in contact with many of them, and that all have assured me of their desire to see a self-contained Tenancy Code provided for Orissa with the least possible delay. There may be a section of the landlords who have been made acquainted with the proceedings of the Select Committee and fancy that they may fare better if the Bill be reconsidered in the new Legislature. They remind me of litigants who apply to the High Court for transfer of their cases, when the evidence has been recorded, the arguments of counsel have been heard and fear is entertained that judgment will be unfavourable.

"If it is on behalf of the raiyats that the Hon'ble Mover professes to speak, I claim to know at least as much as he does regarding the wants and requirements of the Orissa raiyats. The revision operations of the last six years have brought its officers into close contact with all the agricultural classes, and the Council may rest assured that the interests of the cultivators of the soil have not been overlooked.

"For these reasons and for those that have been advanced by my hon'ble colleagues on the Council, I oppose the motion for postponement and strongly recommend that the Council take the Report of the Select Committee and the Bill as amended into consideration at the next meeting of the Council."

The HON'BLE MR. DAS said:—

"Your Honour, the speeches that have been made by those gentlemen who have opposed my motion, had been apparently made on a supposition that I was opposed to have an agragian Code, a self-contained law, containing all that is necessary to govern the relations between the different classes having interest in land. I am not at all opposed to it. All that I say is that the interests are of such a nature, and owing to there being these anomalies as regards the application of the different Acts in the province, there have been so many difficult questions to be solved, that it is not possible for this Council, unless this Council's lease of life has been extended by anything which is not known to the public, to do justice to this question. The

Hon'ble Mr. Maddox has said that he has brought to the notice of the public certain irregularities which were made. No doubt he has done that. I certainly admire the Hon'ble Member's straightforwardness in doing that, and not only that but also his solicitude that some compensation should be made to those whose interests have been affected by the mistakes of the Settlement Department is worthy of anybody's admiration; but then, Sir, the man who makes a mistake is no doubt the person who can tell us as to where the mistake has been made, and no doubt his suggestions as regards how the mistake can be remedied are valuable, but the question, when he becomes the sole arbiter of the situation, assumes a dubious form. I really admire the Hon'ble Mr. Maddox coming forward boldly and saying that these people should be compensated, just as I would admire the courage of a doctor, who had been operating by mistake in such a way as to injure a vital part, to say that he had made a mistake, but while certainly I would follow his advice: I would say, 'I will not allow you to be the arbiter of the situation; it is much better that your work should be judged by others.' A good deal has been said that the volume of work, which has been gained by the application and labour of men who have known Orissa so well, should not be thrown away. I am sure none of it will be thrown away. They have all been put on record, and consequently they will pass on to the next Government. That is altogether an erroneous argument.

"Another objection is that this Council has Hon'ble Members who are so well acquainted with Orissa, and the next Council might not have men who are likely to possess the same knowledge about the affairs of Orissa. That may be so, but the administration of Orissa is about to be made over to a new Government. It is not known what policy that Government would adopt with regard to the administration of Orissa. Are we not sitting here actually to decide what policy that Government should adopt when we undertake to legislate a measure which effects the interests of millions of people—a most important measure regarding an agrarian population of millions. How should we know that that Government would actually like the idea of importing legislative enactments which are not to be found anywhere in the neighbourhood, but are to be found in Madras, Bombay and in the theories of those gentlemen who have been drafting this Bill.

"Then the Hon'ble Member in charge of the Bill has spoken for the raiyats. I can very well understand that. When a raiyat has been making his *salam* to a Settlement Officer in the mufassal, and when the raiyat found that the Settlement Officer deprived another of his rights, and made it over to him, he would naturally show confidence in the Settlement Officer. Of course, if the Settlement Officers admit that they have done irregularities, it is no wonder that they would please some people. The Hon'ble Member in charge has claimed to be the raiyat's friend. This claim is put forward by an official. But I suppose the poor raiyat knows the real sympathy of the official when he remembers the official treatment he gets in times of famine and floods.

"Then, Sir, it has been said that the Government of Bengal has treated Orissa like a pet child, and therefore we expect the best things from this Government. I do not know whether this is the theory which the Government of Bengal entertains. That theory has not been entertained by His Gracious Majesty. If His Gracious Majesty thought that the Bengal Government had treated Orissa as a pet child, certainly this administrative change would not have been brought about. Let me state to Your Honour that when the Bengal Tenancy Act was passed, though it was contemplated that this would be introduced into Orissa at some future date, no man from Orissa was allowed a seat in this Council.

"I may also remind the Council that all Acts that have been passed in this Council with regard to Orissa have been passed without anybody representing Orissa on this Council.

"The Bengal Tenancy Act was amended on two or three occasions for the purpose of carrying out the revenue settlement in Orissa; there was no seat

allowed to a member from Orissa. I know for certain that even on that occasion nobody was appointed to this Council by nomination. The only instance when there has been a nomination to this Council is the present one, when Government thought it fit to bring in by nomination the public prosecutor of the land, to prosecute a people give them a bad name and a bad law, just before handing them over to the new Government with a bad character.

"I do not know exactly what time this Council has at its command for passing this Bill. Certainly, I should have been the last person to object to this Bill being considered in this Council, if I knew that the time at its command was sufficient for the purpose. Of course, Your Honour knows best. If I were allowed to discuss the principles of this Bill, I could point out to Your Honour that there were mistakes even in the definition. If all that is to be gone through, either the Council must be rushed or attention cannot be paid to what are called 'legal objections' raised by the contemptible class called lawyers. If we do not pay attention to the suggestions of that contemptible class, the result will be whatever may be the intentions of Government, the law courts will not look to the intention of the Government, and the Government might find that after all its intentions have not been given effect to,—then there will be necessity of legislating again; and that is the danger ahead of us. I do not think that I should take up Your Honour's time any more, but I submit respectfully that if the people of Orissa understood what is good for them, if the people knew what their rights were, then certainly these mistakes which were done by the Settlement Department—unsettlements made by settlement—should not have been allowed. The question is, do the intelligent people,—do the people who understand the provisions of the enactments, do the people who appreciate the Hon'ble Mr. McPherson's generous concessions,—do these people bearing in mind the concessions which Government intends to make,—do these people think, after they have read the Bill and the form in which it is proposed to be passed, that this law should be the best suited for their purposes. I should like to know what lawyers have been consulted on this point. Certainly in a legislation of this kind lawyers must have a voice. I was going to discuss certain things and to point out that these provisions will never do, but of course Your Honour ruled that I was going beside the point. It was not therefore possible for me to show how the irregularities and the mistakes which are to be found in the Bill have been remedied.

"The Hon'ble Babu Mahendra Nath Ray said that he found that there were anomalies, and he said that he had special acquaintance with the Tenancy Act. Of course I do not know the nature and the extent of his experience, but I found that he was arguing certain points which were perhaps new to him, as the Hon'ble Maharajadhiraja Bahadur of Burdwan said certain words in the Bill would be strange to the Bihar gentlemen in the new Council. They may be so. The whole administration of Orissa will be strange to the new Council. But this is not for us to decide. I believe that at least we will have this advantage, that the new Government will look at it from an outsider's point of view and judge the work of the Settlement Officer as an outsider would do, and not be influenced by such opinions as have been put forward by people who are responsible no doubt for the mischief done, and who now say that the mischief is to be corrected in this way.

"With these few remarks, Sir, I beg to put the motion to the vote."

A division was then taken, with the following result:—

THE MINING SETTLEMENT BILL, 1911.

The Hon'ble Mr. Cumming presented the Report of the Select Committee on the Bill to provide for the sanitation of Mining Settlements in Bengal.

He said :—

"SIR, I beg leave to present the report of the Select Committee on the Bengal Mining Settlements Bill. In doing so, I should like to recall to Hon'ble Members the peculiar circumstances which gave rise to the legislation. The Bill is primarily in the interests of the labouring classes at work in the coal mines, and secondarily in the interests of the mining industry. It was only after every possible measure under other Acts had been tried and had failed that recourse was had to special legislation. The Indian Mining Association had complained, and with justice, that whatever sanitary precautions might be taken by any coal mine-owner, these might all be nullified by the inaction of a neighbour, who might be free from any control under the Mines Act; and so the Bill was designed to create in selected areas a local sanitary authority, on which both mine-owners and royalty receivers should be represented, with power to deal with such and similar cases and to exercise general sanitary control.

"The opinions which have been received since the Bill was introduced showed that it was defective in several respects; and in Select Committee considerable alterations have been made, the more important of which are mentioned in the report which is in the hands of Hon'ble Members. The principle kept in view is that the Bill should be as elastic and flexible as possible, in view of the diverse nature of the tracts in which the law may hereafter be put in force. To one objection which has been made that the Bill is not suitable for dealing with a large water-supply scheme, such as is contemplated in the Jharia coalfield, the answer is that the Bill was not designed to cover such a scheme.

"The crux of the whole Bill is the financing of the Mines Board of Health which may be created in selected areas to be termed Mining Settlements. It is not unfair that the expenses should be borne by those connected with the mining industry; but the difficulty was to find a common denominator between the charges on the coal mine-owners and the charges on the royalty receivers. It was at first proposed in consultation with the Indian Mining Association that the charges should be levied from both classes in proportion to the road-cess paid; this seemed a simple and intelligible method of calculation. But the mine-owners pay road-cess on profits, while the royalty receivers pay on output. It follows that, if in a particular mine there was no profit on the working, the mine-owner would pay no road-cess; and hence would not contribute at all to the sanitary charges. So the Committee of the Indian Mining Association suggested that the output of mines should also form a basis for calculation. The Select Committee after obtaining statistics thought that the fair apportionment between the two classes as a whole would be nine-tenths to mine-owners and one-tenth to royalty receivors; and further that amongst mine-owners themselves the assessment should be according to output and amongst royalty receivers according to road-cess. But, while trusting that in the beginning the above proportion between the two classes may be maintained, the Select Committee have considered that the proportion between these two classes should be fixed from time to time by Government.

"I should like to take this further opportunity of expressing the thanks of Government to the Indian Mining Association for the part which they have taken throughout in advancing this legislation."

The Council was then adjourned to Wednesday, the 20th March, 1912, at 11 A.M.

ABOLITION OF THE OFFICIAL VERNACULAR GAZETTES.

FINANCIAL DEPARTMENT.

MISCELLANEOUS.

CALCUTTA, THE 7TH MARCH 1912.

RESOLUTION—No. 1315 Mis.

THE Lieutenant-Governor in Council has had under consideration the question of abolishing the official Vernacular Gazettes. These are three in number—the *Bengali Gazette*, the *Bihar Hindi Gazette* and the *Uriya Gazette*—and were originally published mainly in order to communicate the orders and notifications of Government to those who were unable to read them in the *Calcutta Gazette*. They have also been used as a medium for publishing translations of Bills which were before the Legislative Councils.

2. In the years 1886 and 1888 considerable reductions were made in the size of the *Bengali* and *Hindi Gazettes*, and, after careful enquiries made in 1895, further large reductions were made, under Resolution No. 51 T.—G., dated the 18th May 1895, in the matter published in each of the three Vernacular Gazettes. Their free distribution was, at the same time, considerably restricted. Proposals have recently been sanctioned by the Government of India which will have the effect of reducing, very considerably, the number of Bills and Acts which will be translated into the vernacular, and as regards the diffusion among those who do not know English of a knowledge of Government notifications and orders, the present Vernacular Gazettes appear to have failed to achieve their purpose. The statement below shows the present distribution of these three gazettes :—

	Bengali Gazette.	Hindi Gazette.	Uriya Gazette.
Government officials	8	4	21
Newspaper Editors	12	2	6
Public Libraries	6	...	...
Honorary Magistrates	8	9	...
Subscribers	3	...	16
Total ...	37	15	43

In view of these facts, the Lieutenant-Governor in Council has decided to discontinue the publication of the official Vernacular Gazettes with effect from the 1st April 1912.

By order of the Lieutenant-Governor in Council,

H. L. STEPHENSON,

Offg. Secretary to the Govt. of Bengal.

RULES FOR THE GUIDANCE OF EXECUTIVE AND JUDICIAL OFFICERS IN DEALING WITH CRIMINAL LUNATICS.

MUNICIPAL DEPARTMENT—MEDICAL.

Calcutta, the 11th March 1912.

RESOLUTION—No. 723Medl.

READ—

Resolution dated the 21st August 1888, prescribing certain rules for the guidance of Executive and Judicial officers in dealing with criminal lunatics.

Read also—

Resolution No. 4855, dated the 25th September 1905.
Resolution No. 927T.—Medl., dated the 20th September 1910.

THE form of the Medical History-sheet which is required to accompany a criminal lunatic whose detention in a lunatic asylum is ordered by the Local Government under section 466 or 471 of the Code of Criminal Procedure or under section 30 (*1*) of the Prisoners Act, 1900 (III of 1900), has recently been revised with the approval of the Government of India and the title of the form has been changed to "Descriptive Roll of Lunatic." The form of Medical History-sheet prepared by the asylum authorities which formed Appendix I to the Resolution of the 21st August 1888, and is printed at page 65 of the Bengal Lunatic Asylums Manual, 1910, remains unchanged and retains its title in order to distinguish it from the descriptive-roll. It has been rendered desirable to make certain consequential modifications in the rules which were issued about 25 years ago for the guidance of Executive and Judicial officers in dealing with this class of lunatics, and to embody in them some additional orders which have since been passed. The object of the revision is to distinguish clearly between the procedure to be followed in the different classes of cases. The rules, as now revised, are appended to this Resolution, and the Lieutenant-Governor in Council directs that they may be substituted for the existing rules issued with the Resolution of 1888 and printed at pages 62-64 of the Lunatic Asylums Manual. The opportunity has also been taken to make the necessary verbal alterations in the statement of the principles on which the Local Government will act in disposing of the cases of criminal lunatics sent up for orders under sections 466, 471, 474 and 475 of the Code of Criminal Procedure, and section 30 of the Prisoners Act III of 1900.

ORDER.—Ordered that this Resolution with its appendices be published in the *Calcutta Gazette*.

Ordered also that a copy of this Resolution, together with a copy of the appendices, be forwarded to all Commissioners of Divisions, for information and communication to District Officers; and to all Sessions Judges for information and guidance, and to the Inspector-General of Civil Hospitals, Bengal, for information and for communication to the Superintendents of Lunatic Asylums.

By order of the Lieutenant-Governor in Council,

H. L. STEPHENSON,
Offg. Secretary to the Government of Bengal.

RULES FOR THE GUIDANCE OF EXECUTIVE AND JUDICIAL OFFICERS IN DEALING WITH CRIMINAL LUNATICS.

References to pages and forms are to the pages of, and forms in, the Bengal Lunatic Asylums Manual, 1910.

1. When an accused person is brought before a Court and is found to be of unsound mind and incapable of making his defence, if the crime of which such person is accused, be an offence against the person, or if there is reason to believe that he has at any time been aggressive, the Magistrate or Court of Sessions, in considering whether to accept security under section 466 (1), Criminal Procedure Code, should consult the Civil Surgeon under whose observation the lunatic has been detained, and he should have before him, as far as possible, the information detailed in the descriptive-roll of the lunatic in Form III (pages 92-93) before accepting bail.

2. When the case of a lunatic who has been detained in an asylum under section 30 (1) of the Prisoners Act and, his sentence having expired, is further detained under Act XXXVI of 1858, is brought before the visitors under section 9 or the Magistrate under section 10 of the Act, it will be the duty of the Superintendent of the Asylum to furnish in writing all the information detailed in the form of the medical history-sheet (page 65), for the information of the said visitors or Magistrate, together with his own opinion as to the safety of releasing the lunatic.

3. In the event of the lunatic having at any time exhibited a tendency to violence, it will be the duty of the visitors or Magistrate, as the case may be, to satisfy themselves before ordering his discharge that a sufficient length of time has elapsed since such manifestation to render a recurrence improbable and that the sureties offered are in a position to control the actions of the lunatic should it recur.

4. Cases of criminal lunatics referred to Government, fall into four classes:—

(1) Cases reported under section 466(2), Criminal Procedure Code.
(2) Ditto ditto section 471, ditto.
(3) Ditto ditto section 474, ditto.
(4) Ditto ditto section 30 of the Prisoners Act, 1900 (III of 1900).

Cases under rule 4 (1).

5. Cases reported under section 466(2), Criminal Procedure Code, must be accompanied by a statement of the circumstances in which the act for which the lunatic was sent up for trial was committed and by a descriptive-roll of the lunatic in Form III (pages 92 and 93).

6. It should invariably be stated whether the lunatic has any relatives or friends willing to take charge of him and if so, whether he can, in the opinion of the Civil Surgeon, safely be made over to them on their furnishing security that he shall be properly taken care of and prevented from doing injury to himself or to any other person, and that he shall be produced before the Magistrate for inspection when required. If the prisoner has no relatives or friends who are willing to take charge of him, the Magistrate should state whether he may, in the opinion of the Civil Surgeon, safely be discharged without security. If the Magistrate differs from the Civil Surgeon as to the advisability of release with or without security, he should state his grounds for his opinion. Enquiries as to friends and relatives should be made as quickly as possible.

Cases under rule 4 (2).

7. Cases reported under section 471, Criminal Procedure Code, are of two kinds:—

(*a*) Those in which no previous reference has been made under section 466 (2) or in which the lunatic has recovered his sanity without being confined in an asylum.

(*b*) Those in which a previous reference has been made under section 466 (2) and the lunatic has recovered his sanity after having been sent to an asylum.

Cases under rule 7 (a).

8. In the case (*a*), a copy of the Court's order or judgment or, if it be insufficient to furnish detailed information regarding the lunatic, the record of the trial, should be sent together with a descriptive-roll in Form III (pages 92-93) and information as in rule 6 above.

Cases under rule 7 (b).

9. In the case (*b*), a copy of Court's order or judgment or if it be insufficient to furnish detailed information regarding the lunatics, the record of the trial should be sent together with a medical history-sheet in the form printed at page 65.

10. When the visitors of an asylum certify that an accused confined by the orders of Government under section 466 (2) is capable of making his defence, it is essential that the trying court should have full information before it on which to base a recommendation if the case is reported to Government under section 471. It will, therefore, be the duty of the Superintendent of the Asylum to forward, with every lunatic sent to stand his trial, the medical history-sheet in the form (at page 65) together with an abstract from the Asylum case-book detailing the chief events of his history and recorded opinions, with dates regarding his mental attitude while under observation in the asylum. The Superintendent of the

Asylum shall also forward his own opinion for the information of the Magistrate or Court and for transmission to the Local Government.

Cases under rule 4 (3).

11. When a criminal lunatic has never exhibited any tendency to violence, and his crime has not been an offence against the person, or being such an offence was of a trivial nature and not evincing a decided homicidal tendency, the Local Government will be mainly guided, in passing orders under section 474, by the recommendations of the visitors and of the Superintendent of the Asylum, with whom therefore the responsibility of releasing or detaining the lunatic will practically rest.

Cases under rule 4 (4).

12. If it is recommended that a recovered criminal lunatic should be remanded to a jail under section 30 (2) of the Prisoners Act (III of 1900), the Superintendent of the Asylum will give specific reasons for thinking that this procedure is a safe one, having due regard to the medical history and length of unexpired sentence to run before final release from jail.

Transfer of lunatics from asylums to jails.

13. When a recovered criminal lunatic is transferred from an asylum to a jail, the Superintendent of the Asylum will forward to the Superintendent of the Jail a copy of the lunatics medical history-sheet, together with a statement showing the manner in which he has been employed in the asylum up to the time of his transfer.

14. Recovered criminal lunatics shall, in the first instance, be transferred to the jail of the district in which the asylum is situated. For this purpose, the Alipore and the Presidency Jails shall both be receiving jails for the Bhowanipore Asylum. The Patna, Berhampore and the Dacca Jails shall be the receiving jails for the asylums in those towns. In these receiving jails the recovered lunatic shall serve the probationary period to be passed in the grade of convict overseer, after which he may be transferred to serve as convict and paid warder in the jail nearest his home.

15. Recoverved female criminal lunatics will not in any case be transferred to jails, but may be promoted at the discretion of the Superintendent of the Lunatic Asylum to the post of keeper, receiving, after a period of probation of at least two years, a monthly allowance of Rs. 2 and may be eventually released on conditions similar to those laid down for recovered male lunatics transferred to jails.

Principles on which the Local Government will act in disposing of the cases of criminal lunatics sent up for orders under sections 466, 471, 474 and 475 of the Code of Criminal Procedure (Act V of 1898) and section 30 of the Prisoners Act (III of 1900).

I. Medical history-sheet or descriptive-roll to be called for in every case.

1. Final orders should not be issued unless the lunatic's papers are accompanied by the medical history-sheet, as printed on page 65 or the descriptive-roll as printed at pages 92-93.

A.—Recovered criminal lunatics.

II Crime.—*Offence against person.*
Cause—Ganja, &c.
Type—Acute or chronic mania.

2. If the crime be against the person, the cause ganja or other intoxicant, and the type of insanity acute or chronic mania, a period of three years should be spent in an asylum free from all signs of insanity before any action is taken.

(*a*) Age under 40 years.

(*a*) At the end of that time, if under 40 years of age and in good physical health, he should be transferred to the nearest central or other jail, there to undergo a period of probation of six years, of which three had better be in the grade of paid warder.

(*b*) Age over 40 years.

(*b*) If over 40 years of age, or in poor physical health, the period of probation in jail may be shortened according to circumstances of crime and nature of security offered.

In any case security should, if possible, be taken on the expiry of his period of probation in jail.

III Crime.—*Offence against person.*
Cause—Not ganja, etc.
Type—Acute or chronic mania.

3. If the crime be an offence against the person, the type of insanity acute or chronic mania, and the alleged cause not ganja or other intoxicant, a period of at least four years of complete freedom from insanity should be spent in an asylum before action is taken.

(*a*) Age under 40 years.

(*a*) At the end of that time, if under 40 years of age and in good physical health, he may be transferred to a jail, there to undergo a probation of four years, of which two should be in the grade of paid warder.

(*b*) Age over 40 years.

(*b*) If over 40 years of age, the period of probation in jail might be shortened, according to circumstances of health and surety. Security should, if possible, be taken before his final release from jail supervision.

IV. Crime.—*Not offence against person, but mental attitude aggressive.*
Type—Acute or chronic mania.

4. If the crime be not an offence against the person, but the lunatic has at any time exhibited dangerous or violent tendencies, and the type of insanity is acute or chronic mania, he should be treated exactly as above, except that the period of probation in jail may be shortened in accordance with the kind and degree of violence exhibited; always provided that in ganja cases the period spent as paid warder should be three years, and in non-ganja cases two years. In all, security should, if possible, be taken on final release.

V. Crime.—*Not offence against the person, or if so, trivial in its nature; mental attitude not aggressive.*

5. If the crime be not an offence against the person, and there be no history that the lunatic was at any time aggressive, he may generally be treated much as if he were a non-criminal lunatic. As has been stated in rule 11 for the guidance of executive officers, the Local Government will generally be guided in such cases by the recommendations of the visitors and of the Superintendent of the Asylum in which the lunatic has been confined.

VI. Crime.—*Murder.*
Type—Melancholia.

6. If the type of insanity be melancholia, a period of at least six years' complete freedom from insanity should be passed in an asylum before action is taken. During the last year of this period the recovered criminal may be allowed access to the bazar under certain regulations.

(*a*) Age under 40 years.

(*a*) If at the end of that period he is still under 40 years of age, he should not be released except on excellent security.

(*b*) Age over 40 years.

(*b*) If over 40 years of age, security should, if possible be obtained.

VII. Crime.—*Attempted suicide.*
Type—Melancholia.

7. If the crime be attempt to commit suicide, and not murder, the type, melancholia, and if he has not exhibited any violent tendencies while under observation, some relaxation of the rules may be permitted according to circumtances of age, period of detention, etc.

Cases of melancholia should not be sent to pass a period of probation in jail.

B—Unrecovered criminal lunatics.

VIII. Crime.—*Offence against person.*
(*a*) Type—Irritable chronic mania.

8. If the crime be an office against the person, the type, chronic mania of the irritable aggressive kind, it will seldom be possible to release the lunatic during the continuance of insanity, except in advanced age and on exceptional security.

(*b*) Type—Chæromania.

If the crime be an offence against the person, the type of insanity chronic mania of the amiable kind, a lunatic may be released after passing six to ten years in that condition but only on security.

If below 40 years of age, detention should generally be ten years; if over 40 years of age, six years may suffice.

IX. Crime.—*Not offence against the person, or if so, trivial in its nature; mental attitude not aggressive.*

9. If the crime be not an offence against the person, or if an offence against the person of a trivial nature, and the lunatic has never exhibited aggressive symptoms, he may generally be treated much as if he were a non-criminal lunatic, and the Local Government, when dealing with his case under section 474, will be guided chiefly by the recorded opinion of the Superintendent of the Asylum as to the propriety of releasing him and by the recommendations of the visitors.

(*a*) Type—Chæromania.

(*a*) If his mental attitude be chronic mania, characterised by good humour, cheerfulness, and amiability, and

	he is able to earn a livelihood, he may generally be released with or without security.
(*b*) Type—Slight chronic dementia.	(*b*) If it be chronic dementia or imbecility of slight degree, he may be released on similar conditions.
(*c*) Type—Irritable chronic mania or pronounced dementia.	(*c*) If he be suffering from chronic mania of the irritable mischievous type, or chronic dementia of a more pronounced character, he may still be released, but only on satisfactory security that he will be properly cared for and prevented from doing injury to himself or others.
(*d*) Type—Worst degree of chronic mania, dementia or imbecility.	(*d*) If the chronic mania be of inveterate type, or the dementia or imbecility of the last degree, the lunatic can only be safely and humanely treated in an asylum.

CHAPTER 1.

General Rules.

1. **Time and Place of Examinations.**—The times and places at which examinations are held are shown in Appendix A, page 556.

2. **How to apply.**—Candidates for examination must fill up a form of application (form Exn. 3.), at the Port Office. The form properly filled in, together with the candidate's certificate of apprenticeship, testimonials, and discharges, must be lodged with the Port Officer not later than three days before the day of examination. As discharges and testimonials may have to be verified, it is desirable that they should be handed in, together with the form of application, as many days as possible before the date of the examination which the candidate desires to attend. In the absence of the necessary verification the candidates cannot be examined.

In all cases in which certificates of discharge in the home or other trade which have not been officially issued at a Mercantile Marine Office are produced as evidence of any part of a candidate's qualifying service, they should be submitted to the Port Officer for verification.

3. **Gaps in Service.**—The Examiner should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for, before he is allowed up for examination.

4. **Calculation of Service.**—The candidate's services as shown on his discharges, should be reckoned by the calendar month, *i.e*, the time included between any given day in any month and the preceding day of the following month, both inclusive. The number of complete months from the commencement of the period, ascertained in this way, should be computed, after which the number of odd days should be counted. The day on which the agreement commences as well as that on which it terminates should both be included and all odd days should be added together and reckoned at 30 to the month.

5. **Service must be Verified.**—Service which cannot be verified by proper entries in the articles of agreement of the ships in which the candidates have served cannot be counted.

6. **Application in Special Cases.**—In cases where the services of a candidate require verification, or where he is in doubt whether his service complies with the regulations and wishes to submit his case for special consideration, all certificates, discharges, and testimonials, together with the form of application.* properly filled in, should be submitted to the Port Officer who will either deal with the case or transmit it to Government for decision.

7. **Inquiries.**—All other inquiries regarding examinations should be made and dealt with in the same way. The point on which information is sought should be clearly stated, and Certificates, discharges, testimonials, &c., should be forwarded when they are material to the inquiry.

8. **Age.**—Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth.

9. **Fraud and Misrepresentation.**—It is provided by section 104 of the Merchant Shipping Act, 1894, that any person who makes, assists in making, or procures to be made, any false representation for the purpose of procuring either for himself or for any other person a Certificate of competency, shall in respect of each offence be guilty of a misdemeanour, which is punishable, on summary conviction, with imprisonment for a term not exceeding six months, with or without hard labour, or with a fine not exceeding one hundred pounds.

10. **Testimonials; Shore Service.**—All candidates will be required to produce, in addition to the official discharge certificates, testimonials as to their workshop service

* Form Exn. 8, which can be obtained at the Port Office.

and as to their service at sea. The testimonials as to workshop service must be signed by the employer, and must testify to the candidate's conduct and ability, and state what kind of work he was engaged on (*e.g.*, fitting, erecting turning, machine work, &c.), and for how long. (*See* paragraph 31.)

11. **Testimonials; Sea Service.**—Testimonials as to service at sea must testify to the applicant's sobriety, experience, ability, and general good conduct for at least the last twelve months' service at sea preceding the date of application to be examined. They must be signed by the Master and Chief Engineer, or in the case of testimonials to Chief Engineers, by the Master and Superintending Engineer, and must clearly state whether the applicant was on regular watch, and in regular charge of a watch on the main engines or boilers. It is desirable that testimonials of candidates should be endorsed by the Superintending Engineer. No time spent in clerical work will be allowed to count.

12. **Further as to Testimonials.**—In cases where a testimonial from the Chief Engineer, or from the Master, is for any sufficient reason not obtainable, one may be submitted from the Superintending Engineer in place of that of the Chief Engineer, and from the Marine Superintendent in place of that of the Master, or from the Managing Owner or Secretary or Chairman of a large Company in place of either; but in every such instance the testimonials must declare that the facts stated are in accordance with the reports made by the Chief Engineer or the Master, as the case may be, or else that the facts are within the writer's personal knowledge.

13. **Penalty for Misconduct.**—Candidates who have neglected to join their vessels after having signed Articles, or who have deserted their vessels after having joined, or who have been found guilty of gross misconduct on board, will be required to produce satisfactory proofs of two years' subsequent service and good conduct at sea, unless the Government, after having investigated the matter, should see fit to reduce the time.

14. **Physical Defects.**—When a candidate is observed to be hard of hearing, or is labouring under any other obvious physical defect, the signatories of his testimonials are required to mention that defect specifically, and to state whether it in any way interfered with the efficiency of the candidate as an engineer on watch. When these modified testimonials are such as to completely satisfy the Examiner that the defect is not such as to interfere with the efficient discharge of the applicant's duties as

engineer, the examination is proceeded with; otherwise the case is referred to the Government. Candidates afflicted with nervous impediment in speech may write their answers to *viva voce* questions.

15. **Foreign Service.**—The testimonials of service of foreign or British engineers serving in foreign vessels, which cannot be verified by the Port Officer, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged or by some other recognized official authority of that country; or by the testimony of some credible person on the spot having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

16. **Foreign Engineers must know English.**—Foreign engineers must prove to the satisfaction of the Examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

17. **Issue of Certificate.**—If the candidate passes he will receive a form (form Exn. 16) authorising the Port Officer to whom it is addressed to issue the Certificate. The candidate's testimonials and other papers will be returned to him when the examination is fininshed. It is therefore important that the port at which the Certificate is to be issued should be the same on both the form Exn. 16 and the form of application, Exn. 3. If circumstances should make any alteration necessary, the Examiner should see that it is made in both forms; otherwise delay in the issue of the Certificate may be caused.

18. **Service found to be Insufficient.**—If after a candidate has passed the examination it is discovered on further investigation that his services are insufficient to entitle him to receive a Certificate of the grade for which he has passed, the Certificate will not be granted to him; but if the Port Officer is satisfied that the error in the calculation of the candidate's services did not occur through any fault or wilful misrepresentation on his part, he may either have the fee returned to him or have it placed to his credit. Should his services entitle him to a Certificate of a lower grade it may be granted to him, and the difference, if any, between the fee paid by him for the superior Certificate and the fee payable for the inferior Certificate will be returned

to him or placed to his credit. The superior Certificate will not be granted until the candidate has performed the amount of service in which he was deficient, and has been re-examined in all the subjects, unless the Government see fit to dispense with the re-examination.

19. **Failure in Examination.**—If the candidate fails in practical knowledge he may not present himself for re-examination until he can produce proofs of three months' further service at sea as Engineer on watch on the main engines or boilers of a foreign-going steamer, or its equivalent in the home trade (four and a half months) subsequent to the date of failure. If he fails in arithmetic, elementary questions, or drawing only, he may come up again at any time, but in all cases of failure any re-examination must begin entirely afresh.

20. **Fee must be Paid.**—Candidates for examination in making their application on the form Exn. 3, will be required to pay the examination fee before any step is taken towards inquiring into their services or testing their qualifications, &c. If the candidate is found not to be qualified the fee will either be returned to him or placed to his credit until he is qualified.

21. **Payment of Fees, and Penalty for offering Gratuity.**—The fee for examination must be paid to the Port Officer. If a candidate offers a gratuity to any servant of the Department, he will be regarded as having committed an act of misconduct, and will be rejected, and not allowed to be examined for twelve months, either at the port where the offence was committed or at any other port.

22. **Fees not Returned on Failure.**—If a candidate fails in his examination, no part of the fee he has paid will be returned to him.

23. **Table of Fees.**—The fees are as follows:—

	Rs.	A.	P.
Second-class Engineer's Certificate ...	15	0	0
First-class Engineer's Certificate ...	30	0	0
First-class Engineer's Certificate, if the candidate holds a Second-class Certificate of Competency granted by the Board of Trade or by the Government of a British Possession under the Merchant Shipping Act	15	0	0

(*b*) He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steam-engine, and to mark in, without a copy, all the necessary dimensions in figures, so that the sketch or drawing could be worked from.*

(*c*) He must be able to take off and calculate indicator diagrams.

(*d*) He must be able to calculate safety-valve pressures and the strength of the boiler shell, stays, and rivetting.

(*e*) He must be able to state the general proportions borne by the principal parts of the machinery to each

* *See* Appendix D.

other, and to calculate the direct stress, the torsional stress, and the bending stress in round bars, and the direct stress and the bending stress in rectangular bars with given loads.

(*f*) He must be able to explain the method of testing and altering the setting of the slide valves, and to sketch about what difference any alteration in the slide valve will make in the indicator diagram, and also the method of testing the fairness of shafts, and of adjusting them.

(*g*) He must be conversant with surface condensation, superheating, and the working of steam expansively.

(*h*) His knowledge of arithmetic must include the mensuration of superficies and solids and the extraction of the square and cube roots, and the application of these rules to questions relating to the power, duty, and economy of engines and boilers, and to the stresses in rods, shafts, and levers of the engine. He should also be able to calculate the effect of the application of the lever, pulley, inclined plane, and other mechanical powers.

(*i*) He must understand the construction of, and be able to maintain in working condition the auxiliary machinery which is placed under his charge, viz.: refrigerating machinery, electric light engines and dynamos, electric motors fitted to ships' boats, hydraulic machinery, and the various descriptions of steering engines, &c.

27. **First-class Certificates without Second.**—The Government may see fit to allow an applicant who, in consequence of service abroad, has had no opportunity to obtain a Second-class Certificate, to be examined for a First-class Certificate, although he does not possess a certificate of the lower grade, provided he is able to satisfy them as to the satisfactory character of his services, but these should be ample both as regards length and experience.

If any candidate, who has not got a Second-class Certificate of competency, fails to pass the examination for the First-class Certificate, but passes that for the lower grade, he may be given a Second-class Certificate of competency, but no part of the fee will be returned. A candidate who has been permitted to be examined for a First-class Certificate without first obtaining a Second-class Certificate of competency or a Certificate of Service, and who fails in his

examination in practical knowledge, may not be re-examined for a certificate of the higher grade until he has served 3 months as watch-keeper with a Second-class Engineer's Certificate of Competency or Service as required by the regulations. If the candidate fails in practical knowledge, both for the lower as well as for the higher grade of Certificate, he may be re-examined for a Second-class Certificate only, subject to the usual regulations relating to failure.

28. *On and after January 1st, 1915, a candidate for either a Second-class or a First-class Certificate who within two years from the date of application to be examined has attended an approved course comprising general mathematical and scientific instruction at a technical school recognised by the Government as suitable for the training of* Marine *Engineers, will be allowed to count time so spent as equivalent to sea service in the ratio of three months at the technical school to two months at sea. Time so spent cannot be accepted as equivalent to more than one-sixth of the total sea-service required for either Certificate, but a candidate who has been allowed to count such time on examination for a Second-class Certificate, will not be debarred from counting similar subsequent time on examination for a First-class Certificate.*

In every case in which an allowance is made for time spent at a Marine Technical School, the candidate will be required to produce the Principal's Certificate for continuous and regular attendance at all the approved classes and for satisfactory progress.

Certificates for Engineers of Home-trade Passenger Ships propelled by Oil Engines.

29. **Oil Engine Certificates.**—Candidates may be examined for Second-class Certificates of competency as Engineer of vessels propelled by oil engines.

These certificates will entitle the holders to go to sea as Second-class Engineers of home-trade passenger ships propelled by oil engines but will not entitle them to go to sea as Second-class Engineers of foreign-going ships or of home-trade passenger steamships.

30. **Second-class Engineer (Oil Engines.)**—A candidate for a Second-class Oil Engine Certificate must be at least 21 years of age.

(*a*) He must prove :—

(1) Four years' experience at the making or repairing of machinery, of which at least six months must be at the making or repairing of oil engines, or

(2) Three and a half years' experience in charge of engines and boilers at sea or an equivalent suitable experience on shore,

and, in addition to either (1) or (2) :—

(3) Six months' experience with oil engines at sea.

NOTE.—Alternative service to the above may be considered, but it is essential that the candidate should have experience with oil engines, and have spent at least six months at sea in the engine-room of a sea-going vessel.

(*b*) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square root. He must also understand the application of these and other rules to problems relating to spring and lever-loaded relief valves, and be able to solve questions about the relative speeds of a vessel at different revolutions, the capacity of oil tanks, &c.

(*c*) He must be able to give a clear explanation of the principle on which an oil engine works, and to shew by means of illustrative sketches and otherwise that he understands the construction of those in general use.

(*d*) He must be able to describe the chief causes which may make the engine difficult to start, and to explain how he would proceed to remedy any defects.

(*e*) He must be able to show that he understands the mechanism of the starting and reversing arrangement, and is competent to deal with defects which may lead to failure in the prompt handling or reversing of the engine.

(*f*) He must have sufficient mechanical ability to be able to overhaul the engine, to adjust the working parts, and to put the engine together again in good working condition.

(*g*) He must be able to give satisfactory answers to the elementary questions numbered 305 to 310 inclusive in Appendix C (pp. 579 and 580).

(*h*) He must be able to prove (by actual trial if practicable) that he is competent to manipulate an oil engine when under way by starting, running the engine, stopping, reversing or slowing down.

(*i*) He must understand what is meant by the flash point, and have a knowledge of the explosive properties of the oil generally used in oil engines

when exposed in the open air, and the danger of exposing any vapour from the oil to a light or of allowing any leak from the oil tanks, particularly into the vessel's bilges.

(*j*) He must understand the action of wire gauze diaphragms when placed in pipes and connections to oil tanks, &c., for the purpose of preventing the explosion or ignition of oil vapour therein.

(*k*) He must be able to take the necessary precautions to guard against the escape of inflammable vapour from the vaporiser when the engines are stopped.

(*l*) He must be able to explain the principle and construction of a dynamo and the construction and arrangement of primary and secondary batteries and induction coils, so far as is necessary for the efficient management of an oil engine.

31. **Workshop Service.**—Workshop service must have been performed in works where steam engines, boilers, &c., are made or repaired, but no time served before the age of 15 will be counted.

Not less than two years of the apprentice time must have been spent at fitting, erecting, or repairing engines and machinery either in the works or outside. The remaining two years may be made up of time spent in engine works at fitting, erecting, or repairing engines and machinery or at one of the other branches of the trade given below, or at an approved technical day school (*see* Appendix K); the time so spent to count as follows:—

Fitting, erecting, repairing, or turning.	Full time.
Working in drawing office	Full time up to one year, and beyond one year one-half time.
Pattern-making... ...	One-half time with a maximum allowance of one year.
Planing, slotting, shaping, and milling. ...	One-third time.
Boiler-making or repairing...	One-half time.
Smith work	One-half time with a maximum allowance of one year.
Coppersmith work ...	One-third time with a maximum allowance of six months.

In the event of the apprentice time being extended to five years or more, four years at turning *followed* by one year at fitting or erecting may be accepted as qualifying.

32. **Workshop service other than the above.**—When the workshop service has been performed in a place where engines are made but not in the manner specified in paragraph 31 the case must be referred to the Government with a report upon the service performed. If the service be such as is useful training for an Engineer, the Government may accept the service; but in every such case the applicant must prove additional engine room or marine engine workshop service as required in the succeeding paragraph.

33. **Workshop service where Engines are not made.**—When the workshop service has been performed in a place where steam engines are not made or repaired, and the class of work done is similar to that required in engine making, the service may be accepted with an additional year of qualifying service; that is, four years' workshop service and either two years at sea on regular watch, or one year at engine fitting in a suitable marine engine workshop and one year at sea in the engine room. The approval of the Port Officer must be obtained in every such case before the candidate is examined.

34. **Technical Schools.**—Time spent after the age of 15 at a technical day school (recognised by the Government as suitable) where there is an engineering laboratory, may be taken into account and accepted as equivalent to artisan service, usually at the ratio of three years in the technical school to two in artisan service, provided that the applicant has taken the full engineering course and can produce the Principal's Certificate for regular attendance at all the approved classes and for satisfactory progress; and provided also that the remaining portion of the time has been spent in works where steam engines, boilers, &c., are made or repaired, in accordance with the scale of values indicated above.

For list of approved technical schools and time allowed for attendance at each, *see* Appendix K.

35. **Sea-service.**—The sea-service required by these regulations is, unless otherwise stated, service performed in foreign-going ships of at least the nominal horse-power specified for the respective grades of Certificate. The nominal horse-power, as given on the vessel's Certificate of Registry, may in all cases be accepted by the Examiners.

36. **Qualifying Service defined.**—In the case of candidates for First-class Certificates qualifying service means, as a rule, service on regular watch on the main engines or boilers as senior Engineer in charge of the whole watch. When, however, three or four Engineers are on watch at the same time the service of the two seniors may be allowed to count, and when not less than six Engineers are on watch together that of the three seniors, provided a certificate from the Superintending Engineer is produced stating the number of Engineers on watch, the rank held by the applicant and that he was in full charge of a watch on a definite section of the main engines or boilers. During the whole of the period claimed, candidates must have been in possession of Second-class Certificates.

In the case of candidates for Second-class Certificates qualifying service means service as Engineer on regular watch on the main engines or boilers. In no case will time spent in clerical work be allowed to count.

37. **Further as to Qualifying Service.**—Only such service as gives the experience required to make a man thoroughly competent as a sea-going Engineer is accepted as qualifying service. Even for a Second-class Certificate the candidate must prove to the satisfaction of the Examiner that he is qualified by experience and knowledge to act as Chief Engineer in an under-powered steamer of 99 nominal horse-power on a voyage, say, from England to Egypt, taking full responsibility for engines and boilers.

38. **Foreign Engineers.**—Foreign Engineers cannot be examined for a First-class Certificate unless they have performed the sea-service stated in paragraph 26 with the requisite British Certificate. The service may have been performed in foreign vessels if the candidate can produce satisfactory testimonials as to conduct and character, and is able to prove that the service has been in the required capacities, and that during the period of service he has held a British Certificate of Competency of the rank required by the Regulations (*see* paragraph 15).

39. **Names on Articles.**—In all cases the candidates' names must have been duly entered on the ship's Articles as Engineers in their proper ratings.

40. **Regular Watch.**—Being on regular watch means being on watch for at least eight hours a day.

41. **Home-trade Service.**—Service in the home or coasting trade is regarded as being equivalent to two-thirds of the same period of time served in the foreign

trade except where other allowances are specified. *See* paragraphs 26 (*a*) (2) and (3), 42, 44, and 45. Also except in the case of Indian coasting voyages extending beyond a distance of 500 miles from the port of departure in steamships commanded by masters holding foreign-going certificates, when such service will count as foreign-voyages, and will be reckoned as full time; but the time spent in the port of departure or Home Port will not be allowed to count. In all cases the length of service is deemed to commence on the date of sailing from the port of departure or Home Port and to end on the date of arrival at the Home Port. Such service must be vouched for in the form laid down in Appendix L.

42. **Lake or River Service.**—Service as watch-keeper on a lake or river steamer of not less than 66 nominal horse-power may be accepted under the following conditions:—

(*a*) the service will only count half as much as sea service; *i.e.*, every two months of lake or river service is only equivalent to one month's foreign-going sea service;

(*b*) candidates for Second-class Certificates must prove, in addition to the lake or river service, at least three month's qualifying service at sea in a foreign-going steamship of not less than 66 nominal horse-power, or four and a half months, similar service in the home-trade;

(*c*) candidates for First-class Certificates must prove, in addition to lake or river service in vessels of not less than 99 nominal horse-power, at least six months' qualifying service at sea, with a Second-class Engineer's Certificate, in foreign-going vessels of not less than 99 nominal horse-power or nine months, similar service in the home-trade.

43. **Service in Auxiliary Screw Steam ships.**—Service performed on board auxiliary screw whalers and other vessels with auxiliary steam power of not less than 66 nominal horse-power, in the capacity of Engineer may be allowed to count towards qualifying candidates for examination for Second-class Engineers' Certificates of Competency to the extent of one-half the time the vessel is actually at sea. If the candidate is able to prove a larger amount of time under steam, he will be allowed to count the whole of such extended time.

44. **Service in Dredgers, Fishing-boats, Tug-boats, or Pilot-vessels.**—Service in sea-going steam dredgers, fishing-boats, or tug-boats, and in sea-going pilot-vessels when on their station or when going to or returning from the same, may be accepted under the following conditions:—Two months of such service is only equivalent to one month's qualifying service in a foreign-going steamer. Candidates for Second-class Certificates may perform all their sea service in sea-going steam dredgers, fishing-boats, tug-boats, or pilot-vessels, but they must have been on regular watch on the main engines or boilers, and the vessels must not be less than 66 nominal horse-power. Candidates for First-class Certificates must while in possession of a Second-class Certificate have served in vessels of at least 99 nominal horse-power, and have been in charge of a watch on the main engines or boilers They must, in addition, have served in a qualifying capacity for at least six months in a foreign-going cargo or passenger steamship, or nine months in a home-trade cargo or passenger steamship This rule will not apply to service on the steam pilot vessels at the Sandheads. Service on the regular watch on board such vessels for the period the vessels are on the station, or when going to, or returning from, the same, shall be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, as in the case of steam yachts.

45. **Service in Yachts.**—Service performed in steam yachts, either within or beyond home-trade limits, may be accepted as equivalent to two-thirds of the time performed in foreign-going trading vessels, provided that the candidate's name is entered on the vessel's Articles, and that he can prove, to the satisfaction of the Examiner, that the time claimed was actually served at sea.

Candidates for Second-class Certificates may perform all their service in yachts, but the candidate must have been on regular watch on the main engines or boilers, and the vessel must be of not less than 66 nominal horse-power.

Candidates for First-class Certificates must have served on vessels of not less than 99 nominal horse-power, and must have been in regular charge of the main engines or boilers. In addition they must have served for at least three months in a qualifying capacity on board a foreign-going cargo or passenger steamship. This additional service will, however, not be required in the case of a candidate who has served for 18 months as First Engineer, or for 2 years as Second Engineer, of a steam yacht of the requisite power.

46. **Certificates of Service.**—An officer who has attained the rank of Engineer Lieutenant or Engineer Sub-Lieutenant in His Majesty's Navy or the rank of Engineer or Assistant Engineer in the Indian Marine Service, is entitled without examination, if an Engineer Lieutenant or Engineer, to a Certificate of Service as First-class Engineer, and if an Engineer Sub-Lieutenant or Assistant Engineer, to a Certificate of Service as Second-class Engineer. These officers may be examined for a Certificate of Competency on the same conditions as Engineers of the Mercantile Marine.

An officer who has attained the rank of Chief Artificer Engineer in His Majesty's Navy is also entitled without examination to a Certificate of Service as Second-class Engineer.

47 **Examination of Engine Room Artificers.**—Artificer Engineers, Chief Engine Room Artificers, Engine Room Artificers, and Mechanicians in the Royal Navy may be examined for Certificates of Competency on the same conditions as Engineers of the Mercantile Marine.

48. **Application by Naval Officers.**—The Lords Commissioners of the Admiralty have directed that applications from officers of the Navy for Certificates of Service or for permission to be examined for Certificates of Competency must, in the case of officers on the active list, be made through the Commanding Officer to the Secretary to the Admiralty, and in the case of officers who are on half-pay or who have retired, direct to the Secretary to the Admiralty, who in either case will forward the applications to the Board of Trade.

49. **Masters' and Mates' Examination in Steam.**—Particulars of the examination of Masters and Mates in steam will be found in Appendix G, page 597.

50. **Certificates.**—The term "Certificate" in these regulations means a Certificate issued by the Board of Trade, or by a British Possession under Order in Council in accordance with sec. 102 of the Merchant Shipping Act, 1894. A list of the Colonial Certificates issued under Order in Council is given in Appendix H; and the holder of a Certificate so issued must not be examined in the United Kingdom for a Certificate of the grade already held.

51. **Colonial Local Certificates.**—The holder of a Colonial Certificate of Competency not granted under the Merchant Shipping Act, or of a Certificate of Competency granted after examination on board one of His Majesty's

Ships, who wishes to be examined for a Board of Trade Certificate of the same grade, must prove that he has performed the amount of service required by these regulations for that grade, and complied with the conditions laid down as to testimonials. No fee will be demanded for the first attempt, but if the candidate fails the usual fee will be demanded on any subsequent attempt.

All Colonial Certificates for marine purposes, whether local or issued under Order in Council, must be given up before a further Certificate is issued by the Board of Trade.

CHAPTER III.

CONDUCT OF THE EXAMINATIONS.

52. **Commencement and Duration of Examinations.**—The examinations will, as a rule, commence at 10 A.M., and will be continued from day to day until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined.

53. **Candidates to be Punctual.**—Candidates are required to appear at the examination room punctually at the time appointed.

54. **Tables to be Cleared.**—Before commencing the examination, the tables and desks must be cleared of all scraps of paper, or books that are not used in the examination, and care should be taken that the candidates while in the examination room do not have in their possession any book or paper.

55. **Strangers not Admitted.**—No person will be allowed in the rooms during the examinations other than those whose duties require them to be present.

No instructors will be allowed on the premises.

56. **Face Sheet and Blotting Paper.**—At the commencement of the examination a face sheet should be given to each of the candidates and they should be instructed to read the rules contained therein. A sheet of blotting paper will be issued to each candidate with the first examination paper, and it must be returned to the Examiner when the last paper is completed each day. The Examiner will be careful to see that the blotting paper has not been used by the candidate in solving his problems, or for conveying information to other candidates.

57. **All Work to be Shown.**—No candidate will be allowed to work out his problems on a slate or on waste

paper, or to write on the blotting paper supplied for his use in the examination. Violation of this rule will subject the candidate to all the penalties of failure.

All worked papers must be signed and dated and the name of the port of examination inserted by the candidate.

Additional sheets of paper will be supplied by the Examiner if required, but they must be attached to, and form part of, examination papers.

58. **Books and Papers strictly Forbidden.**—All books necessary for the use of candidates under examination will be provided by the Government and candidates are prohibited from bringing into the examination room books or papers of any kind whatever. The slightest infringement of this regulation will subject the offender to all the penalties of failure, and he will not be allowed to present himself for re-examination for a period of three months.

59. **Drawing Instruments.**—Candidates for First-class Certificates have to pass an examination in rough working drawing, which may, in the candidate's option, be either hand sketches clearly dimensioned and complete in the necessary views and sections, or drawings to a scale. Drawing boards and T squares will be provided by the Government, but the applicants will have to bring with them any drawing instruments they may require.

60. **Candidates' Places.**—Candidates should be so placed as to prevent one copying from another, and no communication whatever between the candidates should be allowed.

61. **Penalty for Copying, &c.**—In the event of any candidate being discovered referring to any book or paper, or copying from another, or affording any assistance or giving information to another, or communicating in any way with another, during the time of examination, or copying any part of the problems for the purpose of taking them out of the examination rooms, he will subject himself to all the penalties of failure, and will not be allowed to be again examined for a period of six months.

62. **Leaving Room or Building.**—No candidate may leave the examination room without permission and without giving up the paper on which he is engaged. Under no circumstances will the same paper be returned to him but the Examiner may substitute other data, or another question.

63. **Injury to Books.**—If a candidate defaces, blots, writes in, or otherwise injures any book or form belonging to the Government, his papers will be retained until he has replaced the damaged book or document. He will not be allowed to remove the damaged book or document, and will be subjected to all the penalties of failure.

64. **Silence.**—Perfect silence is to be preserved in the examination room.

65. **Penalty for Breach of Rules.**—Any candidate violating any of the regulations, or being guilty of insolence to the Examiner, or of disorderly or improper conduct in or about the room, will render himself liable to the postponement of his examination, or, in the event of his having passed, to the detention of his Certificate for such period as the Government may direct.

66. **Order of Examinations.**—The examination of candidates for Second-class Certificates consists of three parts: arithmetic, elementary questions, and *viva voce*; and that of candidates for First-class Certificates of four parts; arithmetic, drawing, elementary questions, and *viva voce*. *See* paragraphs 25 and 26.

67. **Examination Papers.**—One sheet only at a time should be given to the candidate and not more than two hours should be allowed for any one sheet.

68. **Arithmetic.**—When the number of marks obtained in arithmetic amounts to 28, that is, two-thirds of the maximum, the candidate passes in arithmetic.

If the marks obtained amount to 21, but not to 28, and if the applicant has had long experience, his testimonials and service should be taken into account, and his examination continued, if deemed advisable by the Examiner, and he may be passed or failed, having due regard to his practical knowledge, and to whether he is being examined for second class or first class.

69. **Drawing.**—With regard to a candidate's drawing, when the word "consider" is telegraphed instead of either of the words "fail" or "pass," it must be understood to mean that the examination may be proceeded with so far as the drawing is concerned, and the candidate passed if in the remaining part of it he shows a superiority in practical knowledge.

70. **Elementary Questions.**—All Engineer applicants presenting themselves for examination will be required to give written answers to ten questions selected from Elementary Questions shown in Appendix C, page 558. These questions are intended to furnish a record to some extent

of the candidate's knowledge at the time of his examination and also to induce the candidates to pay more attention to their handwriting and spelling.

Examiners will require all candidates to fill up a form Exn. 15*b*, and they will forward it to the Chief Examiner of Engineers with the report of the examination.

The elementary questions will, as a rule, be given on the second day of the examination to candidates for second class, and on either the second or third day to candidates for first class, but candidates who have time after working the arithmetical papers on the first day or the drawing on the second day may be allowed to go on with the Elementary Questions.

The questions for both classes of Engineers will be taken from the same series of Elementary Questions; and candidates for First-class Certificates are expected to show their superiority by giving answers more complete than those of the other candidates.

71. Viva Voce.—Having regard to the fact that when the verbal examination is held, the candidate has already passed in arithmetic, and, if a first-class candidate, in drawing, and has also written answers to the elementary questions, the Examiners should deal with practical, rather than theoretical, questions in this division of the examination; and no candidate should be failed in the verbal examination without having been well cross-questioned on the points for which failure takes place. Candidates may, however, be failed in the written elementary paper without being examined *viva voce*. In cases where the Examiner approves of the elementary paper, but fails the candidate for lack of either practical or elementary knowledge, a written account of the points on which he failed must be forwarded to the Chief Examiner of Engineers with the elementary papers and the Report Exn. 15.

The elementary questions to be answered on Form Exn. 15*b* are good starting points in *viva voce* examinations. With the candidate's written answers before the Examiner, the same question can be put in a way requiring the answer in another form. Each question may be developed into several according to the circumstances of the case, *e.g.*:—

1. What is made of? Of what parts does it consist?
2. What is its use?
3. What attention does it require at sea?
4. What attention does it require in port?

5. When it becomes defective, what is it that principally goes wrong with it ?
6. How is it repaired ?
7. What alteration may prevent a recurrence of the defect ?

It is considered of great importance that Engineers presenting themselves for examination should have an extensive knowledge of the particulars of actual casualties which have occurred at sea, and be able to state how these might have been prevented, and how remedied. Sometimes an Engineer presents himself who has had no personal experience of any defects, and who can tell nothing about casualties to machinery which have occurred in the experience of others: such candidates should be closely questioned as to their knowledge of boiler and engine construction and the repairs of same.

The management of engines and boilers at sea, the duties of the Engineer on watch, the work to be done to the engines, boilers, and auxiliary machinery in port, and the periodical examinations of the working parts, should form part of the *viâ voce* examination.

72. **Reports of Examinations.**—Reports of Examinations on the form Exn. 15, together with the examination papers, forms Exn. 37 and face sheets, should be forwarded to the Port Officer immediately the examinations are completed, together with the candidate's application to be examined, (form Exn. 3) duly filled up, and his previous Certificate, if any.

APPENDIX D.

EXAMINATION IN ROUGH WORKING DRAWING FOR A FIRST-CLASS ENGINEER'S CERTIFICATE OF COMPETENCY (Form Exn. 17.)

1. The regulations in regard to the qualifications of a candidate for a First-class Engineer's Certificate of competency specify that,—

> "He will be required to make an intelligible hand sketch, or a working drawing of some one or more of the principal parts of a steam-engine, and to mark in, without a copy, all the necessary dimensions in figures, so that the sketch or drawing could be worked from."
>
> "He must be able to state the general proportions borne by the principal parts of the machinery to each other."

2. In accordance with these clauses, a candidate for a First-class Certificate is required to make a rough working drawing of the parts specified as on page 583. An Engineer who has been some years in charge of marine Engines and boilers ought to have familiarly in his mind the general construction of at least one set of engines and boilers, say that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will entail failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations, just as the candidate would require to be supplied to him if he had to make the parts represented to the design of another person.

4. A clear hand sketch showing the construction completely, and fully dimensioned, will be accepted if the candidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as evidence of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance, but, as sample material from which the extent of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, pratically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has not fully dimensioned.

10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order but a recommendation.

12. The candidate is not expected to design anything; he has merely to sketch or draw something with which he has expected to be already familiar. At the same time he should call attention to any defect in the design of the article or apparatus. Omission to do so will imply want of practical knowledge.

13. Pencil in noting after half-past 3; all the dimensions, the figures, and the drafts must be inked in; employ the remaining time in examining the drawing and in inking in any figure which may have been before overlooked, and in checking the dimensions.

14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

APPENDIX E.

READING THE WATER-GAUGES.

Notwithstanding that the reading of the water-gauge is made a special feature in the examination of Engineers, many boiler casualties from result the Engineer of the watch either not understanding the construction of the water-gauge fittings or not satisfying himself by actual trial that the cocks, pipes, &c, are clear.

In one case, two furnace crowns came down in a steamer that was just starting on a voyage. The Engineers were satisfied that there was plenty of water in the boiler because the water-gauge showed full glass, and they called the attention of a Board of Trade Surveyor to this fact as being conclusive evidence that the casualty could not have resulted from shortness of water. On examination of the fittings, however, it was found that the cock between the boiler and the steam pipe leading to the gauge was shut, having been carelessly left in that position on the previous day when the mountings were overhauled for survey. Directly the cock was opened the water disappeared from the gauge glass, and the Second Engineer admitted that he had blown down the boiler in order to lower the water level, as the glass was full.

Many steamers have had their furnaces brought down at sea in a similar manner to the above through what the Engineers of the watch have called "false water in the glass," and which on examination has been found to result from the top communication being choked.

These casualties resulted from what, to say the least, was bad management, not false water.

Unless a candidate under examination is able to prove that he understands how to verify the indications of the water-gauge, he should not be passed in practial knowledge and, as failure in practical knowledge involves the candidate going to sea for another three months before being eligible for re-examination, the Examiner should explain to such candidate his error, after failing him, in order to prevent further casualties resulting from his want of knowledge on this subject.

The sketches, Figures 1, 2, 3, 4 and 5, Plate I., represent the usual methods of attaching water-gauge mountings to marine boilers. The important features in each gauge and the method of verifying its indications are dealt with separately in the following remarks:—

REFERRING TO FIGURE 1 ONLY.

In this case the water-gauge cocks are attached direct to the boiler, and the accuracy of the gauge when the boiler is under steam can be tested as follows:—.

First.—Let B remain open, then close cock D and open cock E, and if steam issues it proves that cock B and the passage through the top fitting and gauge glass are clear. If no steam or water issues, either cock B or the passage through the top fitting and gauge glass is choked and the gauge cannot act properly until the obstruction is removed.

Second.—Close cock B and open D and E, and if water issues, cock D is clear. If no water or steam issues, either cock D or the passage from the boiler through the lower fitting is choked and must be cleared before the gauge can act properly.

REFERRING TO FIGURE 2 ONLY.

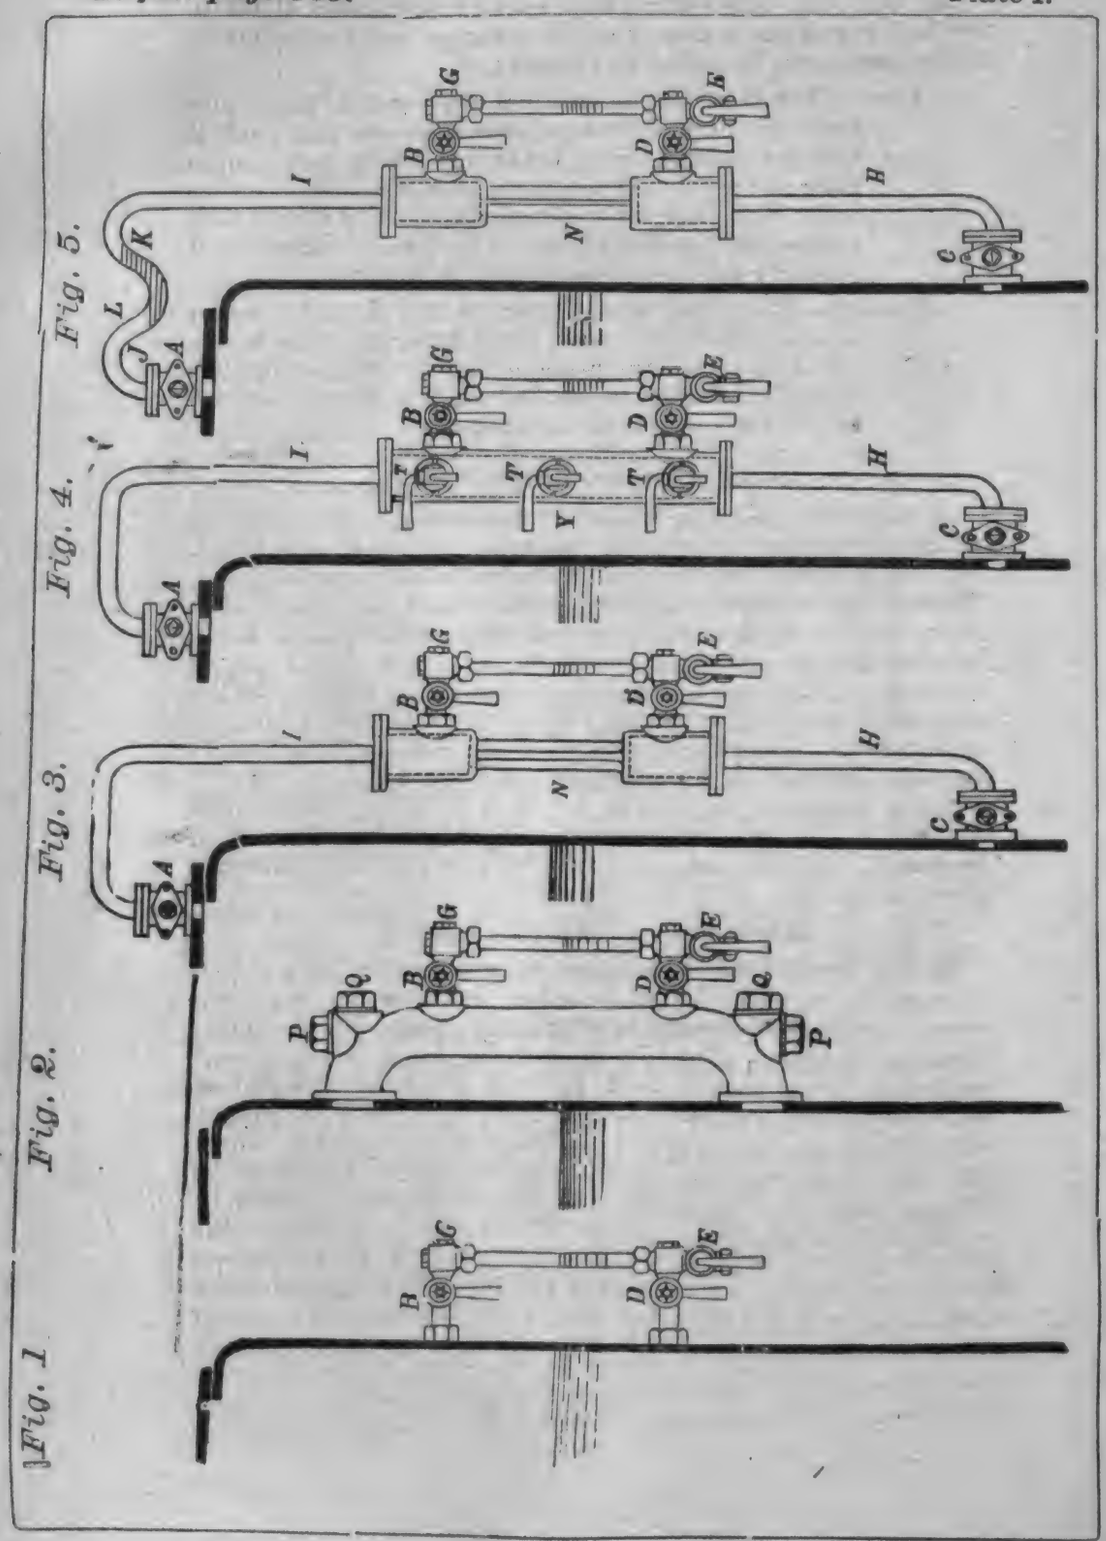
In this case the gauge cocks are attached to a bent pipe of comparatively large diameter (at least 3 inches in the bore), the upper end of which communicates with the steam space, and the lower end with the water space of the boiler. owing to the bore of the pipe being large it is not liable to become choked or stopped under the ordinary conditions of working. The water-gauge is, therefore, in practically the same condition as if it were attached direct to the boiler, as in Figure1. This gauge, when at work, is tested in precisely the same manner as the one shown in Figure 1.

Screw plugs are inserted at P.P. and Q.Q, by the removal of which the apertures in the pipe can be cleared, if necessary, by the insertion of a wire or rod when steam is down.

REFERRING TO FIGURE 3 ONLY.

In this gauge there is an open communication from A to C through the column Y, and in order to "blow through the *glass*" it is only necessary to shut cocks D and B alternately keeping E open. But to "blow through the *water-gauge*," including the pipes H and I, it is necessary, after blowing through the glass as described above, to shut A and C alternately. at the same time keeping B, D and E open for such time as will ensure the complete discharge of the contents of the gauge and its connections. When B, D and C are clear and A choked the steam lodging in the glass and in the pipe I leading from column Y to A becomes condensed and the water flowing through C to take its place rises in column Y and in the glass to a level above that of the water in the boiler. In other words, the gauge shows a

To face page 585. Plate 1.



false level. If now E be opened and water is blown out, then on E being again closed the water in the gauge will rise higher than before and be still further misleading. On the other hand, when B, D and A are clear and C choked, the water, if any, in the glass is trapped and no longer rises and falls with the water in the boiler or with the motion of the vessel; it, however, slowly rises in the glass owing to the condensation of the steam in the upper part of the gauge until such time as E is opened when the whole of the water in the glass is blown out, and on E being closed the glass does not show any water notwithstanding that the water in the boiler may be at the proper level. When the test cocks T T T are attached to column Y, as shown in Figure 3, they case to be reliable when either cock A or C or the pipe in connection therewith is choked, or nearly choked.

REFERRING TO FIGURE 4 ONLY.

Sometimes the water-gauge fittings are arranged as shown in Figures 4 and 5, with no passage up the column, the central portion (N) of the column being simply a pillar or connecting piece of any convenient section between the upper and lower portions to which the cocks B and D are attached.

By this arrangement double communications are obviated and there is no need for what is known as "double shut off" in testing the accuracy of the gauge. When, however, the gauges are constructed in this manner the cocks B and D are unreliable as test cocks in the event of there being no glass in the gauge. This feature should be carefully noted. Moreover, when in working condition the reduction of pressure in the glass which arises when E is opened causes the water in pipe H to rise above its normal level. This objectionable feature should also be noted.

REFERRING TO FIGURE 5 ONLY.

Sometimes there is a bend, L, in the steam pipe, I leading from cock A to cock B. This has occasionally escaped observation when new boilers have been fitted on board ship. In most cases this bend arises from the pipe being led in an abnormal direction to escape other pipes, beams or fittings near the smoke box With such a bend the condensed steam collects in the pipe and falls to the bottom of the bend, and in time it completely fills the pipe from J to K The steam from K down to the level of the water in the glass is thereby trapped and, as condensation proceeds, leads to a reduction of pressure in the pipe below that of the boiler and an equivalent rise of the water in the bend and also in the gauge glass. When the vessel is quiescent

the water in the gauge glass increases in height until cock E is opened or until the pressure in the boiler is so much in excess of that in the lower part of pipe I, as to cause the water in the bend to be blown into the gauge glass. In either case instantaneous change to water level in the glass ensues.

In the ordinary course of working the phenomenon described above is more or less modified by the presence of air in the upper part of the gauge and by the rise and fall of the water in the boiler and gauge glass arising from the rolling or pitching motions of the vessel.

OTHER SPECIAL POINTS TO BE NOTED.

When the cocks A and C are omitted, as in Figure 2, it is owing to the bore of the stand pipe being sufficiently large to enable it to be regarded as part of the boiler. Such pipes require, however, to be examined and cleared at intervals by passing a rod through the holes provided for the purpose at P P. and Q.Q.

Cocks at A and C are not necessary for the testing of gauges arranged as shown in Figures 4 and 5. Examiners ought, however, to make sure that candidates are aware of the impossibility of testing the reliability of the indications of water-gauges arranged as in Figure 3 when the cocks A and C are absent and of the effect which the choking of cock A or C, or pipe H or I has on the indications of the test cocks T T. T. attached to column Y.

Probably more than half the steamers afloat are fitted with water-gauges as shown in Figures 3 and 4, and it is therefore specially important that engineer candidates should thoroughly understand their construction, the principle on which they act, and the steps which must be taken to keep them in an efficient condition.

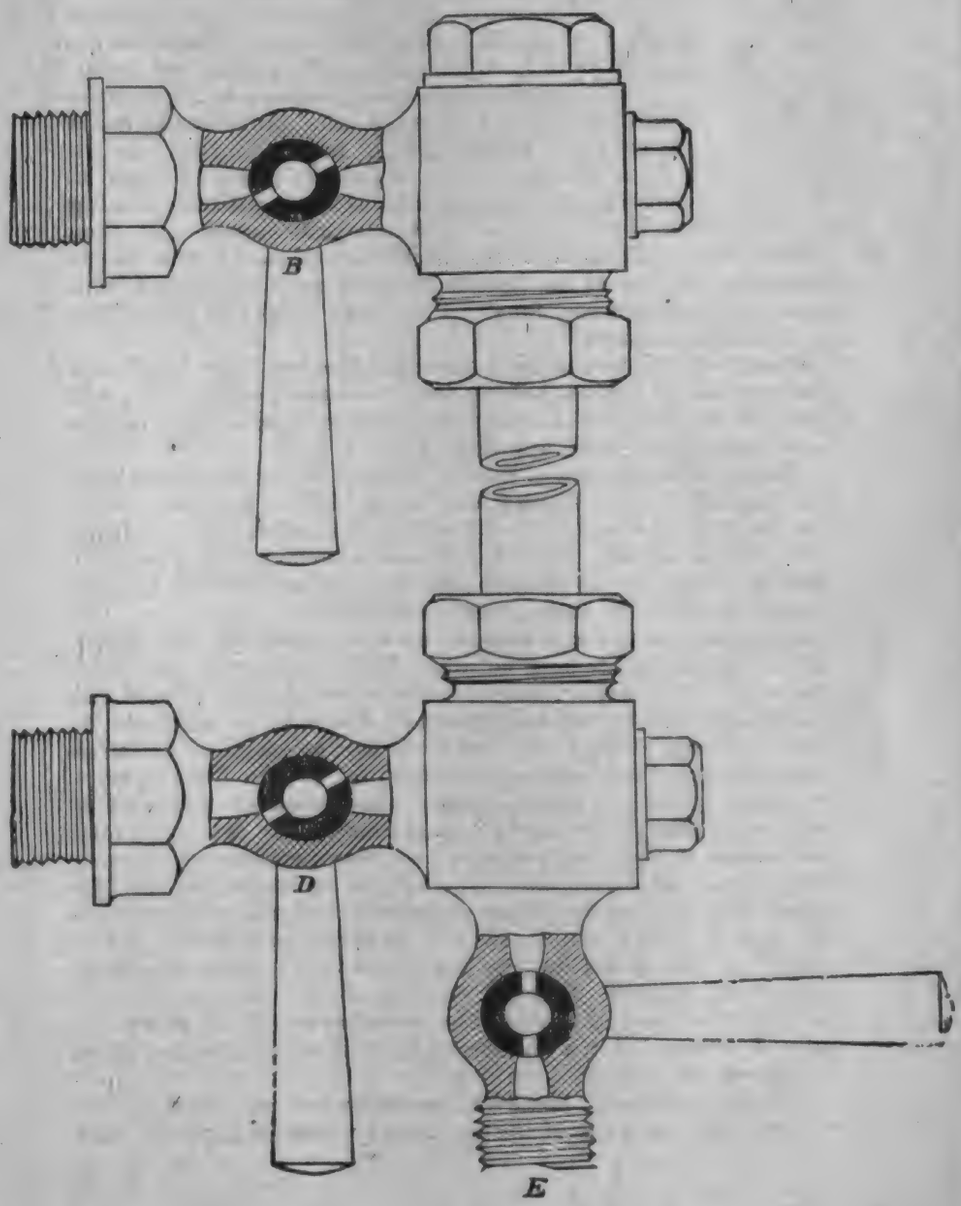
When fitting a gauge glass into its place it is specially important that it should not be placed so high as to prevent a clearing rod being inserted at G, Figures 1, 2, 3, 4 and 5. This defect, especially if it occurs in a water-gauge attached to a boiler subject to priming, permits a rapid accumulation of scum around the top of the glass and results in the choking of the orifice leading from cock B to the gauge glass in each of the figures.

When a gauge glass is too short or is placed either too high or too low in the fittings, it is also liable to become choked by the packing material being forced over its ends by the glands whilst being screwed up.

The use of unsuitable or insecure internal pipes in connection either with the ordinary glass gauge cocks of the description shown in Figure 1, or with test cocks which are jointed to the boiler itself should also be carefully guarded against.

To face page 590. Plate 2.

Fig 6.



Boiler casualties have resulted from the cocks B and D having the parts wrongly placed as shown in Figure 6, Plate II. In one case of that kind which forms the subject of Report No. 208 under the Boiler Explosions Acts, the Engineer in testing the water-gauge omitted to see that the passages in the cocks B and D were clear *when the handles were in their proper working position*. This defect could easily have been discovered if proper attention had been paid to the condition of the cocks. A defect of this nature may be due to faulty construction originally, or to the handle of the cock having been overstrained, and the neck twisted. Whether the passages in the plugs are fair and clear can, however, be verified in a few minutes. As an illustration, the water cock D, Figure 6, Plate II., can be verified by blowing through E with B shut and then moving the handle of D to one side until it is just closed, and then to the other side until it is again just closed; the proper working position of the handle is about equally distant from each of the above positions. The other cocks can be verified in the same manner.

Another serious casualty occurred through the handle of the cock A, Figure 3, having been twisted from its original position relatively to the orifice of the cock, resulting in the cock being shut when apparently open.

When a water-gauge, that is clear in all its parts, has been thoroughly blown through, the water in the glass rises above the level at which it formerly stood, immediately the drain cock E is closed, but if left undisturbed for a time it gradually falls to its former position The amount of rise which occurs on these occasions depends chiefly on the temperature of the contents of the boiler and on the length of the pipes by which column Y is connected top and bottom to the boiler, but in cases where the gauge is of the description illustrated in Figures 3, 4 and 5, it amounts in high pressure boilers to about 4 inches, while the time occupied by the water in returning to its former level ranges from 30 to 40 minutes. The cause of this rise is twofold, namely (*a*) the displacement of the comparatively cold water in pipe H by hotter and proportionately lighter water from the boiler, and (*b*) a slight condensation of the steam and a corresponding fractional reduction of pressure in pipe I. The cause of the gradual subsidence of the water in the glass to its former level is also of a dual character, namely (*a*) the cooling of the water in pipe H, and (*b*) the diminution in the condensation of steam in pipe I owing to the collection therein of air released from the steam condensed.

These results will, however, be somewhat modified if the water in the boiler is of higher density than in pipe H, and

this will nearly always be the case owing to the condensation of the steam in the glass and upper fittings of the water-gauge, causing the water in the lower part to be fresher than that in the boiler.

The Examiner should impress upon candidates the necessity for periodically blowing through the water-gauge on each boiler (no matter what the form may be) in a systematic and thorough manner, and, in cases where a boiler is fitted with two water-gauges, of keeping both in constant use; finally, he should further impress upon them the necessity for keeping the water-gauges well lighted, clean, and in all respect efficient.

APPENDIX F.

DANGERS ATTENDING THE EXISTENCE OF A VACUUM IN BOILERS.

The attention of Examiners of Engineers is called to the following report relating to a fatal accident to an Engineer on board a British ship, and they are requested to see that all candidates for Engineers' Certificates realise the danger of removing a manhole door without taking the necessary precautions.

Board of Trade Surveyors' Office,
79, Mark Lane,
London, E.C.,
December 1st, 1898.

SIR,

WE beg to report that in accordance with your instructions we visited the S.S. "Elderslie," O. N. 89,929, and inquired into the cause of the death, at Smyrna, of Ernest Marshall, Third Engineer of that steamer, on the 15th October, 1898.

The "Elderslie" is a screw steamer, built in 1884, of 2,761 tons gross and 1,801 tons net register. The engines are compound, direct-acting, and there are two double-ended boilers of the usual marine type, each boiler having six furnaces, three at each end, W. P. 90 lbs. Mr. E. Marshall, the Third Engineer, was found dead in one of the boilers under circumstances which are not readily understood.

The Chief Engineer, Mr. Bishop, repeated to us a statement which he had previously made, and he was corroborated, so far as his personal knowledge went, by the Second Engineer, and also by a Greek fireman, Spiloni, and the other firemen in the engine-room and stokehold at the time. It is clear that on the vessel's arrival at Smyrna on the 14th October, after the fires had died out, the boilers were blown down between 5 and 6 P.M., and, by the instructions of the Chief Engineer, the Third Engineer proceeded at 7 A.M. on the following morning to take the manhole doors off. (The manholes are 16¼ inches by 12¼ inches, and are in the end plate at the after end of the boiler) He was assisted by Spiloni, who was usually detailed to work with him, and who says

that one nut and one dog or cross-bar had been taken off the door, and the other nut started, when the Third Engineer sent him to prepare to take the door off the manhole of the other boiler. Spiloni left the Third Engineer, went down a ladder into the stokehold, across the stokehold, up another ladder to the starboard boiler, and immediately afterwards, hearing a loud report, went back to the port boiler where he had left the Third Engineer, and saw nothing but that the door was off and not in sight. What happened in the interval between this fireman leaving the Third Engineer and his return in a few minutes can only be reasoned out from the conditions and circumstances of the case as there is nothing definitely known.

The Engineers and Engineers' crew were at this time engaged as follows:—

Chief Engineer on deck.

Second Engineer in engine-room at H.P. cylinder; one fireman with Second Engineer; one fireman with Third Engineer; four firemen cleaning engines, and two trimmers cleaning tubes in boilers.

The Second Engineer in the engine-room heard the report—he says, about 7-15 A.M.—and describes it as being like the sound caused by coal falling in the bunkers. The Chief Engineer knew nothing until informed that the Third was missing. Spiloni and others had been looking about and inquiring for him. The Chief joined in the search and finally went to the manhole, when he noticed that the door was off, and not to be seen. He states that the boiler was so hot inside that he could not keep his hand in, and that on trying to put his head in the manhole he found it impossible to do so. Hot vapour was coming out of the manhole. His first thought was that the Third Engineer had allowed the door to drop into the boiler, and, attempting to get it out, had gone into the boiler, and been overcome by the heat. He tried to look in with lamps, &c., but could not see anything. He then got the bottom doors off, first the after bottom door and then the forward one. He could not see anything through the after door, but on looking in the forward bottom door he saw blood on the sides of the furnaces —that is, he explains there was some fresh blood as if running down on the side of the centre and wing furnace near to the forward end of the boiler. This was at 7-45 A.M. The boiler was allowed to cool down and in about four hours the body of the Third Engineer was got out. It was found lying on two of the longitudinal stays close to the forward end plate, and opposite the manhole.

The door was found on the top of the tubes almost underneath the body, and one of the dogs beside it,—both of the studs in the door were bent and a small piece of rope was fastened to one of the studs. A spanner was found on the top of the combustion box girders—that is halfway between the manhole and the position of the body, and a lamp, hammer, and chisel and broom-head or brush were found in the bottom of the boiler. When the body was got out it was found that the skull was fractured, and that the skin where exposed peeled off when rubbed. A surgeon certified that the skull was fractured but does not appear to have examined the whole body, contenting himself with seeing sufficient cause for the man's death. The Master, however, says that the arms and the shoulders looked to him as if seriously injured or broken, and that there was a deep mark on the forehead and the clothing torn in places.

The foregoing statement contains the important points of the case so far as we can gather them. We both have entered the boiler, examined the manhole and door, had the exact position where the body was found pointed out, and also that of the door, &c., and spanner. The whole story appears straightforward and is easily realised, but the causes which brought the body of the Third Engineer to the position where it was found are not so readily explained. Accepting the statements of the Master, engineers and firemen (and we have no reason for doubting them), it is clear that the Third Engineer either (1) got into the boiler of his own accord, (2) was put in by others, or (3) met his death accidently by causes unforeseen and unnoticed, and which no one contributed to, except, himself, and that unknowingly. The first two causes must it appears to us, be dismissed—the position of the body and the statement as to the high temperature of the boiler and other reasons rendering them absolutely inadmissible; and after considering the whole circumstances of the case, we are of opinion that the death of the Third Engineer was brought about in the following manner:—

The boilers were blown down and left, neither safety-valves nor cocks were opened (the Chief Engineer says he gave instructions to open the gauge cocks, but found them shut) so that when the steam condensed there would be a vacuum in the boilers. The manhole is in the after end plate, there is a small platform almost in a line with the door. The deceased took off both the nuts without starting the door, one dog was taken off, the other turned partly round, a piece of small rope (which the Second Engineer says was very weak stuff) was fastened to one

of the studs of the door and to the gauge glass stand. He then stooped down in almost a lying position, probably holding the door by one of the studs, or by the rope, with one hand, and perhaps tapping it with the spanner in the other hand, when the door started, was suddenly driven inwards by the pressure of the atmosphere with great force, the rope broke, and the deceased, involuntarily tightening his grip on the stud or rope, was drawn into the boiler—the inrush of air assisting this movement, as his body became near to or partly filled the hole—and he was propelled with such violence as to fracture his skull on the other end of the boiler, or it may be by striking the plate at the manhole as his head was entering it.

This explanation which, from its singularity may at first appear somewhat doubtful, is the only one which we think fits all the known facts of the case, such as:—the short interval which elapsed between the time when the fireman Spiloni left the Third Engineer and his return to the manhole; the short time from starting work at 7 A.M. until the report was heard 15 minutes later; the sudden disappearance of the Third Engineer; the condition and position of the body when found, the position of the door, spanner, &c.; and also the high temperature of the boiler.

It certainly appears extraordinary that a man could be drawn into a boiler through a manhole with such force as to fracture his skull on the end plate, 16 feet from the hole, and in a direct line with it, but the stays would form a sort of guide to keep the door and body travelling in a horizontal and direct line, and it may be added that the deceased was not a big man. He is said to have been about 10 stone in weight and 5 feet 5 inches high. It can be seen by examination of the small platform at the manhole that the occurrence is at least quite possible. At any rate, unless the whole story is disbelieved, a manhole door weighing 85 lbs. was found along with the body of the Third Engineer, close to the end plate furthest from the manhole, and had been in that position for some hours and from a time when the condition of the boiler was such that no one would have entered it, or could have lived therein.

We wish to add that, although death under the above circumstances is probably unprecedented, the violent inrush of a manhole door due to vacuum in the boiler has been frequently experienced. A case somewhat analogous occurred in one of the steamers of the ——— Line, which hearing about, we inquired as to the facts from

the Superintendent who kindly sent a letter describing the case, a copy of which is given below.*

We have inquired in reference to the circumstances of this case of the Master, First and Second Engineers Spiloni, and the other men. The firemen are Greeks and understand very little English. The present Third Engineer who is a native of Smyrna, and can speak English and Greek acted as interpreter.

The area of the manhole, 16½ in. by 12½ in is about 156 square inches, and assuming a temperature of about 18 degrees in the boiler, there might exist an external pressure of 7 lbs. per square inch, which, if suddenly applied, would exert a force of 1,092 lbs.,—at any rate sufficient force would be exerted to set up a high velocity on the door when suddenly relieved.

* *Copy of Letter above referred to.*

Referring to our conversation this morning, relative to the death of an Engineer in a boiler on board a British steamer at Smyrna, it affords me some pleasure to give you the details of an almost similar occurrence on board one of the steamers of the ———Line some few years ago. They are as follows:—

The vessel arrived on a Saturday evening, and it being necessary to get the men in the boiler at the earliest possible moment for cleaning purposes, one of the junior Engineers was ordered to the ship on Sunday morning. His instructions were to pump the remaining water out of the boiler, and he did this without admitting air. So far as we were able to gather at the time, it seems that the Engineer, together with a Chinese fireman, went to take off the lower manhole door. This door was some few inches above the stokehole floor, and, as is the usual practice of Chinamen, the fireman assumed the "squatting" attitude. He was left to himself to remove the nuts and dogs of the door, and when he had done so, he started the door, and was instantaneously drawn in towards the boiler, his stomach practically closing the aperture, and the door swinging to the back of the boiler with a loud report.

Hearing the fireman's cries, the Engineer opened the gauge cocks in order to admit air to the boiler, whilst the fireman in the meantime suffered great agony, being pinned in this position until the vacuum was destroyed.

When the matter was reported to me the next morning, I saw the fireman, who complained of internal injuries. These, however, do not appear to have been of a severe nature, as the man was able to resume his work in a few days.

APPENDIX G.

EXAMINATION OF MASTERS AND MATES IN STEAM.

These examinations are provided for the purpose of giving Masters and Mates who are possessed of Certificates of Competency an opportunity of undergoing a voluntary examination as to their practical knowledge of the use and working of the steam engine. The Examiners are appointed by Government.

The examination is open to any person who holds a Certificate of any grade in the Foreign or Home trade or as Master of his own pleasure yacht. Candidates should fill up the form of application, Form Exn. 2, at the Port Office, pay the fee of Rs. 15, and deposit their Certificates and testimonials with the Port Officer who will inform the applicant when and where to attend to be examined. If the candidate fails to pass his Certificate will be at once returned to him.

If he passes, the report (Exn. 15) will be sent to the Port Officer and the Certificate together with the Form Exn. 2, will be sent to Government; the words, "Certified to have passed in Steam," with the date and place of examination, will then be entered on the Certificate and its counterpart, and the Certificate will be sent to the Superintendent of the Mercantile Marine Office of the port named in the Form Exn. 2, and be delivered to the candidate in the usual manner.

If a candidate fails he may not present himself for re-examination until the expiration of three months from the date of failure.

The examination is for the most part *viva voce*, and extends to a general knowledge of the practical use and working of the steam engine, and of the various valves, fittings, and pieces of machinery connected with it; and of the way in which electric lighting is carried out on board ship. Theoretical questions on calculations of horse-power or areas of cylinders and valves, or any of the more difficult questions relating to steam engines and boilers, will not be asked.

Examiners are to satisfy themselves that the candidates know the names and understand the uses of the various parts of engines and boilers, and their connecting pipes, valves, cocks, &c. Practical knowledge, as distinguished from theories and abstruse calculations, is to be the test of the candidate's fitness to have his Certificate endorsed.

The Examiner should arrange to conduct part of the examination in the engine room of a steamship, unless, from

circumstances, he finds it impossible to do so; but in the event of the candidate passing, the Examiner should state in writing what circumstances prevented a visit to an engine room. If an opportunity offer, the candidate should be permitted, under the guidance of the Examiner, to start and stop the engine of some vessel which may have her steam up.

The Examiner, in sending in his report of the examination, should state where the examination has been held.

Candidate will be required to give written answers to sixteen out of twenty questions taken from the Elementary Questions printed in Appendix C. These questions will be altered from time to time without notice. The twenty questions are not to be difficult, theoretical, or book questions, but are to be such as any man of ordinary capacity, who has any practical knowledge of the use and working of the steam engine ought to answer.

These questions, with the candidates' answers should be sent to the Port Officer, with the reports, after each examination.

If a candidate refers to any book or paper or memorandum, or obtains information from another candidate or any other person during the examination, he will be treated as having failed, will forfeit his fee, and will not be allowed to be re-examined for a period of three months.

The Examiners will report in the case of failure, the nature of the question or questions that decided the failure, or the point in the management of the engine in which the candidate was deficient.

There is nothing in the regulations requiring that applicants for the voluntary examination shall have served on board steamships; all that is required is that they shall have a practical knowledge of the use and working of the steam engine. Examiners will not fail to appreciate the fact that practical knowledge is best gained in the engine-room; and the examination of an officer who does not produce official evidence of service in steamships, and of experience of engines, must necessarily be more searching than in the case of one who produces evidence of such service and experience.

Examiners will require all candidates to fill up a Form Exn. 15 *b*, and they will forward it to the Port Officer with the report of the examination.

Masters and Mates may cancel questions A, B and C, but they should fill up the form for questions D, E, F and G as evidence of their practical knowledge.

A candidate for this examination is required to have a thorough grasp of the construction of the steam engine and

boiler, to enable him, in the first place, to understand the nature and importance of any defect which may be reported to him by the Chief Engineer, and so that he may work in harmony with him in affording time and facilities for disconnexions, inspections, adjustments, and repairs;

to have a looking-on knowledge of what the principal repairs are about engines and boilers and pipes, and how these repairs are accomplished;

to be able to form an independent opinion as to a break-down, and the consequent propriety or impropriety of proceeding under steam with temporarily repaired or defective machinery;

to understand how to estimate approximately the reduction of fuel required for reduced speed, and consequently to sanction such reduction of speed as may seem to him to be warranted by the report of the Chief Engineer, and to satisfy himself before leaving port that there is sufficient coal for the voyage;

to have an intelligent grasp of the general run of pipes and connexions in the engine-room, the marking of cocks, the opening and closing of cocks and valves, how mistakes of importance may be made in the confusion of an accident, and how best to guard against such mistakes;

to be capable of being left in charge of the feeding of a set of boilers, to understand the working of the water gauge, and to be able to guard against being misled by false indications of the gauge glass;

to understand about blowing down and surfacing, the reasons for doing so, and the danger which may result from the neglect of these under certain circumstances.

A Master or Mate presenting himself for examination in steam must be understood to have made up for his want of practical experience by reading up about the steam engine. He ought, therefore, to show that he has given his mind to intelligently understanding the *rationale* of the action of the steam engine. Under this head he should, therefore, be able to state approximately the quantity of heat required in the formation of steam, the remarkable relation of "latent" heat to "sensible" heat, how much steam can be raised by the combustion of one pound of coal, what horse-power measure is, what indicated horse-power is, what is the action of the slide-valve, the course of the steam through the engine, and the advantage of working expansively, and how the expansive action is shown by the indicator diagram. To know the uses of the various parts of the engines and dynamos used for electric lighting, and how they and the cables are fitted in the hull; how wires are jointed, insulated, and cased; why it is desirable that they should be led along places which are dry and accessible; what is "short

circuiting," and what are the causes which produce it; what is its danger in coal bunkers and petroleum carrying steamers; what are the uses of switches and cut-outs, and why is it so important to prevent short-circuiting taking place.

The candidate has to answer in writing 16 out of 20 questions selected from the Elementary Questions (*see* Appendix O.).

Selections for this examination are given on the alphabetic sheet for "Steam." Generally, these answers are given by candidates as learned by rote from a book; the candidate should therefore be asked such *viva voce* questions as will necessitate his giving his answers in different words, so as to discover whether he has the root of the matter in him.

The principal part of the *viva voce* is the examination on board a steamer, preferably one with which he is unacquainted. He is told to look about and try to find out the run of the machinery without the assistance of anyone; the Examiner to be in the engine room to see that this independent examination is properly carried out. When the candidate reports that he thinks he knows the whole arrangement of the machinery, the Examiner will then question him on the uses of the parts, get him to point out the different cylinders, pumps, valves, condenser, &c.; also the dynamo, its field-magnets, armature, commutators, brushes, cables, &c. He must show that he understands the run of the pipes in the bilges, not necessarily that he has gone over every one of them, but he ought to be directed to trace, at least, one important range of pipes, and to thoroughly satisfy the Examiner that he could be safely trusted to manipulate the valves or cocks in connexion therewith. It will not often be practicable for the candidate to be asked to actually work engines under steam, but he must satisfy the Examiner that he knows how to do so, and that he is aware what precautions have to be taken in regard to water in the cylinder, &c. It is most important that a candidate should show that, in the event of an accident depriving him of the assistance of engineers, he knows what to do to safely take his vessel to an anchorage, or to stop the engines and proceed under sail alone.

The examination of a mate in steam is the same as that of a master The knowledge required has no reference to the mate's position A mate may be examined, but such examination implies that the mate will one day be a master, when the possession of the knowledge will be an advantage to him in the discharge of his duties as master.

---

* This Code consists, not only of rules made under ss. 24 and 25 of the Cantonments Act, 1910 (XV of 1910), but also of certain enactments applied in exercise of the powers conferred by s. 23. Thus the provisions contained in, for example, s. 174 of the Code could scarcely be made the subject of a rule under the Act, and would probably be held to be *ultra vires* if the rule-making power were relied upon to give them validity; but they are taken, *mutatis mutandis*, from s. 188 of the Punjab Municipal Act, 1911 (III of 1911), and their validity rests on the power of the Governor-General in Council to "extend to any cantonment any enactment for the time being in force in any municipality in British India, and declare its extension subject to such restrictions and modifications, if any, as he thinks fit". See *ante*, p. 17. In the case of each section of the Code which appears to be, in whole or in part, an "applied enactment", a reference to the original has been added on the margin.

† In addition to these definitions the definitions in s. 2 of the Cantonments Act, 1910 (XV of 1910), apply and should be borne in mind—see s. 20 of the General Clauses Act, 1897 (X of 8971). Further, the provisions of the latter Act are applicable.

The Cantonment Code, 1912.

(*m*) "market" means a place in a cantonment where persons periodically assemble for purposes of selling any articles of food for human consumption;

(*n*) "notification" means a notification in the local official Gazette:

(*o*) "notified" means published by notification:

(*p*) "private market" means a market not maintained by the cantonment authority:

(*q*) "private slaughter-house" means a slaughter-house not maintained by the cantonment authority:

(*r*) "public market" means a market maintained by the cantonment authority:

(*s*) "public slaughter-house" means a slaughter-house maintained by the cantonment authority:

(*t*) "regimental bazar" means a bazar under the management of regimental authorities;

(*u*) "Sanitary Officer" means, where no Sanitary Officer has been specially appointed, the senior executive Medical Officer in military employ on duty in a cantonment:

(*v*) "sarái" means a building in a cantonment ordinarily used, whether wholly or in part, for the accommodation of native travellers:

(*w*) "slaughter house" means a place in a cantonment ordinarily used for the slaughter of animals for the purpose of selling the flesh for human consumption:

(*x*) "source of public water-supply" includes every public well, tank, river, stream, spring, channel, reservoir or other source in a cantonment from which water is or may be made available for public use, whether or not it is used for the purposes of water-works, and also every source of water-supply situate on private premises to the use of which the public is entitled:

(*y*) "street" includes any way, road, lane, square, court, alley, passage or open space in a cantonment, whether a thoroughfare or not and whether built upon or not, over which the public have a right of way, and also the roadway and footway over any bridge or causeway: and

(*z*) "treasury" means the Government treasury or sub-treasury, or the bank or place prescribed by or under section 20 of the Cantonments Act, 1910, for the custody of the cantonment fund of a cantonment.

XV of 1910.

(*2*) Where any question arises as to whether a building is or is not a sarái, or a place is or is not a slaughter-house, it shall be decided by the cantonment authority; and the decision of the cantonment authority thereon shall be final and conclusive.

QUESTIONS AND ANSWERS.

NEW BUILDING FOR THE PATNA COLLEGIATE SCHOOL

The Hon'ble MAULVI SAIYID MUHAMMAD FAKHR-UD-DIN asked :—

I. (*a*) Is the Government aware that the term of the lease of the house which is rented for the accommodation of the Patna Collegiate School at Bankipore expires within a few months ?

(*b*) Is the Government aware that the owner of the house has declined to renew the lease ?

(*c*) Will the Government be pleased to state whether it has made any arrangement for the location of the Patna Collegiate School elsewhere after the expiry of the term of the present lease ?

(*d*) If so, will the Government be pleased to state what arrangement has been thought of ?

(*e*) Will the Government be pleased to state whether it has already made any provision in the Budget for the construction of a building for the Patna Collegiate School ?

(*f*) If not, will the Government be pleased to state whether this matter has been kept in view in preparing the Educational Budget for the new Province of Bihar ?

The Hon'ble MR. KERR replied :—

(*a*) & (*b*) "Government is aware that the term of the lease of the house, which is rented for the accommodation of the Patna Collegiate School at Bankipore, expires on the 31st July, and that the owner has declined to renew the lease.

(*c*) & (*d*) No arrangement has yet been made for the location of the school after the 31st July, but the Inspector of Schools is endeavouring to secure a suitable house for the temporary use of the school.

(*e*) & (*f*) No provision has been made in the budget for 1912-13 for the construction of a building for the Patna Collegiate School. The selection of a suitable site has been under consideration, but must be left over for the decision of the Government of the new province of Bihar and Orissa."

PRESIDENT OF THE BENCH OF HONORARY MAGISTRATES AT BARH.

The Hon'ble MAULVI SAIYID MUHAMMAD FAKHR-UD-DIN asked :—

II. (*a*) Will the Government be pleased to state whether a Junior Honorary Magistrate has been appointed President of the Bench in the Barh sub-division of the Patna district, in preference to a Senior Honorary Magistrate with second class powers ? If so, will the Government be pleased to state the reason for such appointment ?

(*b*) Will the Government be pleased to state whether any, and if so what, special qualification is necessary for such an appointment ?

The Hon'ble MR. STEVENSON-MOORE replied :—

(*a*) "The present President of the Bench of Honorary Magistrates at Barh was appointed in 1903 and has ever since performed the duties satisfactorily. He was vested with second class powers and the power to sit singly in 1909. It is true that there is another Honorary Magistrate who has exercised similar powers since 1901, but in 1903 it was decided that he was less well qualified for the post of President than the Honorary Magistrate who was then appointed to it and has now held it for more than eight years.

(*b*) The rule under which Presidents are appointed is as follows :—

> 'The Chairman of the Bench for the time being shall be the Magistrate of highest powers present at a sitting. Where two or more are of equal powers the Bench may elect its own Chairman, provided always that it shall be in the discretion of the Magistrate of the district to appoint the Chairman for each time of sitting, or generally.' "

DECLARATIONS UNDER SECTION 61 OF THE CODE OF CIVIL PROCEDURE (ACT V OF 1908.)

The Hon'ble MAULVI SAIYID MUHAMMAD FAKHR-UD-DIN asked :—

III. (*a*) Has the attention of the Government been drawn to section 61 of the Code of Civil Procedure (Act V of 1908 ?

(*b*) Will the Government be pleased to state whether it has made any declaration, as permitted under the above section, either by general or by special order?

(*c*) If not, does the Local Government propose to take early steps in that behalf?

The Hon'ble MR. KERR replied:—

(*a*) "Government is aware of the provisions of section 61 of the Code of Civil Procedure. Its attention has not been specially drawn to them by any one except the Hon'ble Member.

(*b*) No declaration has been made by Government under the section.

(*c*) The subject will be noted for the consideration of the new Government, but this Government is unable to commit it to any kind of action."

APPLICATIONS UNDER SECTION 158A OF THE BENGAL TENANCY ACT, 1885 (VIII OF 1885.)

The Hon'ble MAULVI SAIYID MUHAMMAD FAKHR-UD-DIN asked:—

IV. (*a*) Will the Government be pleased to state whether any application under section 158A of the Bengal Tenancy Act (VIII 1885) has been presented by any landlord in this Province?

(*b*) If so, how many such applications have been filed, in what areas, and with what result?

The Hon'ble MR. KERR replied:—

(*a*) & (*b*) "Since section 158A of the Bengal Tenancy Act was passed in 1907, eight applications have been received by Government for the extension of the section to different estates. Of these estates, one was in Champaran, one in Monghyr, one in Gaya, one in Shahabad, one in Jessore, one in Patna and two in Muzaffarpur. All the applications were refused by Government, because the necessary conditions were not fulfilled."

APPOINTMENT OF BEHARIS IN THE SECRETARIAT OF THE NEW PROVINCE.

The Hon'ble MAULVI SAIYID MUHAMMAD FAKHR-UD-DIN asked:—

V. (*a*) Will the Government be pleased to state whether applications have been invited from Biharis for appointment in the Secretariat of the new Province?

(*b*) If so, will the Government be pleased to state whether the Divisional Commissioners of Bihar, Chota Nagpur and Orissa have been authorised to invite such applications and to enrol the names of suitable candidates?

The Hon'ble MR. STEVENSON-MOORE replied:—

"The attention of the Hon'ble Member is invited to the reply given to Questions VII (*b*) to (*e*) on the same subject which were put by the Hon'ble Babu Braj Kishor Prasad at the Council meeting of the 26th February last."

APPOINTMENTS IN THE SUBORDINATE JUDICIAL AND EXECUTIVE SERVICES IN BIHAR, CHOTA NAGPUR AND ORISSA.

The Hon'ble MAULVI SAIYID MUHAMMAD FAKHR-UD-DIN asked:—

VI. (*a*) Will the Government be pleased to state the number of appointments which will be available for Munsifs, Subordinate Judges, Deputy Magistrates and Sub-Deputy Magistrates in Bihar, Chota Nagpur and Orissa, separately?

(*b*) Will the Government be pleased to state how may Biharis and Uriyas are serving in Bihar, Chota Nagpur and Orissa, and how many in other parts of Bengal?

The Hon'ble MR. STEVENSON-MOORE replied:—

(*a*) & (*b*) "The Hon'ble Member is referred to the reply to be given to Question No. VIII (*a*) to (*g*) to be asked by the Hon'ble Mr. Saiyid Wasi Ahmad."

FORMATION OF NEW *CADRES* FOR THE NEW PRESIDENCY OF BENGAL.

The Hon'ble SIR GOLAM HOSSAIN CASSIM ARIFF, on behalf of the Hon'ble DR. ABDULLAH-AL-MAMUN SUHRAWARDY asked:—

VII. (*a*) Will the Government be pleased to state what principles are being followed in determining the position of individual officers of—

(*i*) the Indian Civil Service,

(*ii*) the Provincial Executive Service, and

(*iii*) the Subordinate Civil Service, respectively, in the *cadres* which are to be formed for the Presidency of Bengal?

(*b*) Has the attention of the Government been drawn to the fact that in recent years promotion has been more rapid in Eastern Bengal and Assam than in this Province, with the result that a large number of officers serving in Eastern Bengal have attained to higher grades than their seniors in service in this Province?

(*c*) Is the Government aware that if, in the new Presidency *cadre*, the officers in Eastern Bengal referred to in question (*b*) are allowed to retain their present grade, it will greatly retard the promotion of many officers in this Province who are senior to them in service, and who, in some cases, will have little chance of promotion in future?

The Hon'ble MR. STEVENSON-MOORE replied:—

"The difficulties to which the Hon'ble Member has drawn attention have been experienced in arranging the division of the *cadres*. Officers of the Indian Civil Service will be placed according to their relative seniority before the 1905 partition or, if appointed subsequently, according to the India Office list. With regard to the Provincial Civil Service and the Subordinate Executive Service, no officer will loose grade promotion already given, but within their own grades officers appointed prior to the 1905 partition will be placed in the same relative seniority as before. This principle will, however, admit of exceptions due to success or failure at the departmental examinations, to special promotion, etc. The position to be taken on promotion by officers thus placed in grades lower than their juniors will be a matter for decision as each individual case arises."

APPOINTMENT OF BEHARIS IN THE VARIOUS SERVICES IN THE NEW PROVINCE.

The Hon'ble Mr. SAIYID WASI AHMAD asked:—

VIII. (*a*) Has the attention of the Government been drawn to the following passage in the despatch of the Government of India, dated the 25th August, 1911, and published in the Gazette of India Extraordinary, dated the 13th December, 1911?:—

"The cry of Bihar for the Biharis has frequently been raised in connection with the confirment of appointments, an excessive number of offices in Bihar having been held by the Bengalis."

(*b*) If so, will the Government be pleased to state whether it intends to allot to Biharis as many posts as are practicable in the various services in the new Province?

(*c*) Will the Government be pleased to state the number of gazetted appointments held by Bihari and Uriya officers in the various services under the present Government of Bengal?

(*d*) What will be the total number of such appointments in the various grades required for the new Province of Bihar, Chota Nagpur and Orissa?

(*e*) Will the Government be pleased to state how many of the appointments, ordinarily reserved for members of the Civil Service and open to members of the Provincial Service, will be allotted to Bihar?

(*f*) It appears from the Civil List that 217 Deputy Collectors are serving in the five Divisions which will form the new Province of Bihar. In other words about two-thirds of the total number of Deputy Collectors, serving at present in the Province of Bengal, are employed in Bihar. Will the Government be pleased to state whether it intends to observe at least the same proportion in allotting posts of different grades to Bihar?

(*g*) Will the Government be pleased to state whether it intends to move the High Court to observe the same principle with regard to the Judicial Service?

The Hon'ble MR. STEVENSON-MOORE replied :—

(*a*) "The answer is in the affirmative.
